Nature Near Late Essays Of Richard Neutra:

Nature Near Richard Joseph Neutra, 1989 **Richard Neutra's Miller House** Stephen Leet, 2004-04 In 1937 the architect and his sophisticated client produced a masterwork of forward thinking and artful architecture Nature through a Hospital Window Shan Jiang, 2022-03-10 Adopting an evidence based approach this book uses two state of the art experimental studies to explore nature s therapeutic benefits in healthcare environments emphasizing how windows and transparent spaces can strengthen people nature interactions High quality supportive and patient centred healthcare environments are a key priority for healthcare designers worldwide with ageing populations creating a demand for remodeled and updated facilities The first study demonstrates individual psychophysiological responses moods and preferences in simulated hospital waiting areas with different levels of visual access to nature through windows while the second experiment uses cutting edge immersive virtual reality techniques to explore how gardens and nature views impact people s spatial cognition wayfinding behaviors and experience when navigating hospitals Through these studies and discussions drawing on architectural theory the book highlights the important benefits of having access to nature from hospital interiors This concise volume will appeal to academics and designers interested in therapeutic landscapes and healthcare architecture Between Concept and Identity Esteban Fernández-Cobián, 2014-10-02 The identity of places of worship is one of the most difficult problems faced by religious architecture at the start of this new millennium Contemporary globalising experiences demand peremptorily a reflection both conceptual and situational on the origin of objects people and institutions Nevertheless the chance of these migration flows annihilating already existing religious identities is perceived as a problem This problem is directly linked to the survival of architecture as a system carrying a material representation of the divine and constituting a self reference system for the community of believers Therefore it is important to define the extent to which the new religious architecture has given room to an abstract type of formal experimentation which is disconnected from social reality Does this architecture maintain its bridging sacramental value or on the contrary has it given way to the conceptualist trends still alive in the artistic world Is metaphor a valid concept for the Christian religion Is there an essential aspect linking this architecture to the centuries old tradition of the Catholic Church Different architectural pedagogical exhibition and formal initiatives have arisen in recent years and it is necessary to get to know them with the purpose of understanding where contemporary religious architecture is heading in its eternal search for a permanent identity **Art Books** Wolfgang M. Freitag, 2013-10-28 First published in 1997 For this second edition of *Art Books A Basic Bibliography of Monographs on Artists* the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also

of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition **Weimar on the Pacific** Ehrhard Bahr,2008-08-08 In the 1930s and 40s LA became a cultural sanctuary for a distinguished group of German artists and intellectuals including Thomas Mann Theodor W Adorno Bertolt Brecht Fritz Lang and Arnold Schoenberg who were fleeing Nazi Germany This book is the first to examine their work and lives Richard Neutra and the Making of the Lovell Health House, 1925-35 Edward Dimendberg,2025-09-02 This absorbing volume reveals the impact of the Lovell Health House from its inspiration through its construction to its impact This book tells the story of the Lovell Health House designed and built by Austrian American architect Richard Neutra 1892 1970 Perched on a steep hillside with panoramic views of Los Angeles the home pioneered the use of concrete and steel radically advanced the ideals of hygienic carefree and open air living and explored new relationships between space structure the natural world and physical and psychological well being It was widely documented and written about in leading architectural journals when it was erected and these publications elevated the house to the status of an icon in the history of modernism and an essential work of the international modern movement It also helped to launch the global career of one of the central figures of twentieth century architecture The book is framed with an introduction by Edward Dimendberg and includes new texts by Crosby Doe and Thomas Hines At the heart of this project are six portfolios on the background design making circulation reception and resonance of this seminal residence by curator and archivist Nicholas Olsberg Featuring historical photography by Willard Morgan and contemporary photography by Grant Mumford this volume will help bring Neutra s masterpiece to an entirely new audience *Through the Healing Glass* John Stanislav Sadar,2016-02-12 In the mid 1920s a physiologist a glass chemist and a zoo embarked on a project which promised to turn buildings into medical instruments The advanced chemistry of Vita Glass mobilised theories of light and medicine health practices and glassmaking technology to compress an entire epoch s hopes for a healthy life into a glass sheet yet it did so invisibly To communicate its advantage Pilkington Bros spared no expense as they launched the most costly and sophisticated marketing campaign in their history Engineering need for Vita Glass employed leading edge market research evocative photography and vanguard techniques of advertising psychology accompanied by the claim Let in the Health Rays of Daylight Permanently through Vita Glass Windows This is the story of how despite the best efforts of two glass companies the leading marketing firm of the day and the opinions of leading medical minds Vita Glass failed However it epitomised an age of lightness and airiness sleeping porches flat roofs and ribbon windows Moreover through its remarkable print advertising it strove to shape the ideal relationship between our buildings and our bodies **Nothing Permanent** Todd Cronan,2023-06-20 A critical look at the competing motivations behind one of modern architecture s most widely known and misunderstood movements Although mid century modern has evolved into a highly popular and ubiquitous architectural style

this term obscures the varied perspectives and approaches of its original practitioners In *Nothing Permanent* Todd Cronan displaces generalizations with a nuanced intellectual history of architectural innovation in California between 1920 and 1970 uncovering the conflicting intentions that would go on to reshape the future of American domestic life Focusing on four primary figures R M Schindler Richard Neutra and Charles and Ray Eames *Nothing Permanent* demonstrates how this prolific era of modern architecture in California rather than constituting a homogenous movement was propelled by disparate approaches and aims Exemplified by the twin pillars of Schindler and Neutra and their respective ideological factions these two groups of architects represent opposing poles of architectural intentionality embodying divergent views about the dynamic between interior and exterior the idea of permanence and the extent to which architects could exercise control over the inhabitants of their structures Looking past California modernism's surface level idealization in present day style guides home decor publications films and television shows *Nothing Permanent* details the intellectual aesthetic and practical debates that lie at the roots of this complex architectural moment Extracting this period from its diffusion into visual culture Cronan argues that mid century architecture in California raised questions about the meaning of architecture and design that remain urgent today

The American Lawn Georges Teyssot, 1999 The site of political demonstrations sporting events and barbecues and the object of loving if not obsessive care and attention the lawn is also symbolically tied to our notions of community and civic responsibility serving in the process as one of the foundations of democracy
