Upsetting Composition Commonplaces Ian Barnard, 2014-07-15 In *Upsetting Composition Commonplaces* Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition's refusal of poststructuralism rather than on providing solutions in the form of teaching templates *Upsetting Composition Commonplaces* addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing

Teaching and Researching Writing Ken Hyland, 2021-09-23 The new edition of Ken Hyland's text provides an authoritative guide to writing theory research and teaching. Emphasising the dynamic relationship between scholarship and pedagogy, it shows how research feeds into teaching practice. *Teaching and Researching Writing* introduces readers to key conceptual issues in the field today and reinforces their understanding with detailed cases, then offers tools for further investigating areas of interest. This is the essential resource for students of applied linguistics and language education to acquire and operationalise writing research theories, methods, findings and practices, as well as for scholars and practitioners looking to learn more about writing and literacy. New to the fourth edition: Added or expanded coverage of important topics such as translingualism, digital literacies and technologies, multimodal and social media writing, action research, teacher reflection, curriculum design, teaching young learners and discipline specific and profession specific writing. Updated throughout including revision to case studies and classroom practices and discussion of Rhetorical Genre Studies, intercultural rhetoric and expertise. Reorganised References and Resources section for ease of use for students, researchers and teachers.

Writing Effective Course Assignments Elia Shabani Mlilo, 2017-05-11 Non-degree and undergraduate students are both inexperienced essay writers who need close guidance to become effective writers. One of the puzzles which they encounter at the college and university after reporting for studies is the course assignments offered to them by their lecturers which demand them to be critical thinkers and argumentative essay writers. In most colleges and universities, lecturers provide to students broad questions to answer in the form of essays, either in group or individual assignments. How should they turn the broad assignment questions provided to them by their lecturers into specific researchable topics for essays? How should they handle literature in order to obtain valuable information to answer the provided question? How should they construct an informed and convincing argument using the collected information as evidence? This book concerns these and other related questions. With its clear illustrations, the book is designed to be a self-study guide and to offer solutions to many struggling students in colleges and universities. At the same time, the book can be helpful for lecturers to instruct their students how to write effective course assignments in their respective courses.
