The Lost Beliefs of Northern Europe Hilda Roderick Ellis Davidson, 1993 **MYTHS AND LEGENDS OF THE NORSE** HENRY ROMANO, 2021-03-06 Once there was another Sun and another Moon a different Sun and a different Moon from the ones we see now Sol was the name of that Sun and Mani was the name of that Moon Nevertheless always behind Sol and Mani wolves went a wolf behind each The wolves caught on them at last and they devoured Sol and Mani And then the world was in darkness and cold In those times the Gods lived Odin and Thor H dur and Baldur Tyr and Heimdall Vidar and Vali and Loki the doer of a good doer of evil Moreover the beautiful Goddesses lived then Frigga Freya Nanna Iduna and Sif Nevertheless in the days when the Sun and Moon were destroyed the Gods were destroyed too all the Gods except Baldur who had died before that time Vidar and Vali the sons of Odin and Modi and Magni the sons of Thor At that time too there were men and women in the world However before the Sun and the Moon were devoured and before the Gods were destroyed terrible things happened in the world Snow fell on the four corners of the earth and kept on falling for three seasons Winds came and blew everything away Moreover the people of the world who had lived on despite the snow and the cold and the winds fought each other brother killing brother until all the people were destroyed **Women and Miracle**

Stories Anna Korte, 2018-11-13 This book contains a multidisciplinary collection of studies on women in miracle stories found in texts ranging from religious classics to contemporary literary fiction Miracle stories are a genre of great importance for the study of women's religious inheritance and for the historical and cultural understanding of women as makers of faith Miracle stories are very generally speaking more open to popular religion and culture than for instance doctrinal and official ecclesiastical texts and as such they can be of special interest to the study of women's lives and religious aspirations Remarkably up till now this genre has not been looked at from this point of view This book aims to open this field for further research by presenting case studies from diverse angles and disciplines Some of the questions this book tries to answer are What do miracle stories specifically tell us about women Are there some types of miracles that are in particular related to certain groups of women What do these stories tell us about women as performers and or subjects of miracles What can be said about the social function and religious meaning of miracles by specifically looking at the way certain groups of women are practising and experiencing miracles By including research on miracle stories in contemporary fiction written by women this book also wants to acknowledge and research the disputed status of miracles as well of women in our present society which is moving from modernity to post modernity Please note that *Women and Miracle Stories* is previously published by Brill in hardback ISBN 90 04 16681 8 still available Way of Fire and Ice Ryan Smith, 2019-10-08 Smith's simple guide will

Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams Stefanie Schult,2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett s Discworld retains a feeling of Britishness that is not to be found in Williams s Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author s Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media

The Anthropology of Magic Susan Greenwood, 2020-05-28 Magic is arguably the least understood subject in anthropology today Exotic and fascinating it offers us a glimpse into another world but it also threatens to undermine the foundations of anthropology due to its supposed irrational and non scientific nature Magic has thus often been explained away by social or psychological reduction The Anthropology of Magic redresses the balance and brings magic as an aspect of consciousness into focus through the use of classic texts and cutting edge research Suitable for student and scholar alike The Anthropology of Magic updates a classical anthropological debate concerning the nature of human experience A key theme is that human beings everywhere have the potential for magical consciousness Taking a new approach to some perennial topics in anthropology such as shamanism mythology witchcraft and healing the book raises crucial theoretical and methodological issues to provide the reader with an engaging and critical understanding of the dynamics of magic Join the live discussion on Facebook

The Sacred Tree Carole M. Cusack, 2011-05-25 The fundamental nature of the tree as a symbol for many communities reflects the historical reality that human beings have always interacted with and depended upon trees for their survival Trees provided one of the earliest forms of shelter along with caves and the bounty of trees nuts fruits and berries gave sustenance to gatherer hunter populations This study has concentrated on the tree as sacred and significant for a particular group of societies living in the ancient and medieval eras in the geographical confines of Europe and sharing a common Indo European inheritance but sacred trees are found throughout the world in vastly different cultures and historical periods Sacred trees feature in the religious frameworks of the Ghanaian Akan Arctic Altaic shamanic communities and in China and Japan The power of the sacred tree as a symbol is derived from the fact that trees function as homologues of both human beings and of the cosmos This study concentrates the tree as axis mundi hub or centre of the world and the tree as imago mundi picture of the world The Greeks and Romans in the ancient world and the Irish Anglo Saxons continental Germans and Scandinavians in the

