Savings And Capital Formation The Policy Options:

Savings and Capital Formation Francis Gerard Adams,Susan M. Wachter,1986 **The U.S. Savings Challenge** Charls E Walker,Mark A Bloomfield,Margo Thorning,2021-06-02 Concern about the low U S saving rate and its negative impact on capital formation and economic growth prompted the American Council for Capital Formation ACCF Center for Policy Research to launch a multifaceted three year project to explore this issue in 1988 This volume is one element of that project This book contains slightly updated versions of the papers presented at a two and one half day conference entitled Saving The Challenge for the U S Economy held in Washington D C in October 1989

Brookings Papers on Economic Activity 1999 George L. Perry,1999-07-01 For almost thirty years Brookings Papers on Economic Activity BPEA has provided academic and business economists government officials and members of the financial and business communities with timely research of current economic issues Contents include Articles GEORGE A AKERLOF ANDREW K ROSE JANET L YELLEN and HELGA HESSENIUS East Germany in from the Cold The Economic Aftermath of Currency Union ROBERT J BARRO and XAVIER SALA I MARTIN Convergence across States and Regions BARRY BOSWORTH GARY BURTLESS and JOHN SABELHAUS The Decline in Saving Some Microeconomic Evidence ALLEN B FRANKEL and JOHN D MONTGOMERY Financial Structure An International Perspective Report ROBERT Z LAWRENCE Efficient or Exclusionist The Import Behavior of Japanese Corporate Groups

The Measurement of Saving, Investment, and Wealth Robert E. Lipsey,Helen Stone Tice,2008-04-15 There is probably no concept other than saving for which U S official agencies issue annual estimates that differ by more than a third as they have done for net household saving or for which reputable scholars claim that the correct measure is close to ten times the officially published one Yet despite agreement among economists and policymakers on the importance of this measure huge inconsistencies persist Contributors to this volume investigate ways to improve aggregate and sectoral saving and investment estimates and analyze microdata from recent household wealth surveys They provide analyses of National Income and Product Account NIPA and Flow of Funds measures and of saving and survey based wealth estimates Conceptual and methodological questions are discussed regarding long term trends in the U S wealth inequality age wealth profiles pensions and wealth distribution and biases in inferences about life cycle changes in saving and wealth Some new assessments are offered for investment in human and nonhuman capital the government contribution to national wealth NIPA personal and corporate saving and banking imputation

106-1 Hearing: Nominations Of: Gregory A. Baer and Susan M. Wachter, S. Hrg. 106-805, November 5, 1999 ,2001 *Saving and Investment* United States. Congress. Wachter* United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs,2000 **Fifty Years of Economic Measurement** Ernst R. Berndt,Jack E. Triplett,2008-04-15 This volume contains papers presented at a

conference in May 1988 in Washington D C commemorating the fiftieth anniversary of the founding of the Conference on Research in Income and Wealth CRIW The call for papers emphasized assessments of broad topics in economic measurement both conceptual and pragmatic The organizers desired and succeeded in obtaining a mix of papers that first illustrate the range of measurement issues that economics as a science must confront and second mark major milestones of CRIW accomplishment The papers concern prices and output Griliches Pieper Triplett and also the major productive inputs capital Hulten and labor Hamermesh Measures of saving the source of capital accumulation are covered in one paper Boskin measuring productivity the source of much of the growth in per capita income is reviewed in another Jorgenson The use of economic data in economic policy analysis and in regulation are illustrated in a review of measures of tax burden Atrostic and Nunns and in an analysis of the data needed for environmental regulation Russell and Smith the adequacy of data for policy analysis is evaluated in a roundtable discussion chapter 12 involving four distinguished policy analysts with extensive government experience in Washington and Ottawa

The Challenge of Public Pension Reform in Advanced and Emerging Economies

Mr.Benedict J. Clements,Mr.David Coady,Frank Eich,Mr.Sanjeev Gupta,Mr.Alvar Kangur,Baoping

Shang,Mauricio Soto,2013-01-25 Pension reform is high on the policy agenda of many advanced and emerging market economies In advanced economies the challenge is generally to contain future increases in public pension spending as the population ages In emerging market economies the challenges are often different Where pension coverage is extensive the issues are similar to those in advanced economies Where pension coverage is low the key challenge will be to expand coverage in a fiscally sustainable manner This volume examines the outlook for public pension spending over the coming decades and the options for reform in 52 advanced and emerging market economies

