Stalin Kevin McDermott, 2006-01-23 Stalin's massive impact on Soviet history is often explained in terms of his inherent evil personality defects and power lust While not rejecting these notions Kevin McDermott argues that Stalin's thoughts and actions are best contextualised in the inter relationship between war and revolution in the first half of the twentieth century The author presents the case for taking the Soviet dictator seriously as a Marxist revolutionary whose fundamental beliefs and modus operandi were forged in the cauldron of civil and international wars ideologically driven class wars and revolutionary upheavals associated with the age of catastrophe 1914-45 Only by so doing can the complex motivations for such cataclysmic events as the Great Terror be adequately addressed Incorporating recently declassified materials from the former Soviet Party archives this new appraisal of Stalin also provides a critical review of the latest western and Russian historiography It is essential reading for anyone studying the debates on one of the leading figures of Soviet history

Stalinist Confessions Igal Halfin, 2009-08-30 During Stalin's Great Terror accusations of treason struck fear in the hearts of Soviet citizens and lengthy imprisonment or firing squads often followed Many of the accused sealed their fates by agreeing to confessions after torture or interrogation by the NKVD Some however gave up without a fight In *Stalinist Confessions* Igal Halfin investigates the phenomenon of a mass surrender to the will of the state He deciphers the skillfully rendered discourse through which Stalin defined his cult of personality and consolidated his power by building a grassroots base of support and instilling a collective psyche in every citizen By rooting out evil opposition wherever it hid good communists could realize purity morality and their place in the greatest society in history Confessing to trumped up charges comrades made willing sacrifices to their belief in socialism and the necessity of finding and making examples of its enemies Halfin focuses his study on Leningrad Communist University as a microcosm of Soviet society Here eager students proved their loyalty to the new socialism by uncovering opposition within the University Through their meetings and self reports students sought to become Stalin's New Man Using his exhaustive research in Soviet archives including NKVD records party materials student and instructor journals letters and newspapers Halfin examines the transformation in the language of Stalinist socialism From an initial attitude that dismissed dissent as an error in judgment and redeemable through contrition to a doctrine where members of the opposition became innately wicked and their reform impossible Stalin's socialism now defined loyalty in strictly black and white terms Collusion or allegiance real or contrived now or in the past with enemies of the people Trotsky Zinoviev Bukharin Germans capitalists was unforgivable The party now took to the task of purging itself with ever increasing zeal
