Ethical Theory Russ Shafer-Landau, 2007-07-30 In presenting this reader on ethical theory Shafer Landau philosophy U of Wisconsin has made sure to cover the standard topics of the day consequentialism deontology contractarianism and virtue ethics but has also sought to include areas that are less common in sections on moral standing moral responsibility moral knowledge and works that question the very possibility of systematic ethics He also includes a section that discusses ethics and religion and another that examines prima facie duties and particularism Rather than include critics views following the various theoretical presentations he has instead decided to include more works of allied thinkers in order to provide readers with a more nuanced view of the particular view in question Selections from classic writers such as Aristotle Thomas Hobbes Immanuel Kant and Plato are accompanied by more contemporary writings Annotation 2007 Book News Inc Portland OR booknews.com Distributed by Syndetic Solutions LLC

The Three Godfathers Peter B. Kyne, 2025-03-17 *The Three Godfathers* by Peter B Kyne is a heartfelt and unforgettable Western tale of redemption sacrifice and unexpected grace following three hardened outlaws who stumble upon a newborn baby in the desert and make a solemn vow to protect it no matter the cost As they journey through the unforgiving landscape driven by a newfound sense of duty and love each man is transformed by the innocent life they carry finding within themselves a humanity they d long forgotten The story blends grit and sentiment in a way that s both moving and timeless drawing inspiration from the biblical tale of the Three Wise Men while grounding it in the raw reality of frontier life Kyne s portrayal of flawed men struggling toward redemption through a simple selfless act speaks powerfully to the enduring hope that even the most broken souls can find purpose and dignity In today s world where themes of second chances unlikely heroism and the power of compassion still resonate deeply this story feels as relevant as ever Ideal for readers who are drawn to emotionally driven Westerns redemptive journeys or stories that show how love however unexpectedly it arrives can change everything

Treatment for Crime David Birks, Thomas Douglas, 2018-11-01 Preventing recidivism is one of the aims of criminal justice yet existing means of pursuing this aim are often poorly effective highly restrictive of basic freedoms and significantly harmful Incarceration for example tends to be disruptive of personal relationships and careers detrimental to physical and mental health restrictive of freedom of movement and rarely more than modestly effective at preventing recidivism Crime preventing neurointerventions CPNs are increasingly being advocated and there is a growing use of testosterone lowering agents to prevent recidivism in sexual offenders and strong political and scientific interest in developing pharmaceutical treatments for psychopathy and anti social behaviour Future neuroscientific advances could yield further CPNs we could ultimately have at our disposal a range of drugs capable of suppressing violent aggression and it is not difficult to imagine possible applications of such drugs in crime prevention Neurointerventions hold out the promise of preventing recidivism in ways that are both more effective and more humane But should neurointerventions be used in crime prevention And may the state ever permissibly impose CPNs as part of the criminal justice process either unconditionally or

as a condition of parole or early release The use of CPNs raises several ethical concerns as they could be highly intrusive and may threaten fundamental human values such as bodily integrity and freedom of thought In the first book length treatment of this topic Treatment for Crime brings together original contributions from internationally renowned moral and political philosophers to address these questions and consider the possible issues recognizing how humanity has a track record of misguided harmful and unwarrantedly coercive use of neurotechnological solutions to criminality The Engaging Philosophy series is a new forum for collective philosophical engagement with controversial issues in contemporary society
