British Grand Strategy in the Age of American Hegemony William D. James, 2024-01-18 Is the United Kingdom capable of grand strategy Common wisdom suggests otherwise Some think it implausible amid the maelstrom of domestic politics while others believe the UK lacks the necessary autonomy as a cog in the US led order British Grand Strategy in the Age of American Hegemony challenges these claims William D James contends that grand strategy is an unavoidable part of governing Grand strategy is the highest level of national security decision making encompassing judgements over a state s overarching objectives and interests as well as its security environment and resource base Getting these decisions right is vital in moments of geopolitical flux Employing several historical case studies between 1940 2003 and marshalling a host of primary sources James argues that British politicians and officials have thought in grand strategic terms under American hegemony even if they do not realise or admit to this He also demonstrates that the role of allies in shaping British grand strategy has been overstated Finally James highlights the conditions under which domestic political actors can influence grand strategic decision making Written for practitioners as well as scholars the book concludes with several policy recommendations at this inflection point in British history

*Government and Armed Forces in Britain, 1856-1990* Paul Smith, 2010-07-15 In a period that began with Britain controlling a world wide empire and included two world wars followed by the Cold War and massive expenditure on nuclear armaments the relationship between the politicians and the generals has been central to British history While it is correctly assumed that the Armed Forces have never threatened British political stability in modern times the relationship between the military and their political masters is a major if under emphasised theme of British history While in theory the politicians decided strategy and the military implemented it in practice decisions often depended on the personalities and experience of those involved Asquith the

epitome of the civilian left major strategic decisions in the hands of the military while Churchill an ex soldier and ex First Lord of the Admiralty rode roughshod over professional military advice In a period when arms before ever more technologically sophisticated there was also the problem of how far politicians could decide on strategies proposed by the military other than by the crude yardstick of cost The essays in *Government and the Armed Forces in Britain 1856-1990* provide a coherent account not only of the major decision making of warfare but also of the changes in the organisation and control of the Armed Forces

The use of airspace Great Britain: Parliament: House of Commons: Transport Committee, 2009-07-10 The Government's Future of Air Transport strategy aims to significantly increase UK airport capacity over the next two decades to accommodate the predicted growth in demand for air travel New runways at Heathrow and Stansted airports are two of the key airport development proposals If all the White Paper supported airport development proposals came to fruition current Government forecasts predict that the number of passengers passing through UK airports will increase from 241 million passengers a year in 2007 to 455 million passengers a year in 2030 This UK growth matches air traffic predictions for the whole continent Eurocontrol the European Organisation for the Safety of Air Navigation predicts that European air traffic will double by 2020 If rising demand for air travel is to be met effectively through additional airport capacity a corresponding increase in airspace capacity must be realised However a country's airspace the portion of atmosphere above its territory and territorial waters controlled by that country is a finite

resource UK airspace particularly in the South East of England is already some of the busiest and most complex to manage in the world This will almost certainly require improvements in the efficiency of the UK air traffic management system The Committee's inquiry aims to look at how to meet these challenges Its findings are aimed at those organisations responsible for airspace related decisions in the UK the CAA NATS and the Department for Transport Passenger numbers and freight demand globally have declined in 2008 and in the first months of 2009 In its conclusions and recommendations the Committee covered the management of airspace strategy change and co ordination in airspace management environmental impacts of airspace changes and European developments      Remaining Government responses session 2004-05 Great Britain: Parliament: House of Lords: European Union Committee,2007-11-02 The Government is expected to respond to all reports from the Committee within two months of publication The Committee then makes them available to the House and publishes them as required This report makes 35 such responses available      British Books ,1898      **Parliamentary Papers** Great Britain. House of Commons,1981      *Political Power and Democratic Control in Britain* David Beetham,Stuart Weir,2002-09-11 Democratic Institutions and Practices is the second study carried out under the Democratic Audit of the UK This volume explores the formal institutions and processes of the liberal democratic state including the executive elections parliament and the civil service      **British Defence in the 21st Century** John Louth,Trevor Taylor,2018-09-21 This book analyses UK defence as a complex interdependent public private enterprise covering politics management society and technology as well as the military Building upon wide ranging applied research with extensive access to ministers policy makers senior military commanders and industrialists the book characterises British defence as a phenomenon that has endured extensive transformation this century Looking at the subject afresh as a complex extended enterprise involving politics alliances businesses skills economics military practices and citizens the authors profoundly reshape our understanding of defence and how it is to be commissioned and delivered in a world dominated by geopolitical risks and uncertainties The book makes the case that this new understanding of defence must inevitably lead to new policies and processes to ensure its health and vitality This book will be of much interest to students of defence studies British politics and military and strategic studies as well as policy makers and practitioners      *Labour's Ballistic Missile Defence Policy 1997-2010* James Simpkin,2022-12-23 This book uses the strategic relational approach to explain how the Labour governments of Tony Blair and Gordon Brown integrated the United Kingdom into the US ballistic missile defence system in order to maintain national security and to uphold the special relationship while at the same time recognising that voters were in general opposed to missile defence Labour's Ballistic Missile Defence Policy 1997 2010 examines how the Labour administration was tasked with navigating a domestic political environment in which they had to appear tough on defence in general in order to appeal to a broader range of the electorate while recognising that voters were opposed to missile defence in particular This book seeks to answer the question of why the centre left government of Tony Blair and Gordon Brown

elected on a mandate of multi lateralism in international relations and espousing an ethical dimension to foreign policy committed the United Kingdom to US ballistic missile defence an internationally divisive military project associated with the US Republican Party and George W Bush in particular This book is essential for students and researchers interested in British military history international relations strategic studies British politics Labour politics and political theory
