A Journey to the Roots of Rastafari Abba Yahudah, 2014-07-02 Ethiopia accepted Christianity as her sovereign faith after being a Judaic nation for centuries before Christ Her political seat being the Throne of David makes this event uniquely significant in that Judaism as a religion or as a nation had no existing empire By this we mean that after the destruction of Jerusalem in 588 BC and the dispersion of the Israelites the Jews as a nation were unable to reconstruct an independent state anywhere in the world except for the empire established in Ethiopia Therefore Ethiopia represented the only nation to have made such a transition from Judaism to Christianity When one makes a thorough study of the traditions of the biblical Jewish nation one will understand that a Jewish nation could not be reestablished without the Throne and seed of King David Therefore Israel as a place remains to be the fragmented ruins of a past flourishing Jewish state The Roman invasion and occupation of Jerusalem created an atmosphere of tension and political unrest that continued and subsequently led to the destruction of this once glorious city which used to house the Ark of the Covenant All this occurred before the birth of Christ who was to be the major element in the events that were to lead to a New Way

Race and U.S. Foreign Policy from 1900 Through World War II Michael L. Krenn, 2020-12-17 Explores the concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves

students substantial time and effort by making available all the key articles in one reliable source Authoritative commentary The series editor has put together a balanced selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of the subject

Science and Civilisation in China Joseph Needham, Wang Ling, Gwei-Djen Lu, 1971

Out of the Shadows Emily Midorikawa, 2021-05-11 Queen Victoria's reign was an era of breathtaking social change but it did little to create a platform for women to express themselves But not so within the social sphere of the s a mysterious lamp lit world on both sides of the Atlantic in which women who craved a public voice could hold their own Out of the Shadows tells the stories of the enterprising women whose supposedly clairvoyant gifts granted them fame fortune and most important influence as they crossed rigid boundaries of gender and class as easily as they passed between the realms of the living and the dead The Fox sisters inspired some of the era's best known political activists and set off a transatlantic s a craze While in the throes of a trance Emma Hardinge Britten delivered powerful speeches to crowds of thousands Victoria Woodhull claimed guidance from the spirit world as she took on the millionaires of Wall Street before becoming America's first female presidential candidate And Georgina Weldon narrowly escaped the asylum before becoming a celebrity campaigner against archaic lunacy laws Drawing on diaries letters and rarely seen memoirs and texts Emily Midorikawa illuminates a radical history of female influence that has been confined to the dark until now
