Sataniske Vers Norwegian

Olav Elgvin

Sataniske Vers Norwegian:

The Islamic Council of Norway and the Challenge of Representing Islam in Europe Olav Elgvin, 2025-07-24 Governments all across Europe have attempted to govern the Muslim population by working with representative Muslim councils. These councils however have often been plagued by conflicts and splits. Why? This book is the first attempt to answer this question in full. It does so by zooming in on the history of The Islamic Council of Norway. For many years this organization functioned well. But after a prolonged conflict the organization split in two in 2017. Based on a thorough study of the organization the author claims that pressure from society at large has made it more difficult for such organizations to fulfil their role as Muslim representatives.

Anders Breivik and the Rise of Islamophobia Sindre Bangstad, 2014-06-12 In late July 2011 Norway was struck by the worst terror attacks in its history. In a fertilizer bomb attack on Government Headquarters in Oslo and a one hour long shooting spree at the Labour Party Youth Camp at Utøya seventy seven people mostly teenagers were killed by Anders Behring Breivik. By targeting young future social democratic leaders his actions were meant to lead to the downfall of Europe's purportedly multiculturalist elites thus removing an obstacle to his plans for an ethnic cleansing of Muslims from Europe. In this highly original work leading Norwegian social anthropologist Sindre Bangstad reveals how Breivik's beliefs were not simply the result of a deranged mind but rather they are the result of the political mainstreaming of pernicious racist and Islamophobic discourses. These ideas currently gaining common currency threaten equal rights to dignity citizenship and democratic participation for minorities throughout contemporary Europe. An authoritative account of the Norwegian terror attacks and the neo racist discourse that motivated them.

Regulation of Speech in Multicultural Societies Marcel Maussen, Ralph Grillo, 2017-10-02 This book focuses on the way in which public debate and legal practice intersect when it comes to the value of free speech and the need to regulate offensive blasphemous or hate speech especially though not exclusively where such speech is thought to be offensive to members of ethnic and religious minorities. The themes addressed are of great significance for contemporary societies in many parts of the world including Europe and North America and although the volume focuses principally on the European context it also addresses the theme on an international level. Contributions look at the transnational intertextuality of the debate as well as comparing approaches to regulation in different countries notably between the European Court of Human Rights and the United States Supreme Court. This book was originally published as a special issue of the *Journal of Ethnic and Migration Studies*.

The Struggle for Inclusion Elisabeth Ivarsson, Paul M. Sniderman, 2022-01-11 The politics of inclusion is about more than hate exclusion and discrimination. It is a window into the moral character of contemporary liberal democracies. *The Struggle for Inclusion* introduces a new method to the study of public opinion to probe step by step how far non Muslim majorities are willing to be inclusive where they draw the line and why they draw it there and not elsewhere. Those committed to liberal democratic values and their concerns are the focus not those advocating exclusion and intolerance. Notwithstanding the turbulence and

violence of the last decade over issues of immigration and of Muslims in the West the results of this study demonstrate that the largest number of citizens in contemporary liberal democracies are more open to inclusion of Muslims than has been recognized Not less important the book reveals limits on inclusion that follow from the friction between liberal democratic values This pioneering work thus brings to light both pathways to progress and polarization traps

Institutional Change in the Public Sphere Fredrik Engelstad,Håkon Larsen,Jon Rogstad,Kari Steen-Johnsen,2017-04-24 The main focus of the book is institutional change in the Scandinavian model with special emphasis on Norway There are many reasons to pay closer attention to the Norwegian case when it comes to analyses of changes in the public sphere In the country s political history the arts and the media played a particular role in the processes towards sovereignty at the beginning of the 20th century On a par with the other Scandinavian countries Norway is in the forefront in the world in the distribution and uses of Internet technology As an extreme case the most corporatist society within the family of the Nordic Model it offers an opportunity both for intriguing case studies and for challenging and refining existing theory on processes of institutional change in media policy and cultural policy It supplements two recent important books on political economy in Scandinavia Varieties of Liberalization and the New Politics of Social Solidarity Kathleen Thelen 2014 and The Political Construction of Business Interests Cathie Jo Martin and Duane Swank 2013 There are further reasons to pay particular attention to the Scandinavian and more specifically the Norwegian cases i They are to varying degrees neo corporatist societies characterized by ongoing bargaining over social and political reform processes From a theoretical perspective this invites reflections which to some extent are at odds with the dominant conceptions of institutional change Neither models of path dependency nor models of aggregate incremental change focus on the continuous social bargaining over institutional change ii Despite recent processes of liberalization common to the Western world as a whole corporatism implies a close connection between state public sphere cultural life and religion This also means that institutions are closely bundled in an even stronger way than assumed for example in the Varieties of Capitalism literature Furthermore we only have scarce insight in the way the different spheres of corporatism are connected and interact In the proposed edited volume we have collected historical institutional case studies from a broad set of social fields a detailed outline of contents and contributors is attached Critical assessments of Jürgen Habermas theory of the public sphere Can the public sphere be considered an institution The central position of the public sphere in social and political change in Norway Digital transformations and effects of the growing PR industry on the public sphere Institutionalization of social media in local politics and voluntary organizations Legitimation work in the public sphere freedom of expression and warning in the workplace Return of religion to the public sphere and its effects
