Save Them For The Junkman:

How Educational Ideologies Are Shaping Global Society Joel Spring, 2014-04-08 In this book Joel Spring explores three major international educational ideologies that are shaping global society: neo liberal educational ideology, human rights education, and environmentalism. Neo liberal ideology reflects a rethinking of nationalist forms of education as the nation state slowly erodes under the power of a growing global civil society. Traditional nationalist education attempts to mold loyal and patriotic citizens who are emotionally attached to symbols of the state, whereas the goal of neo liberal educational ideology is to change nationalist education to serve the needs of the global economy. These changes are fueling a clash between the ideas of free market and consumer based neo liberals and those of human rights and environmental educators. Human rights education is concerned with creating activist global citizens. It is rooted in the idea that inherent in human rights doctrines is a collective responsibility to ensure the rights of all people. Environmentalism is the most radical of the ideologies because it rejects the industrial and consumerist paradigm that has dominated most economic thought, including capitalism and communism. Spring synthesizes and analyzes the effect of these educational ideologies on shaping the future of the global society. In the concluding section he compares the effect of these ideologies on global society with the possibility of a world divided between conflicting civilizations.

How Educational Ideologies Are Shaping Global Society Intergovernmental Organizations, NGOs, and the Decline of the Nation State features a critical exploration of the transition of schooling from a function of the nation state to a globalized economic and political system; a discussion of the major organizations and trading blocs shaping the future globalization of educational policies; an analysis of the major competing global ideologies of education, including national and corporate models that emphasize training workers for a competitive global free market; the worldwide network of human rights and peace educators who are teaching a global set of ethics and the environmental movement's efforts to create a common set of educational standards for sustainable development and sustainable consumption; and an exploration of the possible future of global educational policy and school organizations. By integrating a wide range of previously scattered information within a bold new framework for understanding educational ideologies and their impact on the global society, Spring raises important questions for researchers, professionals, and students in history and philosophy of education, educational policy, educational studies, comparative education, multicultural education, curriculum studies, critical media studies, global studies, human rights education, and related areas.

The Mood Of The Bystander Chisom Achigbule, 2010-08-19 King Edward and his hardbitten General's yea and nay was smooth sailing but betrayed by anger and revenge. Prince Andor and Princess Victoria's love was that of first sight and they fell deeply in it. The beloved Prince did everything he could to stop her from joining her friends to war against England but the Princess was hell bent on that. Unknown to him she was even pregnant but for who. Most of the greatest losses and victories in life do not come with deafening hubbub; sometimes not even with a clank they mostly whisper their ways through to accomplishment. He

who chuckled at yells threats and jangles of swords and breastplates he who smiled at the gloomiest of futures and built his tent amid hunger shame negligence and terror the same is the bystander **Told in the Coffee House: Turkish Tales**

Marcello, 2014-04-15 Historians acknowledge that World War II touched every man woman and child in the United States In *Small Town America in World War II* Ronald E. Marcello uses oral history interviews with civilians and veterans to explore how the citizens of Wrightsville Pennsylvania responded to the war effort Located along the western shore of the Susquehanna River in York County Wrightsville was a transportation hub with various shops stores and services as well as industrial plants Interviews with citizens and veterans are organized in sections on the home front the North African Italian European and Pacific theatres stateside military service and occupation in Germany Throughout Marcello provides introductions and contextual narrative on World War II as well as annotations for events and military terms Overseas the citizens of Wrightsville turned into soldiers An infantryman in the Italian campaign Alfred Forry explained I was forty five days on the line wearing the same clothes but everybody was in the

same situation so you didn't mind the stench and body odors. A veteran of the Battle of the Bulge, Edward Reisinger, remembered. Replacements had little chance of surviving. They were sent to the front one day and the next day they were coming back with mattress covers over them. The sergeants never knew the names of these people. Mortar man Donald Peters described the death of a buddy who was hit by artillery shrapnel. His arm was just hanging on by the skin and his intestines were hanging out. In the conclusion, Marcello examines how the war affected Wrightsville. Did the war bring a return to prosperity? What effects did it have on women? How did wartime trauma affect the returning veterans? In short, did World War II transform Wrightsville and its citizens, or was it the same town after the war?
