L. Economou,2023-05-11 **Metaphilosophy of Law** Pawel Banas,Adam Dyrda,Tomasz Gizbert-Studnicki,2016-10-06 Methodological and metaphilosophical disputes in the contemporary philosophy of law are very vivid Basic issues remain controversial The purpose of the book is to confront approaches of Anglo Saxon and continental philosophy of law to the following topics the purpose of legal philosophy the role of disagreement in legal philosophy methodology of legal philosophy conceptual analysis and normativity of law We see those areas of legal metaphilosophy as drawing recently more and more attention in the literature The authors of particular chapters are internationally recognised scholars rooted in various traditions Anglo Saxon Gerald Postema Dennis Patterson Kenneth Ehrenberg Veronica Rodriguez Blanco Southern European Riccardo Guastini Manuel Atienza Nordic Torben Spaak German Ralf Poscher and Central European Jan Wolenski Tomasz Gizbert Studnicki Adam Dyrda They represent different approaches and different backgrounds The purpose of the volume is to contribute to the cross cultural discussions of fundamental issues of philosophy of law *The Unintended Reformation*

Brad S. Gregory,2015-11-16 In a work as much about the present as the past Gregory identifies the unintended consequences of the Reformation for the modern condition a hyperpluralism of beliefs intellectual disagreements that splinter into fractals of specialized discourse the absence of a substantive common good and the triumph of capitalism s driver consumerism

The Great European Stage Directors Volume 6 Clare Finburgh Delijani,Peter M. Boenisch,2021-10-07 This volume examines the work of Joan Littlewood Giorgio Strehler and Roger Planchon demonstrating how these three directors take up key aesthetic prompts from earlier innovators Stanislavski the modernist avant garde and not least Brecht and thereby prepare the ground for contemporary politically engaged directors theatre It argues that in creating their major productions in the prosperous glorious decades that followed the devastation of the Second World War they represent a first expressly European generation of theatre directors Revisiting works from the classical dramatic canon by drawing on popular theatre

traditions and reaching out to spectators beyond the educated middle class elite they put theatre in the service of uniting a traumatized continent This study posits that for Littlewood Strehler and Planchon theatre has the capacity to create communities

Volume 6, Tome II: Kierkegaard and His German Contemporaries - Theology Jon Stewart, 2017-03-02 This volume explores in detail Kierkegaard's various relations to his German contemporaries Kierkegaard read German fluently and made extensive use of the writings of German speaking authors Apart from his contemporary Danish sources the German sources were probably the most important in the development of his thought generally This volume represents source work research dedicated to tracing Kierkegaard's readings and use of the various German speaking authors in the different fields in a way that is as clearly documented as possible The volume has been divided into three tomes reflecting Kierkegaard's main areas of interest with regard to the German speaking sources namely philosophy theology and a more loosely conceived category which has here been designated literature and aesthetics This second tome of the present volume is dedicated to Kierkegaard's main theological influences In theology the German and the Danish traditions had long been closely connected via their common source Luther In Kierkegaard's time the main influence on theology was probably German philosophy and specifically Hegelianism Most of the German theologians were in some way in a critical dialogue with this movement Another important influence was Schleiermacher who visited Copenhagen in 1833 and was important for several Golden Age thinkers From his student days Kierkegaard kept abreast of the German theological literature from which he drew much inspiration

Naturalizing Heidegger David E. Storey, 2015-02-10 Explores the evolution of Heidegger's thinking about nature and its relevance for environmental ethics In Naturalizing Heidegger David E Storey proposes a new interpretation of Heidegger's importance for environmental philosophy finding in the development of his thought from the early 1920s to his later work in the 1940s the groundwork for a naturalistic ontology of life Primarily drawing on Heidegger's engagement with Nietzsche but also on his readings of Aristotle and the biologist Jakob von Uexküll Storey focuses on his critique of the nihilism at the heart of modernity and his conception of the intentionality of organisms and their relation to their environments From these ideas a vision of nature emerges that recognizes the intrinsic value of all living things and their kinship with one another and which anticipates later approaches in the philosophy of nature such as Hans Jonas's phenomenology of life and Evan

Thompson's contemporary attempt to naturalize phenomenology

C.S. Lewis S. Loomis, 2009-09-28 Collaborating with the genius of C S Lewis and particularly his brilliant work *The Abolition of Man* the authors offer a multi faceted

Platonic realism fictionalism neutralism and alternative logics and semantics among other topics The book offers a helpful taxonomy of the wide range of options available to the classical theist for dealing with the challenge of Platonism It probes in detail the diverse views on the reality of abstract objects and their compatibility with classical theism It contains a most thorough discussion rooted in careful exegesis of the biblical and patristic basis of the doctrine of divine aseity Finally it challenges the influential Quinean metaontological theses concerning the way in which we make ontological commitments
