*Santayana, Pragmatism, and the Spiritual Life* Henry S. **George Santayana's Philosophy of Religion** Edward W. Lovely, 2012-09-28 George Santayana 1862 1952 of Spanish descent and generally claimed to be in the canon of American philosophers was substantially influenced by his Roman Catholic origins in his philosophical disposition toward the value of tradition religious symbols and dogma His philosophical project sustained a respectful attitude toward the spiritual value of orthodox religion while the thrust of his philosophy was naturalistic and materialistic throughout There is a perception by some scholars that Santayana's philosophy evolved from a humanistic perspective to a more spiritual one in his later years It is the position of this thesis that his philosophy at the core depicting a harmonious striving toward individual happiness remained essentially consistent from his earliest publication of *Interpretations of Poetry and Religion* and *The Life of Reason* through his later works of *Scepticism and Animal Faith* *Realms of Being* *Dominations and Powers* and *The Idea of Christ in the Gospels* Santayana's philosophical approach is both phenomenological and social constructionist in its methodology significantly preempting the methodology of social constructionist theology and a post modern interpretation of religion His idiosyncratic phenomenological approach is compared with a benchmark methodology of Edmund Husserl the generally accepted founder of the phenomenological method There are also important similarities between Santayana's phenomenological approach and those of Charles Sanders Peirce and Alfred North Whitehead The basis for the comparison of the phenomenological methodology of Santayana and Husserl is their mutually similar fundamental theory of intuited essence Santayana's contribution to religious studies is not only philosophical but also theological where he has utilized Christian theological language in transposing and interpolating his philosophy of religion to the Christian drama of the salvational Christ Santayana's essay *Ultimate Religion* reflects his perspective of a disillusioned but still spiritual vision incorporating the piety discipline and spirituality of a life of reason Within the framework of this model Santayana's philosophy of religion is developed and explored Finally the relevance of Santayana's philosophy of religion to contemporary religious studies and selected religious issues is addressed with a delineation and discussion of some important aspects of his philosophical vision

*Genealogical Pragmatism* John J. Stuhr, 1997-10-16 Drawing on the work of popular American writers American philosophers and Continental thinkers this book provides a new interpretation of pragmatism and American philosophy

Pragmatism John R. Shook, 2023-05-02 A concise reader friendly overview of pragmatism the most influential school of American philosophical thought Pragmatism America's homegrown philosophy has been a major intellectual movement for over a century Unlike its rivals it reaches well beyond the confines of philosophy into concerns and disciplines as diverse as religion politics science and culture In this concise engagingly written overview John R Shook describes

pragmatism's origins, concepts, and continuing global relevance and appeal. With attention to the movement's original thinkers Charles Sanders Peirce, William James, John Dewey, and George Herbert Mead, as well as its contemporary proponents, he explains how pragmatism thinks about what is real, what can be known, and what minds are doing. And because of pragmatism's far-reaching impact, Shook shows how its views on reality, truth, knowledge, and cognition coordinate with its approaches to agency, sociality, human nature, and personhood.

**The ^AOxford Handbook of Humanism** Anthony B. Pinn, 2021-07-27 As a system of thought that values human needs and experiences over supernatural concerns, humanism has gained greater attention amid the rapidly shifting demographics of religious communities. This outlook has taken on global dimensions with activists, artists, and thinkers forming a humanistic response not only to religion but to the pressing social and political issues of the 21st century. The Oxford Handbook of Humanism aims to explore the subject by analyzing its history, its philosophical development, and its influence on culture. It will also discuss humanism as a global phenomenon, an approach that has often been neglected in more Western-focused works.

**Practicing Philosophy as Experiencing Life: Essays on American Pragmatism** Krzysztof Piotr Skowroński, 2015-08-25 *Practicing Philosophy as Experiencing Life: Essays on American Pragmatism* is a collection of texts written by top international experts on American philosophy. They consider various strands of American pragmatism from the viewpoint of practical philosophy and provide the historical background and an outline of the international encounter with other philosophical traditions. Many key figures of American thought and pragmatist philosophy are discussed. The volume combines a panorama of approaches and gives a wide scope of problems: ethical, religious, social, political, cultural, ontological, cognitive, anthropological, and others, so as to show that pragmatism can be seen as a philosophy of life and as such it focuses on the life problems of contemporary humans in particular and of humanity in general. Contributors are Jacquelyn Ann K. Kegley, John Lachs, Sami Pihlström, Krzysztof Piotr Skowroński, Kenneth W. Stikkers, and Emil Vi ovsk.

**John Lachs's Practical Philosophy** Krzysztof Piotr Skowroński, 2018-07-10 John Lachs (1934–) has been one of the most interesting American philosophers for nearly sixty years. His philosophical, educational, and public activity has been an attempt to show the relevance of philosophy to life. This is the first book dedicated to his thought. International scholars have proposed different themes in Lachs's philosophy so as to present its enormous potential. Lachs's responses to his critics show that dialogue with his critics is an inspirational activity for both sides. Lachs's way of philosophizing can be seen as exemplary for those who want to unify and present a clear and understandable articulation of moral and philosophical messages to everyone.

