*Saracens and the Making of English Identity* Siobhain Bly Calkin, 2013-11-05 This book explores the ways in which discourses of religious racial and national identity blur and engage each other in the medieval West Specifically the book studies depictions of Muslims in England during the 1330s and argues that these depictions although historically inaccurate served to enhance and advance assertions of English national identity at this time The book examines Saracen characters in a manuscript renowned for the variety of its texts and discusses hagiographic legends elaborations of chronicle entries and popular romances about Charlemagne Arthur and various English knights In these texts Saracens engage issues such as the demarcation of communal borders the place of gender norms and religion in communities self definitions and the roles of violence and history in assertions of group identity Texts involving Saracens thus serve both to assert an English identity and to explore the challenges involved in making such an assertion in the early fourteenth century when the English language was regaining its cultural prestige when the English people were increasingly at odds with their French cousins and when English Welsh and Scottish sovereignty were pressing matters

Heyes,2019-12-06 St Margaret of Antioch was one of the most popular saints in medieval England and throughout the Middle Ages the various Lives of St Margaret functioned as a blueprint for a virginal life and supernatural assistance to pregnant women during the dangerous process of labor In her narrative Margaret is accosted by various demons and having defeated each monster in turn she is taken to the place of her martyrdom where she prays for supernatural boons for her adherents This book argues that Margaret s monsters are a key element in understanding Margaret s importance to her adherents specifically how the sexual identities of her adherents were constructed and maintained More broadly this study offers three major contributions to the field of medieval studies first it argues for the utility of a diachronic analysis of Saints Lives literature in a field dominated by synchronic analyses second this diachronic analysis is important to interpreting the intertext of Saints Lives not only between different Lives but also different versions of the same Life and third the approach further suggests that the most valuable socio cultural information in hagiographic literature is found in the auxiliary characters and not in the figure of the saint him herself **Margaret Tyler, 'Mirror of Princely Deeds and Knighthood'** Joyce Boro,2014-07-01 Margaret Tyler s Mirror of Princely Deeds and Knighthood is a groundbreaking work being the first

English romance penned by a woman and the first English romance to be translated directly from Spanish. As such it is not only a landmark in the history of Anglo-Spanish literary relations but it is also a milestone in the evolution of the romance genre and in the development of women's writing in England. Yet notwithstanding its seminal status this is the only critical edition of Tyler's romance. This modernized edition is preceded by an introduction which meticulously investigates Tyler's translation methodology, her biography, her proto-feminism and her religious affiliations. In addition it situates *Mirror* within the context of English romance production and reading, female authorship and the Elizabethan and Jacobean translation of Spanish romance. This edition will be of interest to scholars of gender studies and of English and Spanish Renaissance literature.

**Cultural Difference and Material Culture in Middle English Romance** Dominique Battles, 2013-09-13. This book explores how the cultural distinctions and conflicts between Anglo-Saxons and Normans, originating with the Norman Conquest of 1066, prevailed well into the fourteenth century and are manifest in a significant number of Middle English romances including *King Horn*, *Havelok the Dane*, *Sir Orfeo*, *Sir Gawain and the Green Knight* and others. Specifically, the study looks at how the material culture of these poems—architecture, battle tactics, landscapes—systematically and persistently distinguishes between Norman and Anglo-Saxon cultural identity. Additionally, it examines the influence of the English Outlaw Tradition, itself grounded in Anglo-Saxon resistance to the Norman Conquest, as expressed in specific recurring scenes of disguise and infiltration, forest exile, found in many Middle English romances. In the broadest sense, a significant number of Middle English romances, including some of the most well-read and often taught, set up a dichotomy of two ruling houses headed by a powerful lord who compete for power and influence. This book examines the cultural heritage behind each of these pairings to show how poets repeatedly contrast essentially Norman and Anglo-Saxon values and ruling styles.

*Annual Bibliography of English Language and Literature* Modern Humanities Research Association, 2005. Includes both books and articles.

**American Book Publishing Record**, 2005. **The Idea of Anglo-Saxon England in Middle English Romance** Robert Allen Rouse, 2005. Using a variety of texts, but the *Matter of England* romances in particular, the author argues that they show a continued interest in the Anglo-Saxon past from the localised East Sussex legend of King Alfred that underlies the twelfth-century *Proverbs of Alfred* to the institutional interest in the Guy of Warwick narrative exhibited by the community of St Swithun's Priory in Winchester during the fifteenth century. They are part of a continued cultural remembrance that encompasses chronicles, folk memories and literature.

BOOK JACKET **A Companion to Medieval Popular Romance** Raluca L. Radulescu, Cory Rushton, 2009. Popular romance was one of the most wide-spread forms of literature in the Middle Ages, yet despite its cultural centrality and its fundamental importance for later literary developments, the genre has defied precise definition, its subject matter ranging from tales of chivalric adventure to saintly women and monsters that become human. The essays in this collection provide contexts, definitions and explanations for the genre, particularly in an English context. Topics covered include genre and literary classification, race and ethnicity, gender.
