A Place Called Eden Debasree Banerjee,2020-02-29 A Place called Eden is what we all aspire for Eden is humankind s collective belief in everything that is bright beautiful pure and innocent everything that would remain untarnished no matter what The raging WW2 embroiled and entangled millions of common people who sadly neither had much say in the situation nor possessed the erudition to comprehend what the madness was all about This book is the story of such next door protagonists like Kuhlbert Raymond Gerta and Alessandra who suddenly find themselves motivated to become a part in the deadliest war of human history They are flawed nuanced and unsure about the outcome of the war just as we are about what

is to come tomorrow A story of love hatred delusion fortitude selflessness magnanimity and a lot more but first and foremost a message of universal hope in our quest for our own Eden **War of the Mines** Paul Davies,1994 In this book written with first hand knowledge and a deep care for the Khmer people the author and photographer show that Cambodia exemplifies a worldwide plague of suffering and they propose what can be done to end the suffering I cannot recommend their work too highly John Pilger The high photographic content will place the book in an altogether different genre of reporting than the landmine issue has so far received It incorporates virtually all the existing research done of the mine problem in Cambodia to date as well as including original information Ed Miles Vietnam Veterans of America Foundation War of the Mines is a passionately detailed study of mines in a single country the most thorough account yet published of their effect on a civilian population a significant contribution to the growing awareness in the West of the peculiar perniciousness of these weapons John Ryle Times Literary Supplement War of the Mines is the first illustrated study of the impact of landmine warfare on communities in Cambodia After several visits to the country Davies and Dunlop have meticulously documented the history of landmine warfare in a country where it is estimated there are more landmines than there are people This book focuses on one particular district Rattanak Mondul in Battambang province the region which has had one of the highest concentrations of landmines Through hard hitting yet unsensational photographs and the personal accounts of landmine victims and military personnel War of the Mines offers a powerful description of the horrors of landmine warfare *Ecology Abstracts* ,2000 Coverage 1982 current updated monthly This database covers current ecology research across a wide range of disciplines reflecting recent advances in light of growing evidence regarding global environmental change and destruction Major areas of subject coverage include Algae lichens Animals Annelids Aquatic ecosystems Arachnids Arid zones Birds Brackish water Bryophytes pteridophytes Coastal ecosystems Conifers Conservation Control Crustaceans Ecosystem studies Fungi Grasses Grasslands High altitude environments Human ecology Insects Legumes Mammals Management Microorganisms Molluscs Nematodes Paleo ecology Plants Pollution studies Reptiles River basins Soil Taiga tundra Terrestrial ecosystems Vertebrates Wetlands Woodlands *Readers' Guide to Periodical Literature* Anna Lorraine Guthrie,Bertha Tannehill,Neltje Marie Tannehill Shimer,1919 An author subject index to selected general interest periodicals of reference value in libraries