*The Dialogical Spirit* Amos Yong, 2015-04-30 Contemporary proposals for Christian theology from post liberalism to Radical Orthodoxy and beyond have espoused their own methodological paradigms Those who have ventured into this domain of theological method however have usually had to stake their claims vis a vis trends in what may be called the contemporary post al age whether of the post modern post Christendom post Enlightenment post Western or post colonial varieties This volume is unique among offerings in this arena in suggesting a way forward that engages on each of these fronts and does so from a particularistic Christian perspective without giving up on Christian theology's traditional claims to universality This is accomplished through the articulation of a distinctive dialogical methodology informed by both Pentecostalism and Evangelicalism one rooted in the Christian salvation history narrative of Incarnation and Pentecost that is yet open to the world in its many and various cultural ethnic religious and disciplinary discourses Amos Yong here engages with twelve different interlocutors representing different ecumenical religious and disciplinary perspectives The Dialogical Spirit thus not only proffers a model for Christian theological method suitable for the twenty first century global context but also exemplifies this methodological approach through its interactions across the contemporary scholarly inter religious and theological landscape

*Narrative Theology and the Hermeneutical Virtues* Jacob L. Goodson, 2015-01-21 In Narrative Theology and the Hermeneutical Virtues Humility Patience Prudence Jacob L Goodson offers a philosophical analysis of the arguments and tendencies of Hans Frei's and Stanley Hauerwas narrative theologies Narrative theology names a way of doing theology and thinking theologically that is part of a greater movement called the return to Scripture The return to Scripture movement makes a case for Scripture as the proper object of study within Christian theology philosophy of religion and religious ethics

While thinkers within this movement agree that Scripture is the proper object of study within philosophy and religious studies there is major disagreement over what the word narrative describes in narrative theology The Yale theologian Hans Frei argues that because Scripture is the proper object of study within Christian theology and the philosophy of religion Scripture must be the exclusive object of study To think theologically means paying as close attention as possible to the details of the biblical narratives in their literal sense Different from Frei's contentions the Christian ethicist at Duke University Stanley Hauerwas claims if Scripture is the proper object of study within Christian theology then the category of narrative teaches us that we ought to give our scholarly attention to the interpretations and performances of Scripture Hauerwas emphasizes the continuity between the biblical narratives and the traditions of the church This disagreement is best described as a hermeneutical one Frei thinks that the primary place where interpretation happens is in the text Hauerwas thinks that the primary place where interpretation occurs is in the community of interpreters In order to move beyond the dichotomy found between Frei's and Hauerwas work but to remain within the return to Scripture movement Goodson constructs three hermeneutical virtues humility patience and prudence These virtues help professors and scholars within Christian theology philosophy of religion and religious ethics maintain objectivity in their fields of study

*Natural Theology Reconfigured* Zhiqiu Xu, 2016-03-22 Classic natural theology in its logical rational Aristotelian presentation has encountered an impasse Since the Enlightenment nature has ceased to be a vital topic in theological discussions until a recent revival of interest stemming from ecological and feminist concerns Provocatively transcending boundaries between Philosophy and Theology ancient and contemporary East and West *Natural Theology Reconfigured* revitalises the validity and relevancy of Natural Theology a shipwrecked concept in the West with the aid of Eastern Confucian Axiology and American Pragmatism

**George Santayana's and William James's Conflicting Views on Transcendence** Antonio Rionda, 2024-10-25 This book studies the philosophical work of George Santayana and the nature of his work's relationship with that of American philosopher William James James is consistently dismissive of the all is vanity state of mind which arguably represents the opposite of America's activist progressive ideals The Spanish Santayana made the overcoming of vanity or detachment central to his vital philosophy which he had to gradually disentangle from the forces he found at work in America This book then traces Santayana's intricate response to James from its earliest expression in *Interpretations* to his later *Realms* Rather than attempt to arrive at a final interpretation of either one's philosophy Antonio Rionda emphasizes what James refers to as the hotspot of each one's thinking James's is best described as positivistic Existentialism and Santayana's as phenomenological intuitionism Santayana's post Hegelian approach to doing philosophy allows for him to incorporate James's major insights into his own thinking The problem of how psychology relates to philosophy led Santayana to posit literary psychology as an alternative to its scientific variety which once disentangled from James's psychologism represents the greatest virtue of James's thinking

**Edward Said and the Religious Effects of Culture** William D. Hart, William David Hart, 2000-04-13 This book provides a distinctive account of Edward Said's critique of modern culture by highlighting the religion secularism distinction on which it is predicated It refers to religious and secular traditions and to tropes that extend the meaning and reference of religion and secularism in indeterminate ways It covers Said's heterogeneous corpus from Joseph Conrad and the Fiction of Autobiography his first book to Orientalism his most influential book to his recent writings on the Palestinian question The religion secularism distinction lies behind Said's cultural criticism and his notion of intellectual responsibility

**Hermann Lotze** William R. Woodward, 2015-06-09 As a philosopher psychologist and physician the German thinker Hermann Lotze 1817-81 defies classification Working in the mid nineteenth century era of programmatic realism he critically reviewed and rearranged theories and concepts in books on pathology physiology medical psychology anthropology history aesthetics metaphysics logic and religion Leading anatomists and physiologists reworked his hypotheses about the central and autonomic nervous systems Dozens of fin de siècle philosophical contemporaries emulated him yet often without acknowledgment precisely because he had made conjecture and refutation into a method In spite of Lotze's status as a pivotal figure in nineteenth century intellectual thought no complete treatment of his work exists and certainly no effort to take account of the feminist secondary literature Hermann Lotze An Intellectual Biography is the first full length historical study of Lotze's intellectual origins scientific community institutional context and worldwide reception
