

Nature In Ireland

Claire Mitchell

Nature In Ireland:

Nature in Ireland John Wilson Foster, Helena C. G. Chesney, 1998 How has Irish nature been studied How has it been expressed in literature and popular culture How has it influenced and been influenced by political economic and social change These long neglected questions are pursued in *Nature in Ireland* a pioneering collection of original essays by leading naturalists science writers and cultural historians who bring us from the geological prehistory of Ireland to the environmental threats of the late twentieth century

Nature and the Environment in Nineteenth-Century Ireland

Matthew Kelly, 2019-11-05 The environmental humanities are one of the most exciting and rapidly expanding areas of interdisciplinary study and this collection of essays is a pioneering attempt to apply these approaches to the study of nineteenth century Ireland By bringing together historians geographers and literary scholars the volume offers new and original insights into familiar topics

RSPB Where to Discover Nature in Britain and Northern Ireland Marianne

Taylor, 2009-09-07 This is the first book to explore in detail every RSPB reserve in Britain from the wild forests of Caledonia and teeming seabird cities of the northern coasts to the rolling heathlands pristine wetlands and urban oases of the south Here you ll find everything you need to plan and enjoy days out at some of the best wildlife watching places anywhere with full details of access arrangements visitor facilities advice on when to visit and the wildlife you can expect to see throughout the year For every reserve you ll find a map of how to get here and where appropriate the trails around the reserve and the habitats you ll find so you can plan your visit according to what you d like to see and how much time you have to visit Illustrated throughout with colour photographs of these beautiful wild places and the animals and plants that live in them

A Natural History of Ireland, in Three Parts Gerard Boate, 1726 **A Natural History of Ireland in Three Parts** Molyneux, 1726

Religion, Identity and Politics in Northern Ireland Claire Mitchell, 2006 There has been increased interest in the relationship between religion identity and politics in modern societies Building on this debate Claire Mitchell presents a challenging analysis of religion in contemporary Northern Ireland arguing that religion is not merely a marker of ethnicity and that it continues to provide many of the meanings of identity community and politics Drawing on a range of unique interview material this book traces how individuals and groups in Northern Ireland have absorbed religious types of cultural knowledge belonging and morality

Ireland in International Tax Planning Charles Haccius, 2004 Revised and updated edition providing the introduction to Irish tax legislation along with an explanation of the effect of treaty relief The discussion of treaties includes practical comparison with the OECD Model Convention and the effect on treaty relief of the Constitution of Ireland Follows practical discussion of Ireland s tax breaks beginning with a discussion of the circumstances in which a company resident or carrying on business in Ireland qualifies for the 12.5% rate of corporation tax and continuing with the issues of the tax efficient establishment and financing of a trading presence in Ireland whether through a subsidiary or a permanent establishment or both Possible tax planning opportunities are then discussed both long standing tax breaks

such as relief for artists and inventors forestry bloodstock and foreign domiciliaries and opportunities such as those arising from the exercise of an employment in Ireland and the employment of crew members employed on ships or aircraft by an Irish resident company The book also discusses transfer pricing and anti avoidance provisions both in the Irish domestic tax legislation and in tax treaties **Natural Science and the Origins of the British Empire** Sarah Irving,2015-09-30

Represents a history of the British Empire that takes account of the sense of empire as intellectual as well as geographic dominion the historiography of the British Empire with its preoccupation of empire as geographically unchallenged sovereignty overlooks the idea of empire as intellectual dominion **Democracy and Northern Ireland A.**

Little,2004-03-31 Democracy and Northern Ireland examines the influence of liberal theories of democracy on recent developments in the Northern Irish peace process In so doing it analyzes the applicability of theories such as political liberalism multiculturalism and deliberative democracy to deeply divided societies Little contends that these models need to build upon recent critiques provided by feminists and civil society theorists in the construction of a more radical interpretation of democracy that can provide a framework for democratic politics in Northern Ireland **The Changing**

Wildlife of Great Britain and Ireland David L. Hawksworth,2003-06-26 Periodic comprehensive overviews of the status of the diverse organisms that make up wildlife are essential to determining trends threats and future prospects Just over 25 years ago leading authorities on different kinds of wildlife came together to prepare an assessment of their status of a wide range of organisms in Great Britain and Ireland in The Changing Flora and Fauna of Britain also edited by Professor David L Hawksworth CBE Now in The Changing Wildlife of Great Britain and Ireland he has gathered together some of the original and also new contributors to review changes since that time and look to the future Contributions range from viruses diatoms fungi lichens mites and nematodes through butterflies dragonflies flies and slugs to flowering plants ferns mammals birds and fish The state of knowledge in different groups is assessed and the effectiveness of statutory and other measures taken to safeguard wildlife considered The picture is far from bleak ameliorating sulphur dioxide levels have benefited sensitive lichens and mosses in a dramatic way water quality improvement has been beneficial there have been few certain extinctions and rediscoveries of species thought to have been lost Biodiversity Action Plans have also benefited targeted species but habitat restoration and management for some is not always good for others But there are worrying trends in declining populations with an increasing number being regarded as threatened or endangered especially in agricultural areas and where woodland management has changed particular threats from introduced species and concern over the effects of climate change Some of the smaller organisms remain poorly known a situation unlikely to change as expertise in many is scant or being lost This stock check and look to the future will be a key source book to conservationists naturalists and professional biologists for many years to come
