Lost Cities 50 Discoveries In World Archaeology:

Lost Cities: 50 Discoveries in World Archaeology Paul G. Bahn,1999 **Lost Cities** Paul G. Bahn,1999 Discusses the fifty greatest archeological discoveries from around the world and their impact on human history *The Greenwood Encyclopedia of Homes through World History* James M. Steele,2009-03-30 The house throughout history in every place in the world has been built to provide shelter from the elements The dwellings that have resulted are as different as the people that have built them the social norms that prevailed at the time and place in which they were built and the natural environment that they adapted to Studying them now in a comprehensive way allows us to understand the social political economic and religious conditions that existed for their inhabitants They are a three dimensional record of culture Twenty four pages of color images along with black and white images through three volumes illustrate the homes of people throughout the world The volumes cover ancient times to the late Middle Ages the Renaissance to the Industrial Revolution and the Post Industrial Revolution to the Present *The Resilient City* Lawrence J. Vale,Thomas J. Campanella,2005-01-20 In 1871 the city of Chicago was almost entirely destroyed by what became known as The Great Fire Thirty five years later San Francisco lay in smoldering ruins after the catastrophic earthquake of 1906 Or consider the case of the Jerusalem the greatest site of physical destruction and renewal in history which over three millennia has suffered wars earthquakes fires twenty sieges eighteen reconstructions and at least eleven transitions from one religious faith to another Yet this ancient city has regenerated itself time and again and still endures Throughout history cities have been sacked burned torched bombed flooded besieged and leveled And yet they almost always rise from the ashes to rebuild Viewing a wide array of urban disasters in global historical perspective *The Resilient City* traces the aftermath of such cataclysms as the British invasion of Washington in 1814 the devastation wrought on Berlin Warsaw and Tokyo during World War II the late 20th century earthquakes that shattered Mexico City and the Chinese city of Tangshan Los Angeles after the 1992 riots the Oklahoma City bombing the destruction of the World Trade Center Revealing how traumatized city dwellers consistently develop narratives of resilience and how the pragmatic process of urban recovery is always fueled by highly symbolic actions *The Resilient City* offers a deeply informative and unsentimental tribute to the dogged persistence of the city and indeed of the human spirit