medieval world all understood the power of the tree and its derivative the pillar as markers of the centre Sacred trees and pillars dotted their landscapes and the territory around them derived its meaning from their presence Unfamiliar or even hostile lands could be tamed and made meaningful by the erection of a monument that replicated the sacred centre Such monuments also linked with boundaries and by extension with law and order custom and tradition The sacred tree and pillar as centre symbolized the stability of the cosmos and of society When the Pagan peoples of Europe adopted Christianity the sacred trees and pillars visible signs of the presence of the gods in the landscape were popular targets for axe wielding saints and missionaries who desired to force the conversion of the landscape as well as the people Yet Christianity had its own tree monument the cross on which Jesus Christ was crucified and which came to signify resurrected life and the conquest of eternal death for the devout As European Pagans were converted to Christianity their tree and pillar monuments were changed into Christian forms the great standing crosses of Anglo Saxon northern England played many of the same roles as Pagan sacred trees and pillars Irish and Anglo Saxons Christians often combined the image of the Tree of Life from the Garden of Eden with Christ on the cross to produce a Christian version of the tree as imago mundi From Roman Provinces to Medieval Kingdoms Thomas F.X. Noble,2006-04-07 This prestigious collection of essays by leading scholars provides a thorough reassessment of the medieval era which questions how when and why the Middle Ages began and how abruptly the shift from the Roman Empire to Barbarian Europe happened Presenting the most current work including newly available material such as translations of French and German essays From Roman Provinces to Medieval Kingdoms gathers the key thinkers in the field together in one easy to use volume Examining a wealth of material on the origins of the Barbarian people and their tribes Thomas F X Noble studies the characteristics of the tribes and debates whether they were blood tied clans or units bound by social political and economic objectives Highly readable and student friendly From Roman Provinces to Medieval Kingdoms includes a general introduction clear prologues to each section and makes the key debates of the subject accessible to students **Dictionary of Norse Myth & Legend** Andrew Orchard,2022-11-10 From Loki to Thor Ragnarok to Beowulf A gripping and truly mesmerising delve into the Norse legends From bestselling books to blockbusting Hollywood movies the myths of the Scandinavian gods and heroes are part of the modern day landscape For over a millennium before the arrival of Christianity the legends permeated everyday life in Iceland and the northern reaches of Europe Since that time they have been perpetuated in literature and the arts in forms as diverse as Tolkien and Wagner graphic novels to the world of Marvel This book covers the entire cast of supernatural beings from gods to trolls heroes to monsters and deals with the social and historical background to the myths topics such as burial rites sacrificial practices and runes **Healing Symbols in Psychotherapy** Erik D. Goodwyn,2016-03-02 Ritual scholars note that rituals have powerful psychological social and even biological effects but these findings have not yet been integrated into the practice of psychotherapy and psychiatry In Healing Symbols in Psychotherapy Erik D Goodwyn attempts to rectify this by reviewing the

most pertinent work done in the area of ritual study and applying it to the practice of psychotherapy and psychiatry providing a new framework with which to approach therapy The book combines ritual study with depth psychology placebo study biogenetic structuralism and cognitive anthropology to create a model of interdisciplinary psychology Goodwyn uses examples of rituals from history folklore and cross cultural study and uncovers the universal themes embedded within them as well as their psychological functions As ritual scholars show time and again how Western culture and medicine is ritually impoverished the application of ritual themes to therapy yields many new avenues for healing The interdisciplinary model used here suggests new ways to approach problems with basic identity complicated grief anxiety depression meaninglessness and a host of other problems encountered in clinical work The interdisciplinary approach of this accessibly written book will appeal to psychotherapists psychiatrists and Jungian analysts as well as those in training and readers with an interest in the science behind ritual
