**A Commentary on 'The Cosmic Doctrine'**  
 John Michael Greer,2023-03-28 A fascinating analysis of the most important work of occult philosophy in the 20th Century Dion Fortune s The Cosmic Doctrine is a foundational text which has been required reading for students of the occult since it was first published in 1956 In it she attempts to explain the meaning and evolution of the cosmos from the first beginnings to our lives today However the The Cosmic Doctrine isn t an easy book to read It s conciseness makes it hard going for every sentence requires close attention but the challenge it offers to its readers goes well beyond this In a phrase that has become famous in occult circles since its publication The Cosmic Doctrine is intended to train the mind not to inform it it attempts to communicate to the reader an unfamiliar way of thinking and so a great deal of patience and hard work are required to grasp what it has to say Some of the difficulties however can be smoothed out by reframing and rephrasing the ideas Fortune presents and this is what this book aims to do John Michael Greer provides a learned and elucidating commentary on this classic text to allow students and teachers alike to more easily digest and understand this fantastic book

about the Cosmic Doctrine teaching has been the almost total emphasis in explaining evolution simply as being the psychic nuts and bolts of God Leaving one with the impression that God may be reduced from a Great and Infinite Being to a kind of mechanical Newtonian clockwork However there is much more to it than that The higher up the planes you go although esoteric theory tends to describe it as all more abstract in actual fact things become so much more complex vibrant vivid bursting and brimming with life in incredible profusion It is another form of experience however The broadest though simple analogy would be to liken the existence on the higher levels as something after the order of a Bach fugue which could indeed seem to some a rather dry abstraction but which to the attuned and educated ear is a revelation of divinity harmony and celestial order The reality is not easy to describe in concepts let alone in words How best to describe a rainbow to a blind man
