Model Rebels, 2001 This is the chronicle of a village on the northern China plains during the post 1978 economic reforms It examines how Daqiu Village led by Yu Zuomin a Communist Party secretary and president of the local industrial conglomerate became the richest village in China and a model for the rural reforms of the 1980s and early 1990s *Model Rebels* Bruce Gilley, 2001-02-18 A portentous tale of rural rebellion unfolds in Bruce Gilley s moving chronicle of a village on the northern China plains during the post 1978 economic reform era Gilley examines how Daqiu Village led by Yu Zuomin a charismatic Communist Party secretary and president of the local industrial conglomerate became the richest village in China and a model for the rural reforms of the 1980s and early 1990s A growing campaign of political resistance led to increasing tensions between the villagers and the Chinese state and eventually in an event that made headlines around the world an armed confrontation between the village and higher authorities backed by paramilitary police brought Yu Zuomin and his village crashing down

Weapons of the Wealthy Scott B. Radnitz, 2012-07-12 Mass mobilization is among the most dramatic and inspiring forces for political change When ordinary citizens take to the streets in large numbers they can undermine and even topple undemocratic governments as the recent wave of peaceful uprisings in several postcommunist states has shown However investigation into how protests are organized can sometimes reveal that the origins and purpose of people power are not as they appear on the surface In particular protest can be used as an instrument of elite actors to advance their own interests rather than those of the masses *Weapons of the Wealthy* focuses on the region of post Soviet Central Asia to investigate the causes of elite led protest In nondemocratic states economic and political opportunities can give rise to elites who are independent of the regime yet vulnerable to expropriation and harassment from above In conditions of political uncertainty elites have an incentive to cultivate support in local communities which elites can then wield as a weapon against a predatory regime Scott Radnitz builds on his in depth fieldwork and analysis of the spatial distribution of protests to demonstrate how Kyrgyzstan s post independence development laid the groundwork for elite led mobilization whereas Uzbekistan s did not Elites often have the wherewithal and the motivation to trigger protests as is borne out by Radnitz s more than one hundred interviews with those who participated in observed or avoided protests Even Kyrgyzstan s 2005 Tulip Revolution which brought about the first peaceful change of power in Central Asia since independence should be understood as a strategic action of elites rather than as an expression of the popular will This interpretation helps account for the undemocratic nature of the successor government and the 2010 uprising that toppled it It also serves as a warning for scholars to look critically at bottom up political change

Entrepreneurship in China Keming Yang, 2016-04-29 The emergence of China as a major world economy is of great importance to the global political economy and to international business There has been much research on the macro level of institutional reform but little detailed work on the grassroots level of entrepreneurship in China This innovative book addresses this gap by investigating

how an economic system dominated by central plans communist ideologies and suppressing bureaucracies could generate such energy from the bottom of society fuelling the country's economic growth Keming Yang's theory of entrepreneurship is based on two interrelated concepts double entrepreneurship and institutional holes He argues that the two concepts bridge a gap between the neo classical institutionalism of economic development and entrepreneurship studies that emphasize individual choice The rigorous theoretical framework is supported by substantial empirical research offering statistical analyses of survey data as well as detailed case studies This timely book will appeal to an interdisciplinary readership in sociology economics business studies and Chinese and Asian Studies *East Asia and the Trials of Neo-Liberalism* Kevin Hewison, Richard Robison, 2013-09-13 A much needed examination of the impact of neo liberalism in East Asia in the years since the 1997 to 1998 Asian Economic Crisis These leading contributors tackle the nature of neo liberalism and the forces and institutions driving it With fresh case studies of Indonesia Thailand South Korea Malaysia China and Vietnam showing how domestic elites are critical to the ways in which the neo liberal agenda is manifested modified and rejected They also engage with the key question of why there has been a dramatic restructuring of state and economic power with some elements of domestic elites having been decimated others reinventing themselves while important new elements have been constituted This book was previously published as a special issue of the leading Journal of Development Studies Political Science and Chinese Political Studies Sujian Guo, 2012-07-25 We have witnessed the substantial transformation of China studies particularly Chinese political studies in the past 30 years due to changes in China and its rising status in the world as well as changes in our ways of conducting research As area studies specialists we are no longer isolated from the larger disciplines of Political Science and International Relations IR but an integral part of them This book contains theoretically innovative contributions by distinguished political scientists from inside and outside China who together offer up to date overviews of the state of the field of Chinese political studies combines empirical and normative researches as well as theoretical exploration and case studies explore the relationship between Western political science scholarship and contemporary Chinese political studies examine the logic and methods of political science and their scholarly application and most recent developments in the study of Chinese politics and discuss the hotly contested and debated issues in Chinese political studies such as universality and particularity regularity and diversity scientification and indigenization main problems challenges opportunities and directions for the disciplinary and intellectual development of Chinese political studies in the context of rising China *Political Culture and Participation in Rural China* Yang Zhong, 2013-06-17 Despite China's rapid urbanisation and industrialisation most Chinese still live in the vast countryside or have rural household registration Although there was significant economic improvement in rural areas in the 1980s the rural economy has been stagnating or deteriorating since then and the book argues that the rural urban income gap is giving rise to the potential for political instability throughout China This book based on extensive original research including interview fieldwork in rural

