**Manly Meals and Mom's Home Cooking** Jessamyn Neuhaus,2012-03-15 A study of what American cookbooks from the 1790s to the 1960s can show us about gender roles food and culture of their time From the first edition of The Fannie Farmer Cookbook to the latest works by today s celebrity chefs cookbooks reflect more than just passing culinary fads As historical artifacts they offer a unique perspective on the cultures that produced them In Manly Meals and Mom s Home Cooking Jessamyn Neuhaus offers a perceptive and piquant analysis of the tone and content of American cookbooks published

between the 1790s and the 1960s adroitly uncovering the cultural assumptions and anxieties particularly about women and domesticity they contain Neuhaus's in depth survey of these cookbooks questions the supposedly straightforward lessons about food preparation they imparted While she finds that cookbooks aimed to make readers mainly white middle class women into effective modern age homemakers who saw joy not drudgery in their domestic tasks she notes that the phenomenal popularity of Peg Bracken's 1960 cookbook *The I Hate to Cook Book* attests to the limitations of this kind of indoctrination At the same time she explores the proliferation of bachelor cookbooks aimed at the man in the kitchen and the biases they display about male and female abilities tastes and responsibilities Neuhaus also addresses the impact of World War II rationing on homefront cuisine the introduction of new culinary technologies gourmet sensibilities and ethnic foods into American kitchens and developments in the cookbook industry since the 1960s More than a history of the cookbook *Manly Meals and Mom's Home Cooking* provides an absorbing and enlightening account of gender and food in modern America An engaging analysis Neuhaus provides a rich and well researched cultural history of American gender roles through her clever use of cookbooks Sarah Eppler Janda *History Reviews of New Books* With sound scholarship and a focus on prescriptive food literature *Manly Meals* makes an original and useful contribution to our understanding of how gender roles are institutionalized and perpetuated Warren Belasco senior editor of *The Oxford Encyclopedia of American Food and Drink* An excellent addition to the history of women's roles in America as well as to the history of cookbooks *Choice*

**Creating Consumers** Carolyn M. Goldstein, 2012-05-28 Home economics emerged at the turn of the twentieth century as a movement to train women to be more efficient household managers At the same moment American families began to consume many more goods and services than they produced To guide women in this transition professional home economists had two major goals to teach women to assume their new roles as modern consumers and to communicate homemakers needs to manufacturers and political leaders Carolyn M Goldstein charts the development of the profession from its origins as an educational movement to its identity as a source of consumer expertise in the interwar period to its virtual disappearance by the 1970s Working for both business and government home economists walked a fine line between educating and representing consumers while they shaped cultural expectations about consumer goods as well as the goods themselves Goldstein looks beyond 1970s feminist scholarship that dismissed home economics for its emphasis on domesticity to reveal the movement's complexities including the extent of its public impact and debates about home economists relationship to the commercial marketplace     *Consumers' Imperium (Volume 2 of 2) (EasyRead Comfort Edition)* ,     Proceedings, American Philosophical Society (vol. 122, No. 4, 1978) ,     **Proceedings, American Philosophical Society (vol. 123, No. 1, 1979)** ,     **Catalog of Copyright Entries. Hoganson, 2010-03-15 Histories of the Gilded Age and Progressive Era tend to characterize the United States as an expansionist nation bent on Americanizing the world without being transformed itself In *Consumers Imperium* Kristin Hoganson reveals the other half of the story demonstrating that the years between the Civil War and World War I were marked by heightened consumption of imports and strenuous efforts to appear cosmopolitan

Hoganson finds evidence of international connections in quintessentially domestic places American households She shows that well to do white women in this era expressed intense interest in other cultures through imported household objects fashion cooking entertaining armchair travel clubs and the immigrant gifts movement From curtains to clothing from around the world parties to arts and crafts of the homelands exhibits Hoganson presents a new perspective on the United States in the world by shifting attention from exports to imports from production to consumption and from men to women She makes it clear that globalization did not just happen beyond America s shores as a result of American military might and industrial power but that it happened at home thanks to imports immigrants geographical knowledge and consumer preferences Here is an international history that begins at home      *Proceedings, American Philosophical Society (vol. 122, No. 1, 1978) ,*
