Lord Grey And The World War:

Lord Grey and the World War Hermann Lutz, 2013-10 This is a new release of the original 1928 edition Hidden History Gerry Docherty, James MacGregor, 2013-07-04 Think you know about British history and the causes of the First World War Think again This fascinating and gripping study of events at the turn of the Twentieth Century is a remarkable insight into how political and social factors that we widely accept to be the causes of The Great War were really just a construct put together by a very small but powerful political elite Thought provoking Docherty and Macgregor do not mince their words their arguments are powerful Britain at War Simply astonishing Reader review Very illuminating Reader review You simply MUST read this book Reader review This is a page turner Reader review Hidden History uniquely exposes those responsible for the First World War It reveals how accounts of the war s origins have been deliberately falsified to conceal the guilt of the secret cabal of very rich and powerful men in London responsible for the most heinous crime perpetrated on humanity For ten years they plotted the destruction of Germany as the first stage of their plan to take control of the world The assassination of Archduke Franz Ferdinand was no chance happening It lit a fuse that had been carefully set through a chain of command stretching from Sarajevo through Belgrade and St Petersburg to that cabal in London Our understanding of these events has been firmly trapped in a web of falsehood and duplicity carefully constructed by the victors at Versailles in 1919 and maintained by compliant historians ever since The official version is fatally flawed warped by the volume of evidence they destroyed or concealed from public view Hidden History poses a tantalising challenge The authors ask only that you examine the evidence they lay before you Lord Grey and the World War Hermann Lutz, 1928 *Instruments of Peacemaking 1870-1914* Michael Reynolds, 2021-07-01 This book focuses on Anglo American disputes arising out of the civil war in the United States and British interests in the American continent the Geneva Arbitration the Venezuela Guiana Arbitration and the Bhering Sea Arbitration It draws on those cases as model proceedings which laid the foundations and inspiration for a promotion of international law through the Hague Conferences and by the work of English and American jurists It considers the encouragement these cases gave to the promotion of public international law and how that contributed to the resolution of inter state disputes The Library World , 1927 **McNaught's Monthly** Virgil V. World War I and with modern tariff competitions The work also compares the advent of nuclear weapons with the two other modern revolutions in warfare Napoleon's military innovations and the industrial warfare of World War I It assesses the impact of nuclear armaments on the balance of power alliances and the behaviour of national leaders Also included is an analysis of the differences between nuclear weapons and chemical and biological weapons of mass destruction The concluding chapter bringing together ideas from history religion and psychology explores the effects that the threat of nuclear annihilation has on everyday life **The Literary Digest International Book Review** Clifford Smyth, 1924
