The Whites of Their Eyes Jill Lepore, 2011-08-08 From acclaimed bestselling historian Jill Lepore the story of the American historical mythology embraced by the far right Americans have always put the past to political ends The Union laid claim to the Revolution so did the Confederacy Civil rights leaders said they were the true sons of liberty so did Southern segregationists This book tells the story of the centuries long struggle over the meaning of the nation's founding including the battle waged by the Tea Party Glenn Beck Sarah Palin and evangelical Christians to take back America Jill Lepore Harvard historian and New Yorker staff writer offers a careful and concerned look at American history according to the far right from the rant heard round the world which launched the Tea Party to the Texas School Board's adoption of a social studies curriculum that teaches that the United States was established as a Christian nation Along the way she provides rare insight into the eighteenth century struggle for independence a history of the Revolution from the archives Lepore traces the roots of the far right's reactionary history to the bicentennial in the 1970s when no one could agree on what story a divided nation should tell about its unruly beginnings Behind the Tea Party's Revolution she argues lies a nostalgic and even heartbreaking yearning for an imagined past a time less troubled by ambiguity strife and uncertainty a yearning for an America that never was The Whites of Their Eyes reveals that the far right has embraced a narrative about America's founding that is not only a fable but is also finally a variety of fundamentalism anti intellectual antihistorical and dangerously antipluralist In a new afterword Lepore addresses both the recent shift in Tea Party rhetoric from the Revolution to the Constitution and the diminished role of scholars as political commentators over the last half century of public debate
