## **Satisfying Reason Studies In The Theory Of Knowledge:**

**Satisfying Reason** N. Rescher, 1995-03-31 Leibniz said with a mixture of admiration and inspiration that the Duchess Sophie of Hannover always wanted to know the reason why behind the reason why And that is just how rationality works it wants to leave no loose ends to understanding seeking to enable us to understand things through to the bitter end In the twelve chapters that make up *Satisfying Reason* Rescher develops and defends the following perspective That rationality is a cardinal virtue in cognitive matters That this is not something simple and cut and dried in the pursuit of truth through the development of knowledge we face obstacles sometimes even insuperable ones All that we can do is the best we can realizing that even our very best may still be imperfect Nevertheless the venture is far from hopeless While absolutes are unattainable in the cognitive venture some solutions are situationally optimal being comparatively the best that can be managed under the circumstances That reason itself enables us to come to terms with this state of affairs urging us to accept the best we can do as good enough *Satisfying Reason* is an explanation of the presuppositions and methods of rational enquiry an original exercise in metaknowledge developing a systematic body of knowledge about the scope and limits of knowledge itself

*Satisfying Reason* N Rescher, 1995-03-31 Leibniz said with a mixture of admiration and inspiration that the Duchess Sophie of Hannover always wanted to know the reason why behind the reason why And that is just how rationality works it wants to leave no loose ends to understanding seeking to enable us to understand things through to the bitter end In the twelve chapters that make up *Satisfying Reason* Rescher develops and defends the following perspective That rationality is a cardinal virtue in cognitive matters That this is not something simple and cut and dried in the pursuit of truth through the development of knowledge we face obstacles sometimes even insuperable ones All that we can do is the best we can realizing that even our very best may still be imperfect Nevertheless the venture is far from hopeless While absolutes are unattainable in the cognitive venture some solutions are situationally optimal being comparatively the best that can be managed under the circumstances That reason itself enables us to come to terms with this state of affairs urging us to accept the best we can do as good enough *Satisfying Reason* is an explanation of the presuppositions and methods of rational enquiry an original exercise in metaknowledge developing a systematic body of knowledge about the scope and limits of knowledge itself ,

The Blackwell Companion to Natural Theology William Lane Craig, J. P. Moreland, 2012-02-27 With the help of in depth essays from some of the world's leading philosophers *The Blackwell Companion to Natural Theology* explores the nature and existence of God through human reason and evidence from the natural world Provides in depth and cutting edge treatment of natural theology's main arguments Includes contributions from first rate philosophers well known for their work on the relevant topics Updates relevant arguments in light of the most current state of the art philosophical and scientific discussions Stands in useful contrast and opposition to the arguments of the new atheists **Basic Questions on Truth** P. Weingartner, 2012-12-06 The task of the book is not to give a survey of the main theories on truth found in the literature

There are several books available which do this The one of David for Deflationist and Disquotational Theories of Truth that of Chapuis for Revision Theories of Truth that of Kirkham for Correspondence Theories and several others that of Rescher for Coherence Theories of Truth Moreover the book is not an analysis just of Tarski's theory like that of Moreno or the respective chapters in Kirkham though Tarski's theory plays an important role in the whole work presented The task of the book is to give a detailed answer to some basic questions on truth which have been perennial problems through the centuries and are still discussed today The answer is given in the light of our knowledge today and with the help of modern logic But the book explicitly aims at connecting recent problems with related ones in the whole history of philosophy The method to incorporate important philosophers of the tradition into the analysis is that of disputation i.e. of putting some of their main thesis into objections or counterobjections pro or contra a positive answer to the respective question After the pros and cons are given a detailed answer to the question is proposed and finally commentaries and corrections are given to the objections and counterobjections in the light of the proposed answer

