Long Journey Of Garcia Mendes:

Topographies of Tolerance and Intolerance Marjorie Elizabeth Plummer, Victoria Christman, 2018-08-07 *Topographies of Tolerance and Intolerance* challenges the narrative of a simple progression of tolerance and the establishment of confessional identity during the early modern period. These essays explore the lived experiences of religious plurality providing insights into the developments and drawbacks of religious coexistence in this turbulent period. The essays examine three main groups of actors: the laity, parish clergy, and unacknowledged religious minorities in pre and post Westphalian Europe. Throughout this period, the laity navigated their own often fluid religious beliefs, the expectations of conformity held by their religious and political leaders, and the complex realities of life that involved interactions with co-religious and non-co-religious family neighbors and business associates on a daily basis. Contributors are James Blakeley, Amy Nelson Burnett, Victoria Christman, Geoffrey Dipple, Timothy G. Fehler, Emily Fisher, Gray Benjamin, J. Kaplan, David M. Luebke, David Mayes, Marjorie Elizabeth Plummer, William Bradford Smith, and Shira Weidenbaum. **В поисках христиан и пряностей** Найджел Клифф, 2014-09-30. *The Strange Adventures of Andrew Battell, of Leigh, in Angola and the Adjoining Regions* Andrew Battell, 2019-11-29. In *The Strange Adventures of Andrew Battell of Leigh in Angola and the Adjoining Regions*, Battell engages readers with a vivid firsthand account of his travels in Angola during the late 16th century. Written in a lively and descriptive prose style, the narrative captures the peculiarities of African societies, the complexities of cultural encounters, and the exploitative dynamics of European colonialism. Through his exploratory lens, Battell provides a unique perspective on the geography, people, and customs of the region, situating his experiences within the broader context of European colonial narratives of the time. Andrew Battell, an Englishman born in Leigh, spent many years in Angola, often as a captive and eventually as a trader. His firsthand experiences exposed him to various indigenous cultures, enriching his understanding of the region's socio-political landscapes. His life as an adventurer and intercultural mediator informs the depth and authenticity of his writing, reflecting a deep curiosity and an ability to traverse disparate worlds. This compelling work is recommended for readers interested in the intersections of exploration, colonial history, and anthropology. Battell's captivating adventures serve not only as a travelogue but also as a significant commentary on the consequences of imperial ambition, making it an essential read for those who seek to understand the complexities of cultural exchange. In this enriched edition, we have carefully created added value for your reading experience. Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. Interactive footnotes clarify unusual references, historical allusions, and archaic phrases for an effortless, more informed read. **An Economic History of Tropical Africa** J.M. Konczacki, Z.A. Konczacki, 2013-01-11. These articles cover early agricultural development, history of agricultural crops, patterns of land use and tenure, introduction and use of metals, economic and technological aspects of the Iron Age, patterns of trade, trade routes and centres, and media of exchange. Urban Slavery in Colonial Mexico Pablo Miguel Sierra Silva, 2018-04-05. Using the city of Puebla de los Angeles, the second

largest urban center in colonial Mexico viceroyalty of New Spain Pablo Miguel Sierra Silva investigates Spaniards' imposition of slavery on Africans, Asians and their families. He analyzes the experiences of these slaves in four distinct urban settings: the marketplace, the convent, the textile mill, and the elite residence. In so doing, *Urban Slavery in Colonial Mexico* advances a new understanding of how, when, and why transatlantic and transpacific merchant networks converged in Central Mexico during the seventeenth century. As a social and cultural history, it also addresses how enslaved people formed social networks to contest their bondage. Sierra Silva challenges readers to understand the everyday nature of urban slavery and engages the rich Spanish and indigenous history of the Puebla region while intertwining it with African diaspora studies. **Atlantic**

Africa and the Spanish Caribbean, 1570-1640 David Wheat, 2016-03-09 This work resituates the Spanish Caribbean as an extension of the Luso-African Atlantic world from the late sixteenth to the mid-seventeenth century, when the union of the Spanish and Portuguese crowns facilitated a surge in the transatlantic slave trade. After the catastrophic decline of Amerindian populations on the islands, two major African provenance zones—first Upper Guinea and then Angola—contributed forced migrant populations with distinct experiences to the Caribbean. They played a dynamic role in the social formation of early Spanish colonial society in the fortified port cities of Cartagena de Indias, Havana, Santo Domingo, and Panama City, and their semirural hinterlands. David Wheat is the first scholar to establish this early phase of the Africanization of the Spanish Caribbean, two centuries before the rise of large-scale sugar plantations. With African migrants and their descendants comprising demographic majorities in core areas of Spanish settlement, Luso-Africans, Afro-Iberians, Latinized Africans, and free people of color acted more as colonists or settlers than as plantation slaves. These ethnically mixed and economically diversified societies constituted a region of overlapping Iberian and African worlds while they made possible Spain's colonization of the Caribbean. *The Strange Adventures of Andrew Battell* Andrew Battell, 1901 *Impacts of Innovation*

and Cognition in Management Bataglia, Walter, Segura, Liliane Cristina, 2024-10-18 In today's business landscape, the intersections between innovation and cognition play a crucial role in shaping current management practices. As organizations strive to remain competitive, leaders must foster innovative thinking while understanding which cognitive processes drive decision-making and problem-solving. Such management strategies assist business leaders in navigating complex challenges, harnessing creativity, and cultivating an adaptive workplace culture. Exploring how innovation and cognition influence strategic choices is necessary for companies looking to enhance responses to change, making room for sustained growth and success in a constantly shifting business environment. *Impacts of Innovation and Cognition in Management* explores the effects of innovative strategies and technologies, as well as cognitive psychology, in management practices for businesses and organizations. The impact on sustainability and organizational development is examined along with the usefulness of technologies like artificial intelligence, machine learning, and data analytics. This book covers topics such as absorptive capacity, data science, and cognitive psychology and is a useful resource for business owners, managers, psychologists,
