## **Model Boat Building The Spritsail Skiff:**

**Model Boat Building** Steve Rogers, Patricia Staby-Rogers, 1999-04 The people of Deal's Island make their living by harvesting the various fisheries of the Chesapeake Bay. The people were there before the roads and the bridges. They got around in the boats that they designed and built by themselves. With beautiful color photographs, helpful drawings, and a wealth of knowledge that comes from years of craftsmanship, Steve Rogers leads the reader through the building of a model of the North Carolina Spritsail Skiff, one of the many truly ingenious and unique crafts that developed in this environment. The model is in one inch scale and is built in much the same way as the actual boat. Clear step by step directions are given for everything from the jigs to the sails.

**Model Boat Building** Steve Rogers, Patricia Staby-Rogers, 1996 Steve Rogers loves working boats and the skipjacks is one of the best. Following the acclaim of his previous three books on model boat building, Steve offers a guide for building a skipjack. This is perhaps the most ambitious of the projects presented to date, and he leads the craftsman step by step through the process. The result is a beautiful boat in full sail. The model is in 1/2 scale based on a skipjack that is 45 feet on deck with a 15 foot beam. Drawings, patterns, jigs, and accessories are all detailed for the aid and instruction of the reader. Everything is illustrated in clear color photographs with concise captions which describe the action.

**The Dory Model Book** Harold Payson, 1997 Three traditional Down East boats are featured: a Banks dory, a Friendship Dory, and a Friendship dory skiff. All are based on authentic boats and built with the same care as a full size boat.