*Pragmatic Idealism and Scientific Prediction* Amanda Guillán, 2017-08-30 This monograph analyzes Nicholas Rescher's system of pragmatic idealism It also looks at his approach to prediction in science Coverage highlights a prominent contribution to a central topic in the philosophy and methodology of science The author offers a full characterization of Rescher's system of philosophy She presents readers with a comprehensive philosophico methodological analysis of this important work Her research takes into account different thematic realms semantic logical epistemological methodological ontological axiological and ethical The book features three thematic parts I General Coordinates Semantic Features and Logical Components of Scientific Prediction II Predictive Knowledge and Predictive Processes in Rescher's Methodological Pragmatism and III From Reality to Values Ontological Features Axiological Elements and Ethical Aspects of Scientific Prediction This insightful analysis offers a critical reconstruction of Rescher's philosophy The system he created is often characterized as pragmatic idealism that is open to some realist elements He is a prominent representative of contemporary pragmatism who has made a great deal of contributions to the study of this topic This area is crucial for science and it has been little considered in the philosophy of science

Rescher Studies Robert Almeder, 2013-05-02 In a career extending over almost six decades Nicholas Rescher has conducted researches in almost every principal area of philosophy historical and systematic alike In this extraordinary volume two dozen scholars join in offering penetrating discussions of various facets of Rescher's investigations The result is an instructively critical panorama of the many faceted contributions of this important American philosopher Born in Germany in 1928 Nicholas Rescher came to the U.S. at the age of nine He is University Professor of Philosophy at the University of Pittsburgh where he has also served as Chairman of the Philosophy Department and as director and currently chairman of the Center for Philosophy of Science In a productive research career extending over six decades he has established himself as a systematic philosopher of the old style His work represents a many-sided approach to fundamental philosophical issues

that weaves together threads of thought from continental idealism and American pragmatism And apart from this larger program Rescher has made various specific contributions to logic the conception autodescriptive systems of many sided logic the history of logic the medieval Arabic theory of modal syllogistic to the theory of knowledge epistemetrics as a quantitative approach in theoretical epistemology and to the philosophy of science the theory of a logarithmic retardation of scientific progress Rescher has also worked in the area of futuristics and along with Olaf Helmer and Norman Dalkey is co inaugurator of the so called Delphi method of forecasting Ten books about Rescher s philosophy have been published in four languages Rescher earned his doctorate at Princeton in 1951 while still at the age of twenty two a record for Princeton s Department of Philosophy He has served as a President of the American Philosophical Association of the American Catholic Philosophy Association of the American G W Leibniz Society of the C S Peirce Society and of the American Metaphysical Society He was the founder of the American Philosophical Quarterly An honorary member of Corpus Christi College Oxford he has been elected to membership in the European Academy of Arts and Sciences Academia Europaea the Royal Society of Canada the Institut International de Philosophie and several other learned academies Having held visiting lectureships at Oxford Constance Salamanca Munich and Marburg he has been awarded fellowships by the Ford Guggenheim and National Science Foundations Author of some hundred books ranging over many areas of philosophy over a dozen of them translated from English into other languages he is the recipient of eight honorary degrees from universities on three continents He was awarded the Alexander von Humboldt Prize for Humanistic Scholarship in 1984 the Belgian Prix Mercier in 2005 and the Aquinas Medal of the American Catholic Philosophical Association in 2007

*International Handbook of Giftedness and Talent* K. A. Heller, F. J. Mönks, R. Subotnik, Robert J. Sternberg, 2000-12-18 The first edition of this popular reference work was published in 1993 and received critical acclaim for its achievement in bringing together international perspectives on research and development in giftedness and talent Scholars welcomed it as the first comprehensive volume in the field and it has proved to be an indispensable resource to researchers Since the first edition the scholarly field of giftedness and talent studies has expanded and developed welcoming contributions from researchers in related disciplines Several theoretical frameworks outlined in the first edition have now been empirically tested and a number of new trends have emerged The Second Edition of the International Handbook of Giftedness and Talent provides an invaluable research tool to academics researchers and students interested in the field of giftedness and talent The contributors are renowned in the field and the broad range of topics on giftedness that have been studied in the past century right up to the late 1990s are represented in this volume It is truly international in scope bringing together leading scholars and teachers from all around the world This new edition has been fully updated and rewritten and includes 22 completely new chapters It provides a comprehensive review and critical synthesis of significant theory a unique cross national perspective with contributions from over 100 distinguished authors covering 24 nations significant contributions from scholars working in related fields an increased focus

on empirically supported scholarship and is arranged for quick and easy reference with comprehensive subject and author indexes

