Transloyalties, Connected Histories and World Christianity during the Interwar Period Frieder Ludwig, Ellen Veas Rosnes, Joar Haga, Marina Xiaojing Wang, Jairzinho Lopes Pereira, 2025-06-30 This book introduces the approach of transloyalties to study connected histories in World Christianity The term transloyalties is used to analyze the multifaceted processes in various contact zones through which cultural and religious identities were transformed in the tension between different loyalties The volume tests this approach in various case studies most of them focusing on Lutheran churches and World Lutheranism between 1919 and 1939 a time of rapidly changing political circumstances Traditionally the United States Germany and Scandinavia had been identified as the three centers of Lutheranism However while the structures in these centers were well established and World Lutheranism was something out there with limited impact back home negotiation processes on Lutheran identity were crucial in contexts where new Lutheran churches emerged Asian and African church leaders operated in a new context of loyalties They pushed for cooperation and they often interacted with mission organizations from all three centers and also with other religions traditional cultures and political movements Therefore it is significant what happened for instance in the Lutheran Church of China or at Umphumulo in South Africa Including theoretical reflections and case studies this volume is valuable reading for scholars of the history of World Christianity

Anglicanism became enculturated across a broad swath of cultural contexts The influence of context and the challenge of adaption to it framed Anglicanism s twentieth century experience The Oxford History of Anglicanism, Volume V William L. Sachs,2017-12-15 The Oxford History of Anglicanism provides a global study of Anglicanism from the sixteenth century to the twenty first The five volumes in the series look at how Anglican identity was constructed and contested since the English Reformation of the sixteenth century and examine its historical influence during the past six centuries They consider not only the ecclesiastical and theological aspects of global Anglicanism but also the political social economic and cultural influences of this form of Christianity that has been historically significant in Western culture and a burgeoning force in non Western societies since the nineteenth century Written by international experts in their various historical fields each volumes analyses the varieties of Anglicanism that have emerged The series also highlights the formal political institutional and ecclesiastical forces that have shaped a global Anglicanism and the interaction of Anglicanism with informal and external influences which have both moulded Anglicanism and been fashioned by it Volume five of The Oxford History of Anglicanism considers the global experience of the Church of England in mission and in the transitions of its mission Churches towards autonomy in the twentieth century The Church developed institutionally yet more than the institutional history of the Church of England and its spheres of influence is probed The contributors focus on what it has meant to be Anglican in diverse contexts What spread from England was not simply a religious institution but the religious tradition it intended to implant The volume addresses questions of the conduct of mission its intended and unintended consequences It offers important insights on what decolonization meant for Anglicans as the mission Church in various global locations became self reliant This study breaks new ground in describing the emergence of an Anglicanism shaped more contextually than externally It illustrates how Anglicanism became enculturated across a broad swath of cultural contexts The influence of context and the challenge of adaption to it framed Anglicanism s twentieth century experience Soul, Self, and Society Michael Rynkiewicz,2012-01-05 Globalization and urbanization are twin forces that are powerfully shaping economics politics and religion in the world today Traditional anthropological theories are inadequate to recognize and analyze trends such as global migration diasporas and transnationalism New departures in anthropology and the social sciences seeking to address these and other phenomena can help us critique and reshape the theology and practice of Christian mission Today most societies are no longer monocultural In such multicultural contexts any given individual may be competent in several cultures several languages several social networks What does it mean to be in mission with people on the move people who present themselves in one social identity language and culture within a particular setting and then in another setting even on the very same day present themselves in another social identity language and culture In the face of widespread rapid movement of peoples and their increasingly fluid and multifaceted identities will the missionary settle down somewhere or be itinerant along with the people How are perplexing new questions in particular contexts to be addressed such as In what ways is the Nigerian who is founding an AIC

congregation near Houston a missionary too How will Brazilians and Koreans be trained for cross cultural ministry The world is changing faster than missionaries can be retrained for service And yet ethnographic tools are still crucial to missionary practice This important work seeks to draw on recent developments in anthropology to bring valuable perspective and tools to bear on equipping missionaries for work amidst the rapid shifting and complex shaping of peoples by the forces of today's globalized world

The Oxford Handbook of Anglican Studies Mark David Chapman, Sathianathan Clarke, Martyn Percy, 2016 The Anglican Communion is the third largest Christian denomination and claims a membership of some 80 million members in about 164 countries Given that there are only around two hundred countries in the world this makes the churches of the Anglican Communion the most geographically widespread denomination after Roman Catholicism The 44 essays in this volume embrace a wide range of academic disciplines theological historical demography and geography and different aspects of culture and ethics They are united in their discussion of what is effectively a new inter disciplinary subject which we have termed Anglican Studies At the core of this volume is the phenomenon of Anglicanism as this is expressed in different places and in a variety of ways across the world This Handbook covers a far broader set of topics from a wider range of perspectives than has been hitherto attempted in Anglican Studies At the same time it doesn't impose a particular theological or historical agenda The contributions are drawn from across the spectrum of theological views and opinions It shows that the unsettled nature of the polity is part of its own rich history and many will see this as a somewhat lustrous tradition In its comprehensive coverage this volume is a valuable contribution to Anglican Studies and helps formulate a discipline that might perhaps promote dialogue and discussion across the Anglican world

Light on Darkness? T. Jack Thompson, 2012-04-20 In its earliest days photography was seen as depicting its subjects with such objectivity as to be inherently free of ideological bias Today we are rightly more skeptical at least most of the time When it comes to photography from the past we tend to set some of our skepticism aside But should we In Light on Darkness T Jack Thompson a leading historian of African Christianity revisits the body of photography generated by British missionaries to sub Saharan Africa in the nineteenth and early twentieth centuries and demonstrates that much more is going on in these images than meets the eye This volume offers a careful reassessment of missionary photographers their photographs and their African and European audiences Several dozen fascinating photographs from the period are included
