this book Yufang Ho compares the text style difference between the two versions of John Fowles *The Magus* exemplifying the
methodological principles and analytic practices of the corpus stylistic approach *The Magus* was first published in 1966 and
was revised and republished by Fowles in 1977 Fowles own comment on the second edition was that it was rather more than
a stylistic revision The book explores how the revised version is linguistically different from the original especially in terms of
point of view re representation The corpus stylistic approach adopted combines qualitative and quantitative comparison to
confirm the overall text style difference The analysis demonstrates that computer assisted methods can identify significant
linguistic features which literary critics have not noticed and provide a more detailed descriptive basis for literary
interpretation of either edition of the novel This analysis of *The Magus* serves as a case study and exemplar of how corpus
techniques may be used generally in the study of linguistics *Greek Satyr Play: Five Studies* Mark Griffith, 2015 With a
new introduction and some revisions these essays on Classical Greek satyr plays originally published in various venues
between 2002 and 2010 suggest new critical approaches to this important dramatic genre and identify previously neglected
dimensions and dynamics within their original Athenian context Griffith shows that satyr plays alongside the ludicrous and
irresponsible but harmless antics of their chorus presented their audiences with culturally sophisticated narratives of
romance escapist adventure and musical choreographic exuberance amounting to a zparallel universey to that of the
accompanying tragedies in the City Dionysia festival The class oppositions between heroic divine characters and the rest
choruses messengers servants etc that are so integral to Athenian tragedy are shown to be present also in exaggerated form
in satyr drama with the satyr chorus occupying a role that also inevitably recalled for the Athenian audiences their own often
foreign born slaves Meanwhile the familiar main characters of tragedy Heracles Danae and Perseus Hermes and Apollo
Achilles Odysseus etc are re deployed in an engaging milieu of erotic encounters miraculous discoveries guaranteed happy
endings marriages and painless release from suffering for all both for the well behaved heroes and also for the low life
playful satyrs the slaves of Dionysus In their fusion of adventure and romance fantasy and na vete Aphrodite and Dionysus
Athenian satyr plays thus anticipate in many respects Griffith suggests the later developments of Greek pastoral and prose
romance **Dictionary of National Biography** Leslie Stephen, 1890 **The American Mercury**, 1927 The
