Natural Theology:

The Bible, Natural Theology and Natural Law: Conflict Or Compromise? Robert A. Morey, 2010-05 Dr Robert Morey's study of natural law and natural theology raises important questions that every Bible believer will want answered. His careful study and explanation of various Bible passages will yield a useful orientation to the classic arguments furnished us by the Reformers and their faithful heirs. Dr Nelson Kloosterman: The present volume presents a devastating critique of natural theology and natural law. Its argument is solidly biblical and its accumulation of biblical data is overwhelming. I hope that God prospers it so that many will read it and take heed. Dr John Frame: A. W. Tozer said the most important thing about any person is what comes into their mind when they think of the word God. If you digest Dr Morey's book you will think of God as the glorious One depicted in Holy Scripture. John G. Reisinger: I appreciate Dr Morey's emphasis on making the Bible alone the theoretical basis for science and the arts. All throughout the book he consistently points to the Scriptures as the basis for sustaining everything else. Dr Simon Kistemaker: *Natural Theology* Rev. Bernard Boedder, 1896. *An Introduction to Natural Theology* Maurice R. Holloway, 2018-06-21. What is the God of the philosopher? Can the philosopher that is to say can human reason unenlightened by the revealed word come to a true and secure understanding of He Who Is? Is it possible for mere man without the impact of a personal experience intimate and intuitive to arrive by means of an objective demonstration at an absolute affirmation that the Being we call God exists or that He is Pure Act Existence Itself because without him the world of our experience is unintelligible a complete contradiction. And even if we admit as all Christian philosophers must that unaided reason is able by its own power to reach an objectively true and secure assent that God exists is there any evidence in the recorded history of our world that man without the directive knowledge of revelation ever did secure by a metaphysical effort this absolute truth that the *Ipsum Esse* exists? Whatever be the answer to this difficult problem and we do not pretend to know it it is obvious that Father Holloway in composing his philosophical approach to God allowed himself to be guided by the knowledge of faith. Indeed he must have prayed often for the enlightenment which the supernatural motion of divine grace brings even to the limited and imperfect intellect of a philosopher. From the Foreword by Henri Renard S. J. *Natural Theology* William Paley, 1802. *Natural Theology* William Paley, 1828. *Lectures and Essays on Natural Theology and Ethics* William Wallace, 1898. **The World in the Shadow of God** Ephraim Radner, 2010-06-01. In *The World in the Shadow of God* Ephraim Radner argues for a vigorous Christian natural theology and insists that such a theology must of necessity be performed poetically. The peculiar character of such a theology is found in its disclosing of the natural limits that indicate indirectly the impinging and more fundamental reality of the divine life. Natural theology represents the encounter between created reality and the shadow of God's creative and revelatory grace. However the encounter is a morally demanding task for the Christian church if it is to be held accountable to the truth on which its life is based. The first portion of the book offers an extended critical essay on the nature of this sort of natural

theology while the second provides a developed set of examples through poems that display the natural world in light of the truths articulated in the Apostles Creed Those interested in the intersection of theology literature history and the natural world will be challenged by this attempt to renew a basic element of Christian knowledge and culture Re-Imagining Nature Alister E. McGrath, 2016-04-01 Reimagining Nature is a new introduction to the fast developing area of natural theology written by one of the world s leading theologians The text engages in serious theological dialogue whilst looking at how past developments might illuminate and inform theory and practice in the present This text sets out to explore what a properly Christian approach to natural theology might look like and how this relates to alternative interpretations of our experience of the natural world Alister McGrath is ideally placed to write the book as one of the world s best known theologians and a chief proponent of natural theology This new work offers an account of the development of natural theology throughout history and informs of its likely contribution in the present This feeds in current debates about the relationship between science and religion and religion and the humanities Engages in serious theological dialogue primarily with Augustine Aquinas Barth and Brunner and includes the work of natural scientists philosophers of science and poets

Natural Theology David Haines, 2021-12-02 Christians affirm that Scripture alone reveals truths about God which cannot be known by mere reason such as the Trinity or the Gospel itself But how do we account for Scripture s apparent talk of a knowledge of God possible solely from creation Or for our own sense of the divine in nature Or for the startling insights of ancient philosophers about the nature of God The answer natural theology Often misrepresented as a fruitless human attempt to comprehend God natural theology has in fact been a significant part of Christian theology throughout history It has shaped the Christian doctrine of God and provided a starting point for evangelizing non Christians In an age when theologians and missionaries alike are in need of stronger doctrinal foundations it is a doctrine as vital as ever In this brief guide David Haines first outlines the biblical basis for natural theology suggesting that if Scripture is correct certain truths about God should be well attested by non Christians A thorough historical survey demonstrates that this is indeed the case and that the Church has long made use of that which is revealed to reason in order to serve Christ who is revealed to faith
