Documenting the World Gregg Mitman, Kelley Wilder, 2016-12-20 Imagine the twentieth century without photography and film Its history would be absent of images that define historical moments and generations the death camps of Auschwitz the assassination of John F Kennedy the Apollo lunar landing It would be a history in other words of just artists renderings and the spoken and written word To inhabitants of the twenty first century deeply immersed in visual culture such a history seems insubstantial imprecise and even perhaps unscientific Documenting the World is about the material and social life of photographs and film made in the scientific quest to document the world Drawing on scholars from the fields of art history visual anthropology and science and technology studies the chapters in this book explore how this documentation from the initial recording of images to their acquisition and storage to their circulation has altered our lives our ways of knowing our social and economic relationships and even our surroundings Far beyond mere illustration photography and film have become an integral transformative part of the world they seek to show us

Julia Margaret Cameron Julian Cox, Colin Ford, 2003-03-20 According to one of Julia Margaret Cameron's great nieces we never knew what Aunt Julia was going to do next nor did anyone else This is an accurate summation of the life of the British photographer 1815-1879 who took up the camera at age forty eight and made more than twelve hundred images during a fourteen year career Living at the

height of the Victorian era Cameron was anything but conventional experimenting with the relatively new medium of photography promoting her own art through exhibition and sale and pursuing the eminent personalities of her age Alfred Tennyson Charles Darwin Thomas Carlyle and others as subjects for her lens For the first time all known images by Cameron one of the most important nineteenth century artists in any medium are gathered together in a catalogue raisonné In addition to a complete catalogue of Cameron's photographs there is information on her life and times initial experiments artistic aspirations techniques small format images albums commercial strategies sitters and sources of inspiration Also provided are a selected bibliography of publications on Cameron a list of exhibitions of her work held both in her time as well as our own and a summary of important collections where her pictures can be found **A Victorian Traveler in the Middle East**

Nancy Micklewright, 2017-07-05 Juxtaposing the albums of Lady Brassey an overlooked figure among Victorian women travelers with Brassey's travel books Nancy Micklewright takes advantage of a unique opportunity to examine the role of photography in the 1870s and 1880s in constructing ideas about place and empire This study draws on a range of source material to investigate aspects of the Brassey collection The book begins with an overview of Lady Brassey's life and projects as well as an examination of issues relevant to subsequent discussions of the travel literature the photographs and the albums in which the photographs are assembled Lady Brassey is next considered as a traveler and public figure and the author gives an overview of Brassey's travel literature placing her in her social and political context Micklewright then considers the seventy volumes of photographs which comprise the Brassey album collection taking an especially close look at the eight albums devoted to the Middle East Analyzing the specific contents and structure of the albums and the interplay of text and image within she explores how the Brasseys constructed their presentation of the region While confirming some earlier work about constructions of the Orient by the British during the time this book offers a much more detailed and nuanced understanding of how photographic and literary constructions were related to individual experience and identity within a larger British identity The first appendix explores the illustrative relationship between the photograph albums and Lady Brassey's travel books yielding an understanding of the processes involved in transferring the photographic image to a printed one at a particular moment in the development of book illustration A second appendix lists the contents and named photographers of all seventy albums in the Brassey collection All in all Micklewright's study makes a significant contribution to our understanding of the complex and unstable social