areas examines the nature of political culture and participation in rural China discussing issues such as the support or lack of it for democratic values levels of political interest the ways in which Chinese peasants interact with village and local officials subjective factors that motivate them to vote or not to vote in village elections and rural people's views on market oriented economic reforms local and national government and the Communist Party The book argues that although hitherto peasants riots sit ins and demonstrations have been localised and uncoordinated they are frequent and have the potential to cause serious political crises for China's rulers It concludes by considering the future political development of China's vast countryside

Politics in China William A. Joseph, 2019 On October 1 2019 the People's Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world's poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities ethnic unrest and a rising tide of social protest *Politics in China* provides an accessible yet authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book's chapters provide overviews of major periods in China's modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan

China Under Hu Jintao Tun-jen Cheng, Jacques deLisle, Deborah Brown, 2006 The fourth generation of leaders of the People's Republic of China while benefiting from the prestige of China's entry into the World Trade Organization and the honor of hosting the 2008 Olympic Games also needs to contemplate the sobering side effects of a rapid and internationally interdependent economy and a troubled and only partly reformed political system This important book approaches the study of the PRC under Hu Jintao in a two fold manner by examining the new political parameters within which the party state functions and by analyzing the prominent issues OCo at home and abroad OCo that are commanding the attention of China OCOs new leaders The book tackles a comprehensive range of topics including elites institutions and state OCO society relations politics and the political

implications of economic change domestic politics and foreign relations

The Genius of the Beast Howard Bloom, 2010-05-01 Is global capitalism on its last legs Is the era of American leadership over Has the West begun a decline into a new Dark Age Does American civilization deserve to survive These are the unnerving questions raised by the Great Crash of 2009 This book presents a radically new answer insisting that global society has only begun to realize its full potential Author Howard Bloom argues that there's a hidden mandate beneath the surface of capitalism It's struggling to whisper and rumble its message to you and me That hidden imperative can lift us from economic crisis can make us a leader in the next generation economy and can dramatically upgrade our ability to empower our fellow human beings Bloom sees crisis as opportunity opportunity for the whole human race In more than eighty short fast chapters insights appear suddenly like the quick bursts of flashbulbs taking the reader on a sweeping tour of human history from the Stone Age to the present Every chapter conveys a radically new way to see the astonishing mechanism we call Western Civilization Bloom marvels at how humans have turned toxic waste into food and fuel trash into treasure and garbage into gold He shows how we've produced material miracles based on immaterial things passion persistence and

