Natural Perspective:

All Natural* Nathanael Johnson, 2013-01-29 In this age of climate change killer germs and obesity it's easy to feel as if we've fallen out of synch with the global ecosystem. This ecological anxiety has polarized a new generation of Americans: many are drawn to natural solutions and organic lifestyles while others rally around high tech development and industrial efficiencies. Johnson argues that both views when taken to extremes can be harmful even deadly. Johnson, raised in the crunchy granola epicenter of Nevada City, California, lovingly and rigorously scrutinizes his family's all-natural mindset, a quest that brings him into the worlds of an outlaw midwife, radical doctors, renegade farmers, and one hermit forester. Along the way he uncovers paradoxes at the heart of our ecological condition. Why even as medicine improves are we becoming less healthy? Why are more American women dying in childbirth? Why do we grow fatter the more we diet? Why have so many attempts to save the environment backfired? In *All Natural*, a sparklingly intelligent, witty and scrupulously reported narrative, Johnson teases fact from faith and offers a rousing and original vision for a middle ground between natural and technological solutions that will assuage frustrated environmentalists, perplexed parents, and confused consumers alike. *Still* *Photographic Specialist (AFSC 23152)* Clifford Nation, 1985 [Meditation from Buddhist, Hindu, and Taoist Perspectives](#) Robert Altobello, 2009 Engages readers with its original philosophical and pragmatic analysis of traditional Asian religions: philosophy, meditation practice, and the supreme spiritual ideals associated with the Hindu, Buddhist, and Taoist traditions. The text boldly bridges the theory/practice distinction. A central underpinning rests on the assumption that meditation practice without theory is groundless and that theory without practice is useless. Identifies and analyzes common elements found across traditions in which the practice of meditation plays a central role in human development, and readers will find a wealth of detailed reflection on the relationship between spiritual growth and meditation practice from the Hindu, Buddhist, and Taoist perspectives. From publisher description **Crime Scene Photography** Edward M. Robinson, 2010-02-03 *Crime Scene Photography* is a book wrought from years of experience with material carefully selected for ease of use and effectiveness in training and field tested by the author in his role as a Forensic Services Supervisor for the Baltimore County Police Department. While there are many books on non-forensic photography, none of them adequately adapt standard image taking to crime scene photography. The forensic photographer, or more specifically the crime scene photographer, must know how to create an acceptable image that is capable of withstanding challenges in court. This book blends the practical functions of crime scene processing with theories of photography to guide the reader in acquiring the skills, knowledge, and ability to render reliable evidence. Required reading by the IAI Crime Scene Certification Board for all levels of certification. Contains over 500 photographs. Covers the concepts and principles of photography as well as the how-to of creating a final product. Includes end-of-chapter exercises. *Emotion regulation and cognitive processes* Carmen Moret-Tatay, Vilfredo De Pascalis, 2023-08-24 *Read The Thoughts of Leonardo Da Vinci : Thoughts On Art and Life/Leonardo Da Vinci, Pathfinder*

[The Share of Perspective](#) Emmanuel Alloa, 2024-08-02 This book is a defense of perspectivism in the age of post truth At the crossroads of science art and philosophy it unearths a tradition that we must rediscover the point of view is not only what divides it is also what is shared Today perspective is associated with individualism and personal viewpoints But in an age of post truth the only robust answer to relativism lies in fact in a reappraisal of perspectivism In discussion with contemporary new realisms of various sorts this book makes a case why perspectivism alone can avoid us falling back into epistemological naiveté A journey into the history of optics art philosophy and social psychology this book unearths the forgotten tradition of perspectiva communis which makes perspective the vector of a common horizon This book argues that vision is never immediate Rather to see through is the key to understanding the perspectival operation We never see by ourselves all seeing must pass through something other than itself through the mediation and the detour of an apparatus or the witness of a third party Besides the theoretical framework for this new approach to perspective this book presents a series of case studies ranging from innovative interpretations of classical authors and key moments in the history of art from ancient painting trompe l'oeil and Brunelleschi's experiment in Renaissance Florence to the issue of perspective in the work of contemporary artists such as Robert Rauschenberg The Share of Perspective will be of interest to scholars and advanced students working in aesthetics phenomenology art history and the history of sciences
