Magicians of the Gods Graham Hancock, 2015-09-10 Ten year anniversary edition with new introduction from the author Star Reader Reviews Captivating necessary and enlightening Essential Wonderfully researched This book is as good if not better than Fingerprints of the Gods Read this book Change your perspective Graham Hancock star of Netflix s ANCIENT APOCALYPSE is author of the global bestseller Fingerprints of the Gods A book which remains an astonishing deeply controversial wide

ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Magicians of the Gods the sequel to his seminal work explores how at the end of the last ice age fragments from a giant comet caused a global cataclysm on a scale unseen since the extinction of the dinosaurs wiping out an advanced civilization from the earth. Making us a species with amnesia forced to begin again like children with no memory of what went before. This book is filled with completely new evidence, new travels to the world's most mysterious archaeological sites, new insights based on the latest scientific evidence. The impacts from the comet fragments, a mile wide, approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometers of ice, destabilizing the Earth's crust and causing the global deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. But there were survivors, known to later cultures by names such as the Sages, the Magicians, the Shining Ones, and the Mystery Teachers of Heaven. They travelled the world in their great ships, doing all in their power to keep the spark of civilization burning, settling at key locations: Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru, and across the Pacific. Everywhere they went, these Magicians of the Gods brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future. For the comet that wrought such destruction may not be done with us yet. Astronomers believe that a 20-mile wide dark fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe and in the Sphinx and the pyramids of Egypt warns that the Great Return will occur in our time.
