Sartre Modern Thinkers Series:

Sartre Sytse Ulbe Zuidema, 1971 **Zen-Existentialism** Lit-sen Chang, 2011-07-21 Modern man has found that material achievements are failing him but in his escape from despair he has become an easy prey for the deceptive cult of Zen Existentialism There has emerged a mode of radical New Humanism with its emphasis on human autonomy In place of the God man appears the man god There is a search for the world within the limitless inner space the expansion of consciousness and the transcendental experience of Satori First published in 1969 this book prophetically anticipated the growth of New Age developments in the decades to follow Lit sen Chang directly spoke to the Hippie movement of his day which was then seeking various means of transcendence through drugs and eastern mysticism This book also reflects fifty years of bitter experiences of the author's spiritual pilgrimage and shows how he was miraculously delivered by the grace and power of God from his cul de sac Chang writes of the utter futility of the fantasy of the East analyzes the root causes of the crises in the West and points out the doom of auto soterism after his careful diagnosis of the human problem in cultural philosophical religious and theological terms Sartre's 'Being and Nothingness' Sebastian Gardner, 2009-02-26 Jean Paul Sartre's Being and Nothingness marked the beginning of the rise of French existentialism in the twentieth century In this work Sartre offers a complex and profound defense of human freedom The topics discussed by Sartre range from traditional problems of metaphysics and epistemology to the roots of human motivation and the nature of human relationships It is a hugely important text in a long and distinguished tradition of philosophical reflection going back to Kant Sartre's Being and Nothingness A Reader's Guide is an invaluable companion to the study of this influential philosophical text **Adventures in Evangelical Civility** Richard J. Mouw, 2016-11-01 A Hopeful Calvinist's Quest for Common Ground Richard Mouw one of the most influential evangelical voices in America has been on a lifelong quest for commonness engaging with others in a positive manner and advocating for a convicted civility when conversing with those with whom we disagree Through nearly half a century of scholarship leadership and ministry Mouw has sought to learn from non Christian scholars and other faith traditions and to cultivate a civility that is compatible with his Calvinist convictions In Adventures in Evangelical Civility Mouw reflects on his almost fifty years of Christian public life which provides a unique lens for understanding twentieth century evangelicalism He explores themes such as common grace the imago Dei and interfaith dialogue offering a critical assessment of the strengths and weaknesses of what he has accomplished as a spokesperson for evangelical and Reformed perspectives **Van Til** Rousas John Rushdoony, 1960 *Fifty Key Contemporary Thinkers* John Lechte, 2006-08-21 Fifty Key Contemporary Thinkers surveys the most important figures who have influenced post war thought The reader is guided through structuralism semiotics post Marxism and Annales history on to modernity and postmodernity With its comprehensive biographical and bibliographical information this book provides a vital reference work of the last fifty years *The Philosophy of (erotic) Love* Robert C. Solomon, Kathleen Marie Higgins, 1991 Solomon and Higgins have chosen

excerpts from the great philosophical texts and combined them with the most exciting new work of philosophers writing today It examines the mysteries of erotic love from a variety of philosophical perspectives and provides an impressive display of wisdom that the world's best thinkers have brought and continue to bring to the study of love

Existentialism and Contemporary Cinema Jean-Pierre Boulé, Ursula Tidd, 2012-09-01 Simone de Beauvoir's work has not often been associated with film studies which appears paradoxical when it is recognized that she was the first feminist thinker to inaugurate the concept of the gendered othering gaze This book is an attempt to redress this balance and reopen the dialogue between Beauvoir's writings and film studies The authors analyse a range of films from directors including Claire Denis Michael Haneke Lucille Hadzihalilovic Sam Mendes and Sally Potter by drawing from Beauvoir's key works such as *The Second Sex* 1949 *The Ethics of Ambiguity* 1947 and *Old Age* 1970

Understand Existentialism: Teach Yourself Mel Thompson, Nigel Rodgers, 2010-08-27 *Understand Existentialism* breaks down a complex mode of thought into more manageable sections enabling you to get to grips with the key concepts within the movement Chart the origins and development of existentialism in a variety of disciplines and learn about significant thinkers from Sartre and De Beauvoir to Beckett and Camus Whether you are a newcomer or more experienced student this book will enhance your understanding of a brand of philosophy designed to give meaning and direction amongst the uncertainties of modern life

Volume 19, Tome IV: Kierkegaard Bibliography Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications The volume is divided into two large sections Part I which covers Tomes I V is dedicated to individual bibliographies organized according to specific language This includes extensive bibliographies of works on Kierkegaard in some 41 different languages Part II which covers Tomes VI VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies

The Concept of Freedom and the Development of Sartre's Early Political Thought Bernard Merkel, 2019-04-15 This book first published in 1987 is a study of the development of Sartre's political thought from the late 1920s to the liberation of France in 1944 concentrating

particularly upon his concept of freedom It is argued that the evolution of Sartre s thinking can be regarded as constituting a series of problematics each of which has a corresponding notion of freedom and these problematics are elucidated in turn

Owens, 2012-12-06 Dialogue and communication have today become central concepts in contemporary man's effort to analyze and comprehend the major roots of conflict that threaten our twentieth century world Underlying all attempts at dialogue however is the presupposition that it is ontologically possible for men to reach one another and to communicate meaningfully It is to this most basic question of the possibility and the limits of interpersonal relationships that various phenomenologies of intersubjectivity direct themselves Both the topic intersubjectivity and the method phenomenology are relative newcomers to philosophy and in a sense they arrived together Ever since Descartes philosophers have labored to explain how a subject knows an object But not until the twentieth century did they begin to ask the much more fundamental and vastly more mysterious question how does one subject encounter another subject precisely as another subject The problem of intersubjectivity is thus one that belongs in a quite special way to contemporary philosophy Classical philosophy used to leave it strangely alone says Emmanuel Mounier If you enumerate the major problems dealt with by classical philosophy you have knowledge the outside world myself the soul and the body the mind God and the future life the problem created by association with other people never assumes 1 in classical philosophy the same importance as the other problems Phenomenology too is a newcomer to the philosophical scene especially in America **Catalog of Copyright Entries. simultaneously to the practical fate of working class struggles and to the cultural mutations of bourgeois thought in their time The philosophical antecedents of the various school within this tradition Luk csian Gramscian Frankfurt Sartrean Althusserian and Della Volpean are compared and the specific innovations of their respective systems surveyed The structural unity of Western Marxism beyond the diversity of its individual thinkers is then assessed in a balance sheet that contrasts its heritage with the tradition of classical Marxism that preceded it and with the commanding problems which will confront any historical materialism to succeed it *Continental Philosophy in the 20th Century* Richard Kearney,2015-09-29 Continental philosophy is one of the twentieth century s most important and challenging philosophical movements This major volume includes fourteen chapters on its major representatives and schools including phenomenology existentialism and postmodernism Contemporary French Cultural Studies William Kidd,Sian Reynolds,2014-05-01 The study of French culture has long ceased to be purely centred on literature Undergraduate French courses now embrace all forms of cultural production and consumption and students need to have a broad knowledge of everything from day time TV and the latest detective novels to debates about national identity and immigration policies This stimulating text is an introduction to the full range of contemporary French culture Written by a group of leading academics both within and outside France each chapter focuses on a topic from the French cultural scene today Starting with an overview of resources for further information both in print and online the text discusses the varied forms of French cultural expression and looks critically at what Frenchness itself means The book also explores examples of cultural production ranging from sport media and literature to theatre cinema festivals and music An essential resource for students and scholars alike this text provides detailed material and analysis as well as a launch pad for further study
