Colonialism as Civilizing Mission Harald Fischer-Tiné, Michael Mann, 2004 Inherent in colonialism was the idea of self legitimation the most powerful tool of which was the colonizer s claim to bring the fruits of progress and modernity to the subject people In colonial logic people who were different because they were inferior had to be made similar and hence equal by civilizing them However once this equality had been attained the very basis for colonial rule would vanish Colonialism as Civilizing Mission explores British colonial ideology at work in South Asia Ranging from studies on sport and national education and pulp fiction to infanticide psychiatric therapy and religion these essays on the various forms expressions and consequences of the British civilizing mission in South Asia shed light on a topic that even today continues to be an important factor in South Asian politics *Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriations for 1976* United States. Men, Militarism, and UN Peacekeeping Sandra Whitworth,2004 In this important controversial and at times troubling book Sandra Whitworth looks behind the rhetoric to investigate from a feminist perspective some of the realities of military intervention under the UN flag Whitworth contends that there is a fundamental contradiction between portrayals of peacekeeping as altruistic and benign and the militarized masculinity that underpins the group identity of soldiers Examining evidence from Cambodia and Somalia she argues that sexual and other crimes can be seen as expressions of a violent hypermasculinity that is congruent with militarized identities but entirely incongruent with missions aimed at maintaining peace She also asserts that recent efforts within the UN to address gender issues in peacekeeping operations have failed because they fail to challenge traditional understandings of militaries conflict and women This unsettling critique of UN operations which also investigates the interplay between gender and racial stereotyping in peacekeeping has the power to change conventional perceptions with considerable policy implications

,2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication since 1990 The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions

Gender and Development Emily Awino Onyango,2018-10-31 For a long time African history has been dominated by western perspectives through predominantly male accounts of colonial governments and missionaries In contrast Dr Emily Onyango provides an African history of mission education development and women s roles in Kenya Based on archival research and interviews of primary sources this book explores the relationship of these areas of history with each other focusing on the Luo culture and the

period of 1895 to 2000 With the pre colonial African context as the foundation for understanding and writing history Dr Onyango uses gender to analyze the role of Christian missionaries in the development of women s education and their position in Kenyan society The result of this well researched study is not only a challenge to the traditional understanding of history but also a counternarrative to the common view that to be liberated African women must disregard Christianity Rather she looks at the importance Christianity plays in helping women establish themselves economically politically and socially in Kenyan society This research is a vital contribution to women s history and the history of Christianity in Africa