Essentials of Economics

James D Gwartney,Richard Stroup,J. R. Clark,2014-05-10 Essentials of Economics Second Edition is a text intended for a one term course in economics for college students It attempts to teach students of the analytic way of studying economics and provides the basics of the concept of political economy and uses this knowledge to explain the choice process in the public sector The book presents a comprehensive survey of economics It contains chapters that highlight the importance of the microincentive structure of macroeconomic markets identifies the determinants of supply as well as the impact of public policy on those determinants and presents both adaptive and rational expectations theory The linkage between production theory and the cost curves faced by the firm examination of the market structure and the role of regulation and deregulation are covered as well Economics students will find the book very useful

IMF Staff papers, Volume 37 No. 1

International Monetary Fund. Research Dept.,1990-01-01 This paper examines factors affecting saving policy tools and tax reform The literature on factors affecting saving and capital formation in industrialized countries is reviewed and measurement problems are examined The effect on the saving rate of real rates of return income redistribution allocation of saving between corporations and individuals growth of public and private pension plans tax incentives the bequest motive energy prices and inflation is

considered The limited tools available to policymakers to affect savings are discussed *World Economic and Financial Surveys* International Monetary Fund,1990-01-01 This paper discusses commodity prices might serve as a useful leading indicator of inflation based on the relative importance of flexible auction markets for the determination of these prices They thus may have a tendency to respond relatively quickly especially in response to monetary disturbances Estimation of alternative commodity price indexes in which the weights are chosen so as to minimize the residual variance in aggregate inflation regressions was not fully successful The commodity prices do have a useful role to play as an aid in predicting inflation so long as one is careful to interpret the relationships qualitatively and in the context of more general macroeconomic developments The ratio of consumer to commodity price movements changes over time and the relative price of commodities undergoes long sustained swings nonetheless the qualitative linkages are quite evident in the data Perhaps most importantly turning points in commodity price inflation frequently precede turning points in consumer price inflation for the large industrial countries as a group **The Japanese Economy** Peter Drysdale,Luke Gower,2004-11 *The United States Economy* Mr.Yusuke Horiguchi,1992-01-15 This book by a staff team headed by Yusuke Horiguchi examines U S economic policy and performance in the 1980s during which the United States enjoyed its longest peacetime expansion Notwithstanding the buoyant growth and declines in inflation the economy experienced low savings current account deficits swings in the dollar exchange rate and structural problems relating to the strength of financial institutions the tax system health care and productivity *Financing High Medical Risks* Companje,2025-10-01 Across the European Union common problems and challenges have arisen related to the accessibility quality and financial sustainability of long term healthcare services which represent a new social and medical risk This book compares national policies in Norway Germany and the Netherlands and how these countries approach issues such as old age insurance home help programs and mental healthcare The contributors look at different paths of policy development identify problems faced by public and private parties and ultimately discuss possible solutions *National Savings and Targets for the Federal Budget Balance in the United States* International Monetary Fund,1989-12-18 The U S national savings rate has declined in the 1980s with both public and private components falling This paper discusses that decline and whether a policy response is needed The drop in the private savings rate appears to reflect factors not easily reversible by policy and increases in public saving may thus provide the most effective means of bolstering national savings Illustrative calculations based on two alternative frameworks indicate that a net national saving rate substantially above its current level could be a desirable objective and that a large federal budget surplus could be needed to that end *Pensions in the European Union: Adapting to Economic and Social Change* Gerard Hughes,Jim Stewart,2012-12-06 The ageing financial and labour market challenges facing the old age pension systems of the member states of the European Union are well known Those who cast doubt on the ability of the present system of pension provision at least to the extent that it is pay as you go financed to cope with the problems posed by these

challenges are getting more vociferous Increasingly there are calls for pay as you go systems to be cut back and for funded systems to be expanded This book contests the view that funding is the answer It shows how adaptable the largely pay as you go old age pension systems in the European Union are Actuaries economists lawyers political scientists pension advisers and sociologists from nine European countries and the United States consider four main themes population ageing competitiveness and retirement pension financing and economic growth adapting pension systems to meet change and decision making processes They argue that pay as you go financed old age pension systems in the European Union have the ability to successfully adapt to economic and social change provided they do not take on too many non insurance related risks Solving the problems of the labour market and controlling the direction and extent of economic development are beyond the powers of old age pension systems regardless of how they are structured or financed Separate budgets for separate risks is an indispensable principle if the complex processes of social protection are to be successfully managed monitored and made transparent There can be no single plan for the future development of old age pension systems which would be universally valid for all the countries of the European Union A single solution cannot take into account the special circumstances obtaining in every nation and since respect for the special features of national systems is the basis of popular acceptance the way forward is to reform existing systems in existing contexts **Long-term Strategies for Programs and Issues Within the Jurisdiction of the Committee** United States. Congress. House. Committee on Ways and Means,1989 Major tax reform options United States. Congress. Senate. Committee on Finance,1984
