*Creative Destruction* Tyler Cowen, 2009-01-10 A Frenchman rents a Hollywood movie A Thai schoolgirl mimics Madonna Saddam Hussein chooses Frank Sinatra's My Way as the theme song for his fifty fourth birthday It is a commonplace that globalization is subverting local culture But is it helping as much as it hurts In this strikingly original treatment of a fiercely debated issue Tyler Cowen makes a bold new case for a more sympathetic understanding of cross cultural trade *Creative Destruction* brings not stale suppositions but an economist's eye to bear on an age old question Are market exchange and aesthetic quality friends or foes On the whole argues Cowen in clear and vigorous prose they are friends Cultural destruction breeds not artistic demise but diversity Through an array of colorful examples from the areas where globalization's critics have been most vocal Cowen asks what happens when cultures collide through trade whether technology destroys native arts why and whether Hollywood movies rule the world whether globalized culture is dumbing down societies everywhere and if national cultures matter at all Scrutinizing such manifestations of indigenous culture as the steel band ensembles of Trinidad Indian handweaving and music from Zaire Cowen finds that they are more vibrant than ever thanks largely to cross cultural trade For all the pressures that market forces exert on individual cultures diversity typically increases within society even when cultures become more like each other Trade enhances the range of individual choice yielding forms of expression within cultures that flower as never before While some see cultural decline as a half empty glass Cowen sees it as a glass half full with the stirrings of cultural brilliance Not all readers will agree but all will want a say in the debate this exceptional book will stir

**Aphrodite's Tortoise** Lloyd Llewellyn-Jones, 2003-12-31 Greek women routinely wore the veil That is the unexpected finding of this meticulous study one with interesting implications for the origins of Western civilisation The Greeks popularly and rightly credited with the invention of civic openness are revealed as also part of a more Eastern tradition of seclusion Llewellyn Jones work proceeds from literary and notably from iconographic evidence In sculpture and vase painting it demonstrates the presence of the veil often covering the head but also more unobtrusively folded back onto the shoulders This discreet fashion not only gave a privileged view of the face to

the ancient art consumer but also incidentally allowed the veil to escape the notice of traditional modern scholarship From Greek literary sources the author shows that full veiling of the head and face was commonplace He analyses the elaborate Greek vocabulary for veiling and explores what the veil meant to achieve He shows that the veil was a conscious extension of the house and was often referred to as tegidion literally a little roof Veiling was thus an ingenious compromise it allowed women to circulate in public while maintaining the ideal of a house bound existence Alert to the different types of veil used the author uses Greek and more modern evidence mostly from the Arab world to show how women could exploit and subvert the veil as a means of eloquent sometimes emotional communication First published in 2003 and reissued as a paperback in 2010 Llewellyn Jones book has established itself as a central and inspiring text for the study of ancient women
