The Rhetoric of Power in Late Antiquity Elizabeth DePalma Digeser, Robert M. Frakes, Justin Stephens, 2018-10-18 Late Antiquity the period of transition from the crisis of Roman Empire in the third century to the Middle Ages has traditionally been considered only in terms of the decline from classical standards Recent classical scholarship strives to consider this period on its own terms Taking the reign of Constantine the Great as its starting point this book examines the unique intersection of rhetoric religion and politics in Late Antiquity Expert scholars come together to examine ancient rhetorical texts to explore the ways in which late antique authors drew upon classical traditions presenting Roman and post Roman religious and political institutions in order to establish a desired image of a new era This book provides new insights into how the post Roman Germanic West Byzantine East and Muslim South appropriated and transformed the political intellectual and cultural legacy inherited from the late Roman Empire and its borderlands *Islamic Economy and Social Mobility: Cultural and Religious Considerations* Shahpari, Hasan, 2016-01-12 In an era of globalization and cross cultural awareness an interest in the relationship between economics and religion politics and social behavior is alive and well In particular the Islamic economy has become a focal point of interest for economists and government leaders around the world interested in understanding the relationship between religion and economics among primarily Islamic regions *Islamic Economy and Social Mobility Cultural and Religious Considerations* analyzes the social cultural religious and political implications of the Islamic economy at the global level Highlighting the foundations upon which Islamic ideology is formed and how it impacts socio cultural and economic systems both within and outside of primarily Islamic regions this publication is an ideal reference source for economists sociologists international relations professionals researchers academics and graduate level students Politics of Honor in Ottoman Anatolia Başak Tuğ, 2017-02-06 In *Politics of Honor* Başak Tuğ examines moral and gender order through the glance of legal litigations and petitions in mid eighteenth century Anatolia By juxtaposing the Anatolian petitionary registers subjects petitions and Ankara and Bursa court records she analyzes the institutional framework of legal scrutiny of sexual order Through a revisionist interpretation Tu demonstrates that a more

bureaucratized system of petitioning a farther hierarchically organized judicial review mechanism and a more centrally organized penal system of the mid eighteenth century reinforced the existing mechanisms of social surveillance by the community and the co existing discretionary authority of the Ottoman state over sexual crimes to overcome imperial anxieties about provincial disorder [A History of Social Justice and Political Power in the Middle East](#) Linda T.

Darling,2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government s justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people s political culture and expectations of government The book demonstrates the Circle s relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism **Empire and Power in**
