Natural Wealth Of Nations:

The Natural Wealth of Nations David Roodman, 2014-04-08 Every year the world's governments spend over US 700 billion subsidizing activities that harm the environment The Natural Wealth of Nations shows how cutting these wasteful subsidies can actually boost the economy save tax and help the environment By raising taxes on harmful activities like air pollution whilst cutting taxes on payrolls and profits pollution is discouraged and both work and investment boosted In a comprehensive global survey The Natural Wealth of Nations provides examples from Sweden to Spain to Malaysia of the growing number of countries that are successfully using these market based approaches to clean up their environments This is an accessible practical book offering concrete proposals for cleaning up the world's environment and overcoming ecological ignorance

The Small Nation Solution John H. Bodley, 2013-05-16 In The Small Nation Solution eminent anthropologist John H Bodley argues that the contemporary global problems of poverty conflict and environmental degradation are problems of scale and power Bodley's solution involves keeping nations small so as to limit the power of elite directors It is a simple idea with profound implications He spotlights successful small nations around the world as the best working models of sustainable sociocultural systems and shows how these diverse small nations can be the building blocks of a transformed global system that could save the world

An Inquiry Into the Nature and Causes of the Wealth of Nations Adam Smith, 1798 This edition contains generous selections from all five volumes of The Wealth of Nations and places Smith's inquiry into its historical intellectual and cultural context
