Calder, 2021-02-09 Was Japan's economic miracle generated primarily by the Japanese state or by the nation's dynamic private sector In addressing this question Kent Calder's richly detailed study offers a distinctive reinterpretation of Japanese government business relations Calder challenges popular opinion to demonstrate how Japanese private enterprise has complemented the state in achieving the national purpose of industrial transformation Coping with Crisis Makoto Kasuya, 2003 This is a comparative examination of financial institutions in the inter war period of the UK US Germany France and Japan In this latest addition to the prestigious FUJI Business History Series the contributors to the volume analyze the ways in which different institutions coped with the financial crises at this time and how they competed with each other They also ask how this affected the financial climates of the countries in question The discussion is divided into three parts commercial banking universal banking and insurance and securities Function-Based Spatiality and the Development of Korean Communities in Japan David Rands, 2014-05-21 Function Based Spatiality and the Development of Korean Communities in Japan utilizes the theoretical model of complex adaptive systems and introduces the concept of function based spatiality to investigate the roles of the urban environments of Tokyo and Osaka in the development of Korean communities in Japan Analysis of distinct Korean communities allows for the examination of urban factors of each city which contributed to the patterns of Korean immigration and community formation

By utilizing a comparative narrative of the two cities distinctions between the organic growth of Osaka and the planned city of Tokyo are illuminated Additionally the discussion utilizes the concept of function based spatiality to show how each city interacted with its surrounding regional national and global spheres The functions of Tokyo as a gateway to Western modernization and center of the Japanese state shaped the interactions with Korean immigrants Likewise Osaka s functions as a center of mercantilism and second city played a large role in how Koreans were incorporated into the urban ethnoscares Taken together these two examples provide insight to the dynamics of urban systems on the development of immigrant communities Subject Catalog, 1978 Library of Congress,1978 **Corporate Financing and Governance in Japan** Takeo Hoshi,Anil K Kashyap,2004-01-31 In this book Takeo Hoshi and Anil Kashyap examine the history of the Japanese financial system from its nineteenth century beginnings through the collapse of the 1990s that concluded with sweeping reforms Combining financial theory with new data and original case studies they show why the Japanese financial system developed as it did and how its history affects its ongoing evolution The authors describe four major periods within Japan s financial history and speculate on the fifth into which Japan is now moving Throughout they focus on four questions How do households hold their savings How is business financing provided What range of services do banks provide And what is the nature and extent of bank involvement in the management of firms The answers provide a framework for analyzing the history of the past 150 years as well as implications of the just completed reforms known as the Japanese Big Bang Hoshi and Kashyap show that the largely successful era of bank dominance in postwar Japan is over largely because deregulation has exposed the banks to competition from capital markets and foreign competitors The banks are destined to shrink as households change their savings patterns and their customers continue to migrate to new funding sources Securities markets are set to re emerge as central to corporate finance and governance Library of Congress Catalog Library of Congress,1970 *Japan and the City of London* Paul Newall,2013-12-17 From an insider s position Sir Paul Newall tells the story of Japan s links with the City of London and explains why the City was first chosen by Japan as the focal point for its overseas financial investment This account draws upon the author s close contact with Japanese governmental and financial authorities both in the UK and Japan itself It documents the evolution and development of this relationship from the earliest beginnings of Japanese financial contact in the 1860s Important to economic and financial historians this account should also be of particular value to those dealing with Japanese companies and financial institutions as well as to those Japanese who are working or have worked in the City First published in 1996 this title is part of the Bloomsbury Academic Collections series **National Union Catalog** , Includes entries for maps and atlases **A History of Corporate Governance around the World** Randall K. Morck,2007-11-01 For many Americans capitalism is a dynamic engine of prosperity that rewards the bold the daring and the hardworking But to many outside the United States capitalism seems like an initiative that serves only to concentrate power and wealth in the hands of a few hereditary oligarchies As A History of Corporate

Governance around the World shows neither conception is wrong In this volume some of the brightest minds in the field of economics present new empirical research that suggests that each side of the debate has something to offer the other Free enterprise and well developed financial systems are proven to produce growth in those countries that have them But research also suggests that in some other capitalist countries arrangements truly do concentrate corporate ownership in the hands of a few wealthy families A History of Corporate Governance around the World provides historical studies of the patterns of corporate governance in several countries including the large industrial economies of Canada France Germany Italy Japan the United Kingdom and the United States larger developing economies like China and India and alternative models like those of the Netherlands and Sweden 日本経済の発展と国際化 日本経済,1986 **U.S./Japan Foreign Trade** Rita E.