fantasy He shows that what many regard as the end is just the beginning The beginning of something you've never before imagined The author explains why the secret to capitalism's next great leap does not lie in new financial tricks but in tapping things right under our noses in radically new ways that is tapping our imagination our desire to feel useful our desire to help others and our desire to be recognized for contributing to the welfare of humanity The key to next generation capitalism lies in a big picture view that's utterly unlike anything you've previously perceived A big picture view that will startle you A big picture view with which you can ignite the world get a new handle on your life and help transform society This brilliant inspirational work of daring ideas and breathtaking research offers more than hope It offers unseen levels of understanding Understanding that can literally redefine what it means to be a human being Corruption by Design Melanie Manion, 2009-07-01 This book contrasts experiences of mainland China and Hong Kong to explore the pressing question of how governments can transform a culture of widespread corruption to one of clean government Manion examines Hong Kong as the best example of the possibility of reform **The New Entrepreneurs of Europe and Asia** Victoria E. Bonnell, Thomas B. Gold, 2015-05-20 While attention has been focused on high level struggles over control of giant enterprises in China and the former Soviet bloc a remarkable but underreported revolution has been occurring at the grass roots level This volume examines the profiles of entrepreneurs and the patterns of business development in the post socialist countries Bringing together the perspectives of all the social science disciplines from anthropology through economics and political science to sociology the contributors identify the criteria for survival and success of independent businesses in different environments Their findings shed light not only on the transition from socialism at the micro level but also on the conditioning effects of different economic historical legal and social conditions on the conduct of independent economic initiatives *Electronic Customer Relationship Management* Jerry Fjermestad, Nicholas C. Romano, 2006 Sustainable strategic management refers to strategic management processes that seek competitive advantages consistent with a core value for environmental sustainability This volume has been designed as a supplement to traditional texts in graduate and undergraduate strategic management courses **Culturing Modernity** Qin Shao, 2004 This is a multidimensional study of a simulation of modernity that transformed Nantong a provincial town from a rural backwater to a model of progress in early twentieth century China The author analyzes this transformation by depicting the new institutional and cultural phenomena used by the elite to exhibit the modern a museum theater cinema sports arenas parks photographs name cards paper money clocks architecture investigative tourism and public speaking In focusing on this exhibitory modernity and its role in reconstructing this local community and in promoting the Nantong model nationwide the book sheds intriguing new light on the connections between local and national politics and rural and urban experience **Revolution, Resistance, and Reform in Village China** Edward Friedman, Paul G. Pickowicz, Mark Selden, 2008-10-01 Drawing on more than a quarter century of field and documentary research in rural North China this book explores the contested relationship between village

and state from the 1960s to the start of the twenty first century The authors provide a vivid portrait of how resilient villagers struggle to survive and prosper in the face of state power in two epochs of revolution and reform Highlighting the importance of intra rural resistance and rural urban conflicts to Chinese politics and society in the Great Leap and Cultural Revolution the authors go on to depict the dynamic changes that have transformed village China in the post Mao era This book continues the dramatic story in the authors prizewinning Chinese Village Socialist State Plumbing previously untapped sources including interviews archival materials village records and unpublished memoirs diaries and letters the authors capture the struggles pains and achievements of villagers across three generations of social upheaval The Right to Rule Bruce Gilley,2009-03-03 Popular perceptions of a state s legitimacy are inextricably bound to its ability to rule Vast military and material reserves cannot counter the power of a citizen s belief and the more widespread the crisis of a state s legitimacy the greater the threat to its stability Even such established democracies as France and India are losing their moral claims over society while such highly illiberal states as China and Iran enjoy strong showings of public support Through a remarkable fusion of empirical research and theory Bruce Gilley makes clear the link between political consent and political rule Fixing a definition of legitimacy that is both general and particular he is able to study the role of legitimacy as it has been maintained and lost in a diverse selection of societies He begins by detailing the origins of state legitimacy and the methods governments have used to wield it best He then considers the habits of less successful states exploring how the process works across different styles of government Gilley s unique approach merges a broad study of legitimacy and performance in seventy two states with a detailed empirical analysis of the mechanisms of legitimation The results are tested on a case study of Uganda a country that after 1986 began to recover from decades of civil war Considering a range of explanations of other domestic and international phenomena as well Gilley ultimately argues that because of its evident real world importance legitimacy should occupy a central place in political analysis **City Versus Countryside in Mao's China** Jeremy Brown,2012-06-18 A powerful work of grassroots history tracing China s rural urban divide back to the policies of Mao Zedong which pitted city dwellers against villagers
