Savage Courage Cassie Edwards,2002      Willingly into the Fray Catherine McCullagh,2010-09-01 Willingly into the Fray comprises the personal stories of sixty five individual nurses their voices preserved and their words often fraught with emotion and mired in distress at what they have seen endured and railed against carefully retained Many of these stories are told for the first time particularly those of the recent campaigns peacekeeping operations disaster relief and humanitarian missions These are men and women who like those before them often worked in the most primitive conditions as one nurse remarked tellingly with TLC and little more It is typical of Australian Army nurses to proceed willingly into the fray often with little warning but always with courage determination and a strong sense of humour In the hundred or so years since the first intrepid Boer War nurses set out Australian Army nurses have forged a proud and enviable reputation They are justifiably renowned for their determination to provide quality medical care despite extreme privation perilous circumstances and a lack of the most rudimentary medical equipment If this is the reputation they can forge in the face of such adversity then we have much to look forward to over the next one hundred years Willingly into the Fray provides a rare opportunity for the reader to take a personal journey through the lives of Army nurses from the early days of 1899 to modern times and to experience the vast changes in society that accompanied those hundred or so years      Century Path ,1903      The View from Officers' Row Sherry L. Smith,1990-02-01 A Choice Outstanding Academic Title Capturing military men in contemplation rather than combat Sherry L Smith reveals American army officers views about the Indians against whom they fought in the last half of the nineteenth century She demonstrates that these officers and their wives did not share a monolithic negative view of their enemies but instead often developed a great respect for Indians and their cultures Some officers even came to question Indian policy expressed misgivings about their personal involvement in the Indian Wars and openly sympathized with their foe The book reviews the period 1848 1890 from the acquisition of the Mexican Cession to the Battle of Wounded Knee and encompasses the entire trans Mississippi West Resting primarily on personal documents drawn from a representative sample of the officer corps at all levels the study seeks to juxtapose the opinions of high ranking officers with those of officers of lesser prominence who were perhaps less inclined to express personal opinions in official reports No educated segment of American society had more prolonged contact with Indians than did army officers and their wives yet not until now has such an overview of their attitudes been presented Smith s work demolishes the stereotype of the Indian hating officer and broadens our understanding of the role of the army in the American West      **Home Market Bulletin** ,1911