**Enlightening Journey** Nicholas Rescher, 2002-01-01 Enlightenment Journey brings the life of the American philosopher Nicholas Rescher into the new millennium The latest in a quartet of autobiographical works this latest installment charts in a single volume the many twists and turns of Rescher's life and career It takes the reader from Rescher's childhood in Weimar and then Nazi Germany through life as a first generation American during the Depression as a high school student during World War II and a graduate student at Princeton as a serviceman during the Korean War to work as a Cold War warrior with the RAND Corporation during the Vietnam War It traces the evolution of Rescher's career as a professional philosopher and his contribution of over seventy books and more than two hundred articles many written in the construction of his signature system of pragmatic idealism The very best in biography Enlightenment Journey offers new insight into the intellectual power and restless curiosity of an extraordinary modern scholar seeking to live out a very ordinary American life

*Minding Matter* Nicholas Rescher, 2001 Minding Matter presents a group of philosophical essays thematically divided The first chapters deal with issues of philosophizing and metaphilosophy The remainder of the book covers issues of values and human affairs The studies collected within are united by a common methodology of probative investigation and their common purpose to provide instructive insight into a varied spectrum of important philosophical issues Each essay is connected to the next by representing common *modus operandi* deploying the classificatory techniques that characterize the analytical mode of philosophizing in an endeavor to elucidate some larger scale issues of traditional concerns in philosophy

*Logic, Epistemology, and the Unity of Science* Shahid Rahman, 2004-10-25 This is the first volume in a series aimed at considering the scientific enterprise in light of recent developments in logic and philosophy This work explores new ways of achieving the integration of science in all its diversity

An Ethical Literary Criticism of Han Suyin's Autobiography Florence Kuek, 2025-04-15 Han Suyin 1916-1972 became a household name when *Love is a Many Splendored Thing* the Hollywood rendition of her novel won several awards in 1956 The study of Han Suyin went out of fashion for a while but it has recently been revitalised especially in Singapore and Malaysia Kuek pays attention to The Crippled Tree autobiographical series delineating her two track narrative of her family saga against the backdrop of 20th century China Different from the earlier studies on Han Suyin that employed perspectives from postcolonialism feminism and new historicism this book examines Han Suyin's autobiography through the lens of ethical literary criticism ELC paying attention to the ethical lines and knots embedded in her series Using ELC an apolitical literary analysis approach this book uncovers multiple layers of meaning and reveals Han Suyin's life trajectory which draws attention to China's difficult path of modernisation in the past century The insights gleaned from this book shed light on Han Suyin's life accomplishments in the face of great adversities and challenges This is a valuable book that will enlighten literary critics on critical approaches to autobiography and those interested in understanding the development of modern China through the words of a proud

Chinese Eurasian writer living in the era

**Profitable Speculations** Nicholas Rescher, 1997 The first group surveys key aspects of the recent scene in philosophy in a retrospective mood that is appropriate as the century nears its close The second group is a critical examination both historical and systemic of a conception that of possible worlds That has played an important formative role in twentieth century philosophy The final group presents some philosophical reflections on the human condition viewed from the vantage point of concepts collectivity technology complexity chance and rationality that twentieth century philosophy has placed in the foreground of philosophical concern *The Rainbow of Experiences, Critical Trust, and God* Kai-man Kwan, 2011-08-11 The question of whether religious experience can be trusted has been hotly debated in epistemology and philosophy of religion in recent years Kwan surveys this contemporary philosophical debate provides in depth analysis of the crucial issues and offer arguments for an affirmative answer to the above question Kwan first argues against traditional empiricist epistemologies and defends Swinburne's Principle of Credulity which holds that we should trust our experiences unless there are special considerations to the contrary The Principle of Credulity is renamed the Principle of Critical Trust to highlight the need for balance between trust and criticism and is used as the foundation for a new approach to epistemology the Critical Trust Approach CTA which maintains an emphasis on experience but attempts to break loose of the straitjacket of traditional empiricism by broadening the evidential base of experience Kwan then widens his focus by looking at theistic experience in the contemporary multicultural context

