R. Sekar, 2004 **By the Sweat and Toil of Children: Efforts to eliminate child labor**, 1994 **Child labour: a textbook for university students**, 2004 Annotated Bibliography on Child Labour, 2003 The aim of this bibliography on child labour was to assemble the best of the rapidly increasing literature and research material in recent years and make it accessible The focus is from 1995 to 2002 although a few authoritative earlier sources have been included Three basic selection criteria were applied the material had to be considered representative relevant and to present sources that had been previously overlooked *Lost Innocence, Stolen Childhoods* Thérèse Blanchet, 1996 With reference to Bangladesh
Inhabiting 'Childhood': Children, Labour and Schooling in Postcolonial India S. Balagopalan, 2014-04-29 Through a rich ethnography of street and working children in Calcutta India this book offers the first sustained enquiry into postcolonial childhoods arguing that the lingering effects of colonialism are central to comprehending why these children struggle to inhabit the transition from labour to schooling **Child Labour** Anaclaudia Gastal Fassa, David L. Parker, Thomas J. Scanlon, 2010-07 Child labour constitutes a major public health concern with estimates that world wide 110 million children aged 5 14 years are engaged in labour that can be described as hazardous or intolerable This book examines both the rights oriented and public health perspectives on child labour A rights approach ensures that exploitative and abusive work is considered not just in terms of a labour market or health rights approach but also in terms of human dignity and the solutions that preserve the rights of children and communities The public health approach is steeped in the relationship between individuals and their community seeking to identify how the presence or absence of government programmes and policies affects those involved The economics perspective is also presented early in the book to aid understanding of the causes and consequences of child labour before the alternate public health and sociological views are presented The editors examine factors such as poverty malnutrition social disadvantage gender globalisation and education and look at both physical and psychological threats This book will be of use to academics and students involved in health health policy social sciences and development disciplines Those actively involved public health initiatives such as policy makers and non governmental organisations will also find this an invaluable resource **New Perspectives On British Authors** Rama Kundu, 2006 The irresistible and eternal attraction of an island has surfaced in literature as a varied range of tropes the domain of strange fantastic creatures flora and fauna an Other since the ancient times epitome of the charm of the distant in the romantic era real geographical spaces since the era of sea voyaging discovery and re mapping of islands with the emergence of imperialism new meanings arising from the new imperial discourse in the postcolonial era the islanders themselves writing back to the mainstream canon Today we have a great harvest of island literature arising out of various

discourses including postcolonial postimperial feminist ecological cultural etc in addition to unique works on island arising from individual perceptions philosophical imaginative emotional nostalgic etc A study of island literature across ages and lands thus can introduce us not only to a vast spectrum of ideas approaches contemplation ideation discourses and counter discourses But also to a wide network of inter references in which authors across lands and ages from Homer to Shakespeare Defoe Swift Ballantyne Golding Coetzee Virginia Woolf to Margaret Atwood Rhys Walcott Eco Saramago seem to reach out to one another and shake hands A basic perceptual difference between the outsider and the insider as they behold their encircled space has contributed to great counterpoints compulsive confinement challenge of survival thrill of discovery satisfaction of possession love claustrophobia desire to escape desire to return and repossess etc which writers have brought to correspond to a wide range of contrapuntal discourses It has been envisioned as the exclusive space for the artist the woman as time's backwater as the magic realm of the surreal hyperreal fantasia etc Island has come to semiotize a wide range of tropes and significations It appears that if island is a signifier then the signified are endless Indeed the island paradigm seems to be like a magic crystal reflecting innumerable strands and shades of meanings depending on the way you looked at it The subject involves an area of oceanic vastness starting from the coast of the ancient ages right into the ports of the modern and postmodern times The area has been ever spreading and vibrant texts have been sprawling all the time sprouting newer branches accumulating newer layers of meaning and striking newer depths of perception and insight This book an outcome of the UGC Emeritus Fellowship has been an attempt to scoop up a few of these infinite infinities of islands as they are presented and projected in texts across ages and spaces starting from Valmiki and Homer and continuing into the postmodern islands of Jose Saramago and Umberto Eco

By the Sweat and Toil of Children, 1994 **Constructing and Reconstructing Childhood** Allison James, Alan Prout, 2015-05-08 When the first edition of this seminal work appeared in 1990 the sociology of childhood was only just beginning to emerge as a distinct sub discipline Drawing together strands of existing sociological writing about childhood and shaping them into a new paradigm the original edition of this Routledge Classic offered a potent blend of ideas that informed even inspired many empirical studies of children's lives because it provided a unique lens through which to think about childhood Featuring a collection of articles which summarised the developments in the study of childhood across the social sciences including history psychology sociology anthropology feminist and developmental studies scholars and professionals from developed and developing countries world wide shared their knowledge of having worked and of working with children Now with a new introduction from the editors to contextualise it into the 21st century this truly ground breaking text which helped establish childhood studies as a distinctive field of enquiry is being republished
