Canterbery,2009-12-14 This book is the first in the field to cover exclusively the modern radical economists Science has always had its radicals economics is unexceptional in this regard The book begins with the persona of Karl Marx and his soulmate Friedrich Engels the most radical of all continuing with the central ideas of Marx including his theory of capitalism and an understanding of why in Marx s view capitalism is doomed Thereafter Thorstein Veblen fills the role as the USA radical who founded the only uniquely American school of economics the institutionalist school This is followed by Joseph Schumpeter and his theory of capitalist motion According to Schumpeter the demise of capitalism is self inflicted through creative destruction The bestselling authors Robert Heilbroner and John Kenneth Galbraith straddle both the insitutionalist and Post Keynesian schools The new left radicals emanated from Galbraith s Harvard University and are still around today The heyday of the new right came during the administration of Ronald Reagan and was led by the neo Austrians Finally the book concludes by analyzing the Post Keynesians claim to be the legitimate heirs to Keynesianism Thus far they fall into the radical camp This book is also available as a **God and the Land** Stephanie A. Nelson,2008-12-01 In this pathbreaking book which includes a powerful new translation of Hesiod s Works and Days by esteemed translator David Grene Stephanie Nelson argues that a society s vision of farming contains deep indications about its view of the human place within nature and our relationship to the divine She contends that both Hesiod in the Works and Days and Vergil in the Georgics saw farming in this way and so wrote their poems not only about farming itself but also about its deeper ethical and religious implications Hesiod Nelson argues saw farming as revealing that man must live by the sweat of his brow and that good for human beings must always be accompanied by hardship Within this vision justice competition cooperation and the need for

labor take their place alongside the uncertainties of the seasons and even of particular lucky and unlucky days to form a meaningful whole within which human life is an integral part Vergil Nelson argues deliberately modeled his poem upon the Works and Days and did so in order to reveal that his is a very different vision Hesiod saw the hardship in farming Vergil sees its violence as well Farming is for him both our life within nature and also our battle against her Against the background of Hesiod's poem which found a single meaning for human life Vergil thus creates a split vision and suggests that human beings may be radically alienated from both nature and the divine Nelson argues that both the Georgics and the Works and Days have been misread because scholars have not seen the importance of the connection between the two poems and because they have not seen that farming is the true concern of both farming in its deepest and most profoundly unsettling sense

God and the Land : The Metaphysics of Farming in Hesiod and Vergil Stephanie A. century the principles of the Chicago School have guided urban analysts throughout the world Los Angeles has been regarded as an exception to the rules governing the growth of American cities But just as the Chicago School emerged at a time when that city was reaching new national prominence Los Angeles is now making its impression on the minds of urbanists across the world From Chicago to L A begins the task of defining an alternative agenda for urban studies and examines the case for shifting the focus of urban studies from Chicago to Los Angeles The authors experienced scholars from a variety of disciplines examine The concepts that have blocked our understanding of Southern California cities The imaginative structures that people have been using to understand and explain Los Angeles The utility of the Los Angeles School of urbanism

Trinitarian Personhood Bill Ury, 2002-02-01 The concept of the person is a crucial yet elusive component in the development of Western thought Few concepts are as replete with definitional difficulty Equally important is the application of a proper definition to all major Christian doctrinal commonplaces This work recognizing the insufficiency of modern theology to offer a cogent concept of person proposes a thorough historical and theological evaluation of Trinitarian personhood presented in three critical paradigm shifts by which one can measure the development of the idea of true personhood presented The three watershed eras of discernment of divine personhood presented are seen here as first the Cappadocian position of the mutual indwelling perichoresis of the divine persons is contrasted with Augustine's view of the place of relations in defining divine persons Second the ideas of Richard of St Victor whose *caritas consummata* and its relational implications met the nemesis of the Thomistic category of subsistent relations And last as an example of this important discussion in modernity the German Heribert Mühlen's dynamic phenomenological approach to Trinitarian personhood is offered as a means of countering the implicit modalisms of Barth and Rahner If the personhood of God is in essence Being in Another then Christianity must apply that ontology to all sectors of reality to be fully Christian

Between Light and Storm Esther Woolfson, 2022-12-06 A landmark examination of the fraught relationship between humans and animals taking the reader from Genesis to climate change Beginning with the very origins of life on Earth Woolfson considers prehistoric human animal interaction and traces the millennia long evolution of conceptions of the soul and conscience in relation to the animal kingdom and the consequences of our belief in human superiority She explores our representation of animals in art our consumption of them for food our experiments on them for science and our willingness to slaughter them for sport and fashion as well as examining concepts of love and ownership Drawing on philosophy and theology art and history as well as her own experience of living with animals and coming to know love and respect them as individuals Woolfson examines some of the most complex ethical issues surrounding our treatment of animals and argues passionately and persuasively for a more humble more humane relationship with the creatures who share our world
