Missing Men:

The Man Who Never Returned Peter Quinn, 2022-02-08 Peter Quinn's *The Man Who Never Returned* is a noir-ish stylized detective narrative set in 1950s New York. It follows Fintan, a retired detective turned private investigator who has been given the job of finding Judge Crater who just went missing in 1930. Based on a real story, it is quite an intriguing tale that was even more so for people living at the time. The famous missing person case is comparable to the Amelia Earhart missing person case, though it could have been an even more interesting one. It was alleged that the missing judge may have had information about underhanded dealings in the New York judiciary. It was believed that if such information came to light, Franklin D. Roosevelt, then governor of New York, would have had a hard time becoming the president of the United States. There were also rumors that the judge, who was a known ladies man, had either decided to disappear or had fallen afoul of the mafia. Featuring hardboiled characters and a beautiful recreation of New York from the 50s, it is quite a compelling read. *The Man Who was Hanged by a Thread* Cecil Clark, 2011-11-15 From 1858 until 1950, the BC Provincial Police were responsible for maintaining law and order in British Columbia. Numbering only 100 men in 1900, they patrolled this vast area by horseback, boat, snowshoes, and dog team until the arrival of the train, automobile, and airplane. In these classic cases from the files of the BC Provincial Police, former deputy commissioner Cecil Clark brings to life the lawmen who upheld the peace and the criminals who disrupted it. A Texas gambler thinks he has committed the perfect murder, but his plans are foiled by Barkerville's barber. A Quesnel family disappears in mysterious circumstances; their fate remains unknown to this day. Two men are brutally murdered at Osborne Bay in a case of mistaken identity, but did they ever receive justice? These dramatic stories provide a vivid window into BC's frontier society and the challenges faced by the members of North America's first territorial constabulary. The Last Assassin Barry Eisler, 2007 Hoping to reconcile with the mother of his child, reluctant contract killer John Rain inadvertently places them in the path of dangerous enemies and is forced to recruit the help of his nemesis from the Japanese FBI and an ex-Marine sniper. Reprint **Fathers Under Fire** Irwin Garfinkel, Sara S. McLanahan, Daniel R. Meyer, Judith A. Seltzer, 1998-11-01 This important and highly informative collection of studies on nonresident fathers and child support should be of great value to scholars and policymakers alike. *American Journal of Sociology* Over half of America's children will live apart from their fathers at some point as they grow up, many in the single mother households that increasingly make up the nation's poor. Federal efforts to improve the collection of child support from fathers appear to have little effect on payments, and many critics have argued that forcing fathers to pay does more harm than good. Much of the uncertainty surrounding child support policies has stemmed from a lack of hard data on nonresident fathers. *Fathers Under Fire* presents the best available information on the financial and social circumstances of the men who are at the center of the debate. In this volume, social scientists and legal scholars explore the issues underlying the child support debate, chief among them, on the potential repercussions of stronger enforcement. Who are nonresident fathers? This

volume calls upon both empirical and theoretical data to describe them across a broad economic and social spectrum
 Absentee fathers who do not pay child support are much more likely to be school dropouts and low earners than fathers who pay and nonresident fathers altogether earn less than resident fathers Fathers who start new families are not significantly less likely to support previous children But can we predict what would happen if the government were to impose more rigorous child support laws The data in this volume offer a clearer understanding of the potential benefits and risks of such policies In contrast to some fears stronger enforcement is unlikely to push fathers toward But it does seem to have more of an effect on whether some fathers remarry and become responsible for new families In these cases how are subsequent children affected by a father s pre existing obligations Should such fathers be allowed to reduce their child support orders in order to provide for their current families Should child support guidelines permit modifications in the event of a father s changed financial circumstances Should government enforce a father s right to see his children as well as his obligation to pay support What can be done to help under or unemployed fathers meet their payments This volume provides the information and insight to answer these questions The need to help children and reduce the public costs of welfare programs is clear but the process of achieving these goals is more complex Fathers Under Fire offers an indispensable resource to those searching for effective and equitable solutions to the problems of child support

Masculinities and Femininities in Latin America's Uneven Development Susan Paulson,2015-08-20 This book forges a new approach to historical and geographical change by asking how gender

arrangements and dynamics influence the evolution of institutions and environments This new theoretical approach is applied via mixed methods and a multi scale framework to bring together unusually diverse phenomena Regional trends demonstrated with quantitative data include the massive incorporation of women into paid work demographic masculinization of the countryside and feminization of cities rapidly increasing gaps that favor women over men in education and life expectancy and extraordinarily high levels of violence against men Case studies in Mexico Chile and Bolivia explore changes influenced by gender practices and expectations that involve men in different ways than women they also highlight dissimilarities and power relations between differently positioned masculine groups Ethnographic studies of culturally diverse arrangements together with particular attention to subordinate versus dominant masculinities complicate the gender binaries that circumscribe so much research and policy Drawing attention to imbalances and conflicts generated by inappropriate models and uneven developments the book points to opportunities for experimenting with and adapting the sociocultural institutions that govern relations among humans and between humans and their environment
