**The World Is Always Coming to an End** Carlo Rotella, 2019-04-26 This portrait of Chicago's South Shore and its people is a thought provoking deep dive into a neighborhood that remains in perpetual transition Kirkus Reviews An urban neighborhood remakes itself every day and unmakes itself too It is houses and stores and streets but it's also people the people who make it their home some eagerly others grudgingly A neighborhood can thrive or it can decline and neighbors move in and move out Sometimes they stay but withdraw behind fences and burglar alarms If a neighborhood becomes no longer a place of sociability and street life but of privacy indoors and fearful distrust outdoors is it still a neighborhood In the late 1960s and 1970s Carlo Rotella grew up in Chicago's South Shore neighborhood a place of neat bungalow blocks and desolate commercial strips and sharp sometimes painful social contrasts In the decades since the hollowing out of the middle class has left residents confronting or avoiding each other across an expanding gap that makes it ever harder for them to recognize each other as neighbors Rotella tells the stories that reveal how that happened stories of deindustrialization stories of gorgeous apartments with vistas onto Lake

Michigan and of Section 8 housing vouchers held by the poor At every turn South Shore is a study in contrasts shaped and reshaped over the past half century by individual stories and larger waves of change that make it an exemplar of many American urban neighborhoods Talking with current and former residents and looking carefully at the interactions of race and class persistence and change Rotella explores the tension between residents deep investment of feeling and resources in the physical landscape of South Shore and their hesitation to make a similar commitment to the community of neighbors living there Unlike any work of contemporary urban studies that I know It combines elements of journalism archival research ethnography and memoir in a study of South Shore the South Side Chicago neighborhood in which Carlo grew up in the 1970s It is at times lyrical at times analytic and always engaging Eric Klinenberg Public Books **The Chicago Tribune Tower Competition** Katherine Solomonson, 2003-11-15 In 1922 the Chicago Tribune sponsored an international competition to design its new corporate headquarters Both a serious design contest and a brilliant publicity stunt the competition received worldwide attention for the hundreds of submissions from the sublime to the ridiculous it garnered In this lavishly illustrated book Katherine Solomonson tells the fascinating story of the competition the diverse architectural designs it attracted and its lasting impact She shows how the Tribune used the competition to position itself as a civic institution whose new headquarters would serve as a defining public monument for Chicago For architects planners and others the competition sparked influential debates over the design and social functions of skyscrapers It also played a crucial role in the development of advertising consumer culture and a new national identity in the turbulent years after World War I *We Are Not Here Forever* Ana M.