**Autobiography** Nicholas Rescher, 2013-05-02 This revised edition of his Autobiography brings up to date Rescher's account of his life and work The passage of years since the publication of an autobiographical work makes for its growing incompleteness Moreover the passage of time is bound to bring some new perspectives to view This new edition comes to terms with these circumstances Since the publication of the previous version Rescher's philosophical work has made substantial progress betokened by the publication of over a score of new books that mark an ongoing expansion of his philosophical range Then too the internet has brought to light interesting new information about Rescher's family background and antecedence Overall the book affords a detailed vivid and highly personalized picture of the life and work of someone who counts as one of the most prolific and many sided contemporary thinkers

**Theological Determinism** Peter Furlong, Leigh Vicens, 2022-09-22 This volume unites established authors and rising young voices in philosophical theology and philosophy of religion to offer the single most wide ranging examination of theological determinism in terms of both authors represented and issues investigated published to date Fifteen contributors present discussions about theological or divine determinism the view that God determines everything that occurs in the world Some authors provide arguments in favor of this position while others provide considerations against it Many contributors investigate the relationship between theological determinism and other philosophical issues the principle of sufficient reason the compatibility of determinism and free will moral luck theological doctrines creation ex nihilo divine forgiveness the inevitability of sin the unity of Christ's will with God's or moral attitudes

and practices trusting God resenting the ill will of others resisting evil This book is essential reading for all those interested in the relationship between theological determinism and philosophical thought     Communicative Pragmatism and Other Philosophical Essays on Language Nicholas Rescher,1998 In this pioneering study of communicative conventions distinguished philosopher Nicholas Rescher focuses on the principles at work in the communicative use of language Rescher explores various aspects of explanatory and expository uses of language across a wide range of applications ranging from the factual to the fictional and from the expository to the literary A unifying theme of the book is pragmatic conventionality Rescher explores the fundamentally pragmatic conception of communicative conventions rules of procedure that form part of the setting of tacit undertakings that function in various sectors of communicative practice Only in this setting he argues can one achieve an adequate understanding of the way in which the business of communication is actually carried on within its wider setting of its service in the conduct of human affairs     After Whitehead Michel Weber,2013-05-02 When Rescher's *Process Metaphysics* 1996 was published it was widely acclaimed as a major step towards the academic recognition of a mode of thought that has otherwise been confined within sharp scholarly boundaries Of course it is not an easy book despite its stylistic clarity it remains the complex outcome of a life's work in most areas of philosophy The goal of the present volume is to systematically unfold the vices and virtues of *Process Metaphysics* and thereby to specify the contemporary state of affairs in process thought To do so the editor has gathered one focused contribution per chapter each paper addressing specifically and explicitly its assigned chapter and seeking to promote a dialogue with Rescher In addition the volume features Rescher's replies to the papers     *SYMBOLISM IS THE THEORETICAL BASE OF ALL SCIENCES* Ruben Charles,2024-11-08 In this book we try to understand how the modernity of societies had become the main source that gave birth to the symbolism which ultimately became the center of the universe by defining the identity of the human being and by acting on its way of living of acting and of thinking and becoming the main basis of the existence of all societies Symbolism constitutes a new approach allowing science to determine the hidden meaning and complexity of symbolic objects through a system of symbolic representation The latter allows us to know who we really are as a human being and to understand how today's world works Indeed everything that exists on this planet is based on symbolism we cannot understand today's social reality outside symbolism     **The Primacy of Practical Reason** Michele Marsonet,1996 This book presents in one single volume the first cogent overview of Nicholas Rescher's position in theoretical philosophy Marsonet's wide ranging knowledge of American philosophy enables him to position Rescher's work in the wider setting of its relationships with various contemporary American and European thinkers He provides comparisons between Rescher's stance and the positions endorsed by philosophers like Quine Sellars Popper Davidson Rorty Rawls and Habermas The main goal of the book is to show that Rescher's system provides an interesting way out from the crisis of analytic philosophy by dealing in particular with his rediscovery of the American pragmatist tradition Marsonet traces the development in Rescher's speculative

evolution focusing on the importance of the growth of pragmatist elements This book serves as an excellent introduction to Rescher's philosophy and will give readers a schematic yet comprehensive account of his views on various philosophical topics including epistemology metaphysics philosophical logic philosophy of science philosophy of language and social and political philosophy
