Mittelmab Und Wahn:

Mittelmass und Wahn Hans Magnus Enzensberger, 1991 *Hans Magnus Enzensberger* Alasdair King, 2007 The writings of Hans Magnus Enzensberger are a provocative commentary on the post 1945 period in Germany Poet and essayist of international standing and frequent contributor to political and cultural debates his work has accompanied the development of the Federal Republic from the 1950s to German unification and after This study makes explicit the links between Enzensberger s literary imagination and the cultural and political history of Germany and offers a close reading of both Enzensberger s poetry and his seminal essays on politics and culture proposing that they be considered as part of a single artistic project The book argues that Enzensberger s significance lies in his sustained exploration of the relationship between literary and cultural practices and political democracy in Germany It offers detailed analyses of Enzensberger s poetry and considers his essays on the consciousness industry and on the constituents of a theory of the media in the context of the political development of the Federal Republic in the half century following 1945 Post World War 2 essays on cinema and television on tourism consumption and migration and on digital media and the future of literature are also considered and analysed Enzensberger s work is situated as part of an ongoing critical debate between him and key intellectual figures such as Theodor W Adorno Walter Benjamin Siegfried Kracauer Jurgen Habermas Jean Baudrillard and Michel Foucault

Debating Enzensberger Gerhard Fischer, 1996 A Companion to Twentieth-Century German Literature Raymond Furness, Malcolm Humble, 2003-09-02 Containing entries on over four hundred authors of fiction poetry and drama from Germany Austria and Switzerland this invaluable work of reference presents material of a range and depth that no other book on the subject in English attains For the second edition the entries have been updated to include the most recent works of German literature A number of new entries have been added dealing in particular with the East German literary scene and the changing literary landscape after reunification In addition to basic biographical facts the Companion offers summaries information on involvement in literary groups and political developments schools and movements critical terms and aspects of the other arts including film **Media on a Political Level** Stavros Arabatzis, 2025-08-03 The volume presented here seeks to shift the concept of media from its traditional domain to the political field Media are not merely to be understood as an intellectual or aesthetic game communicative linguistic written technical profit rational instrumental hermeneutic or mathematical informational but rather as a political state of emergency This media theory therefore addresses the question of why humanity instead of entering a truly human state is sinking into a new kind of barbarism Adorno Horkheimer According to our thesis this is a medial question one that arises from the original inverse setting kata strophēn of media and it subsequently determines their historical societal social and political development The main thesis of this book is that we are no longer dealing with media as a theoretical technical aesthetic or informational game Rather we are dealing with a political state of emergency where the issue is truth or falsehood within the polis and its prevailing laws These are two

fundamentally different domains intellectual and aesthetic play on the one hand and political emergency on the other that must not be confused because the latter is existential and concerns life or death Today media themselves have become cultural technical economic and political weapons concealing both their essence and non essence As a result the once metaphorical character of technicist media theory war as the essence of media Kittler has been lost and media have been transferred into the political geopolitical financial and informational economic realm Kittler s media theoretical thesis media as military equipment media as repurposed war devices misunderstood in their function as long as their primary military purpose is ignored is according to our thesis in this book not to be understood as technical but as political state related and socio economic pre state Media theory thus becomes Stasiology theory of civil war and Polemology theory of war This antagonistic polemical principle sharpens the focus on all media in the public sphere such that the agonistic principle of struggle C Mouffe is merely a preliminary stage and still remains within the realm of play Therefore our concluding thesis is that we do not need a technical hermeneutic aesthetic phenomenological anthropological or ontological a priori to explain the essence or non essence of media What we need is a Stasiology and a Polemology capable of unlocking the entire antagonistic polemical field of media in the public sphere Only this sharpening of media in the public sphere allows us to move beyond the antagonistic polemical principle itself Modern German Political Drama, 1980-2000 Birgit Haas, 2003 In addition to established playwrights such as Heinar Kipphardt Franz Xaver Kroetz and Heiner Muller the book looks at the younger generation of playwrights not yet fully taken into account by research writers such as Oliver Bukowski Dea Loher Marius von Mayenburg Albert Ostermaier and Theresia Walser It gives an overview of the most important developments in recent German political drama through analysis of more than forty contemporary plays clearly tracing connections between politics and theater Each chapter is preceded by a short introduction into the respective political topic providing the framework for the study of drama as a political tool and making it easy for students to see the multiple ways in which plays respond to political change This book will be of interest to students and scholars in drama and theater studies and German literature

BOOK JACKET Exemplarity and Mediocrity Paul Fleming, 2008-12-11 Following Hegel s analysis of art s increasing difficulty to both engage and extricate itself from prosaic reality Paul Fleming investigates the strategies employed by German literature from 1750 to 1850 for increasingly attuning itself to quotidian life common heroes everyday life non extraordinary events while also avoiding all notions of mediocrity He focuses on three sites of this tension the average audience Lessing the average artist Goethe and Schiller and the everyday or average life Grillparzer and Stifter The book s title Exemplarity and Mediocrity describes both a disjunctive and a conjunctive relation Read disjunctively modern art must display the exemplary originality Kant that only genius can provide and is thus fundamentally opposed to mediocrity as that which does not stand out or lacks distinctiveness in the conjunctive sense modern art turns to non exceptional life in order to transform it without forsaking its commonness thereby producing exemplary forms of mediocrity that both represent

the non exceptional and insofar as they stand outside the group they represent are something other than mediocre
