Undermining Race Phylis Cancilla Martinelli, 2015-10-19 Undermining Race rewrites the history of race immigration and labor in the copper industry in Arizona The book focuses on the case of Italian immigrants in their relationships with Anglo Mexican and Spanish miners and at times with blacks Asian Americans and Native Americans requiring a reinterpretation of the way race was formed and figured across place and time Phylis Martinelli argues that the case of Italians in Arizona provides insight into in between racial and ethnic categories demonstrating that the categorizing of Italians varied from camp to camp depending on local conditions such as management practices in structuring labor markets and workers housing and the choices made by immigrants in forging communities of language and mutual support Italians even light skinned northern Italians were not considered completely white in Arizona at this historical moment yet neither were they consistently racialized as non white and tactics used to control them ranged from micro to macro level violence To make her argument Martinelli looks closely at two white camps in Globe and Bisbee and at the Mexican camp of Clifton Morenci Comparing and contrasting the placement of Italians in these three camps shows how the usual binary system of race relations became complicated which in turn affected the existing race based labor hierarchy especially during strikes The book provides additional case studies to argue that the biracial stratification system in the United States was in fact triracial at times According to Martinelli this system determined the nature of the associations among laborers as well as the way Americans came to construct whiteness

capital conspired to govern not only women's bodies but their role in the changing American Southwest Hernández focuses on a time when the borderlands saw a rapid influx of white settlers who encountered elite landholding Californios Hispanos and Tejanos Sex was inseparable from power in the borderlands and women were integral to the stabilization of that power In drawing these stories from the archive Hernández illuminates contemporary ideas of sexuality through the lens of the borderland's history of expansionist violent and gendered conquest By extension Hernández argues that Mexicana Nuevomexicana Californiana and Tejana women were key actors in the formation of the western United States even as they are too often erased from the region's story Western Legal History, 1998 **El México de afuera** Maciel, David
