Save Generations Y And Z:

Generation on a Tightrope Arthur Levine, Diane R. Dean, 2012-09-04 Today's college students feel as if they are crossing an abyss between their dreams and the reality of an uncertain future. They are a generation seeking stability in a time of profound and accelerating change. They want government and our other social institutions to work in a time when they're broken; they cling to the American Dream in an age of diminished expectations. They are walking a tightrope attempting to balance digital connectedness and personal isolation, global citizenship and local vision, commonality and difference in the most diverse generation in American history and a desire to be treated as mature adults while being more dependent on their parents than previous college students. *Generation on a Tightrope* offers a compelling portrait of today's undergraduate college students that sheds light on their attributes, expectations, aspirations, academics, attitudes, values, beliefs, social lives, and politics. Based on research of 5,000 college students and student affairs practitioners from 270 diverse college campuses, the book explores the similarities and differences between today's generation of students and previous generations. The authors examine the myriad forces that have shaped these students and will continue to shape them as they prepare to meet the future. The first two volumes in this series exploring the psyche of college students: *When Dreams and Heroes Died* (1980) and *When Hope and Fear Collide* (1998) offered thoughtful and accurate profiles of the students of the 1980s and 1990s. As *Generation on a Tightrope* clearly reveals, today's students need a very different education than the undergraduates who came before them: an education for the 21st Century which colleges and universities are ill-equipped to offer and which will require major changes of them to provide. Painting a realistic picture of today's college students, the authors offer guidance to higher education professionals, researchers, practitioners, policymakers, employers, parents, and the public. The book's insights can help them equip students for the world they face and the world they will help to create. *Starseed Lives - Four Generations on Earth!* The Abbotts, 2016-12-08 STARSEED LIVES: Four Generations On Earth By The Abbotts. A Quick Read Book. The Starseeds are young people born since the late 1960s who have come to Earth to create Unity and help the planet. The Abbotts, paranormal experts, have written four short stories about these four generations: X, Y, Z, and A that you will easily relate to and find inspiring. Stories of finding your special purpose here on Earth, finding love, and creating the life you truly desire. Illustrated and in 14 pt for easy reading. A Beacon of Light Book. Economic Challenges and Young Adults Magdalena Osińska, 2025-06-17 In recent years, there has been an unprecedented shift in the attitudes of young individuals towards the key economic issues they encounter as they embark on their adult lives. Sociologists have identified two distinct generations, namely Generation Y and Generation Z, which exhibit behaviours contrary to those of their parents and older generations. The reasons behind these shifts are shared across European countries where these generations have experienced lives characterized by peace, cultural diversity, globalization, economic stability, relative economic and social well-being, as well as parental care and education. Addressing a gap in the economic literature, this book uniquely bridges the

current understanding of youth with empirical evidence specific to Central and Eastern European Countries represented by Poland and Czechia Germany was taken as an example of a Western European Country The novelty lies in identifying the contemporary trends and determinants shaping the decision making process of young adults regarding the labour market savings and investments job satisfaction retirement and sustainable consumption The book draws on a theoretical foundation from both economic and sociological perspectives The book comprises ten interconnected chapters each contributing to the central theme of youth intentions and attitudes toward economic financial issues The summary is presented from the perspective of contemporary megatrends The target audience includes students and researchers in fields related to contemporary economic challenges such as economics psychology and sociology Given the challenges faced by young adults from post socialist states implementing the policy recommendations in the book may contribute to reducing the gap between them and their counterparts in Western European countries Institutions involved in social policy including both non governmental organizations and public entities will also find the policy implications to be of interest

Colouring the Future Gary Rynhart,2020-01-16 The world is in a mess but the United Nations has a plan to fix things The Sustainable Development Goals SDGs are little talked about but they are ambitious utopian and cover a vast range of seemingly intractable issues What is more this book argues they will probably work Gary Rynhart has worked within the UN system for two decades wrestling with difficult problems in many different countries around the world He is optimistic that a combination of the SDGs and the fresh perspective of the young can deliver the massive changes that the world so badly needs The book begins by providing an insider s insight into how big global deals like the SDGs are negotiated behind the scenes It continues by looking in turn at critical issues and showing how UN agencies have tackled them in the past and plan to do so in future in the arenas of human rights decent work democracy conflicts and disasters It concludes by examining the political context a world dogged by populism and fake news but in which the engagement of Generations Y and Z promises to ride to the rescue
