Saving Face And Other Stories:

Saving Face and Other Stories Norah Lofts, 2005 A collection of nine stories set in the business and professional world of a small country town Each story ends with a surprise and often a shocking one **Saving Face** Heather Laine Talley, 2014-08-15 Winner Body and Embodiment Award presented by the American Sociological Association Imagine yourself without a face the task seems impossible The face is a core feature of our physical identity Our face is how others identify us and how we think of our self Yet human faces are also functionally essential as mechanisms for communication and as a means of eating breathing and seeing For these reasons facial disfigurement can endanger our fundamental notions of self and identity or even be life threatening at worse Precisely because it is so difficult to conceal our faces the disfigured face compromises appearance status and perhaps our very way of being in the world In *Saving Face* sociologist Heather Laine Talley examines the cultural meaning and social significance of interventions aimed at repairing faces defined as disfigured Using ethnography participant observation content analysis interviews and autoethnography Talley explores four sites in which a range of faces are repaired face transplantation facial feminization surgery the reality show *Extreme Makeover* and the international charitable organization Operation Smile Throughout she considers how efforts focused on repair sometimes intensify the stigma associated with disfigurement Drawing upon experiences volunteering at a camp for children with severe burns Talley also considers alternative interventions and everyday practices that both challenge stigma and help those seen as disfigured negotiate outsider status Talley delves into the promise and limits of facial surgery continually examining how we might understand appearance as a facet of privilege and a dimension of inequality Ultimately she argues that facial work is not simply a conglomeration of reconstructive techniques aimed at the human face but rather that appearance interventions are increasingly treated as lifesaving work Especially at a time when aesthetic technologies carrying greater risk are emerging and when discrimination based on appearance is rampant this important book challenges us to think critically about how we see the human face *Chioniso and Other Stories* Shimmer Chinodya, 2012-03-01 In this new collection *Chioniso and other stories* we are once again reminded how Shimmer Chinodya mines his experience for nuggets Playing with his doppelganger Godfrey he looks back on life in Harare and in Zimbabwe over the last decade exploring it from a familial perspective How does a father cope with a rebellious daughter or a wife he perceives as wayward How does one mediate traditional gender roles What to do when status in the form of a car undermines the stability of a marriage How does one manage a friendship with a new farmer What moral compromises are demanded by new wealth and political cronyism And what is the effect of religion on our lives Have we become more caring and compassionate or does piety provide a mask to disguise greed and ambition and justify a contempt for the poor This collection of stories will make you laugh but it will also challenge you to reconsider what it means to be Zimbabwean in the 21st century *Out of Bounds and Other Stories* Howard Feigelman, 2006-04 In this short story compilation author Howard Paul Feigelman takes you from the

On Saving Face Michael Keevak, 2022-06-20 In *On Saving Face* Michael Keevak traces the Western reception of the Chinese concept of face during the past two hundred years arguing that it has always been linked to nineteenth century colonialism Lose face and save face have become so normalized in modern European languages that most users do not even realize that they are of Chinese origin Face is an extremely complex and varied notion in all East Asian cultures It involves proper behavior and the avoidance of conflict encompassing every aspect of one s place in society as well as one s relationships with other people One can give face get face fight for face tear up face and a host of other expressions But when it began to become known to the Western trading community in China beginning in the middle of the nineteenth century it was distorted and reduced to two phrases only lose face and save face both of which were used to suggest distinctly Western ideas of humiliation embarrassment honor and reputation The Chinese were judged as a race obsessed with the fear of losing their face and they constantly resorted to vain attempts to save it in the face of Western correction Lose face may be an authentic Chinese expression but save face is different Save face was actually a Western invention To save or to lose face the giving of face or the humiliating absence of such a noble gesture have since the nineteenth century been regarded as archetypical features of the puzzling cultural universe that China represented in the eyes of the West This book is the fruit of many years of meticulous research by Michael Keevak conclusively argued and importantly enjoyably written A must for any reader with an interest in Chinese culture Lars Laamann SOAS University of London Revising assumptions that saving face is a term of exclusively Chinese origin Keevak traces deftly how the expression
