Navajo Aging Stephen J. Kunitz, Jerrold E. Levy, 1991 Studies the relationship between health status health care utilization and the family organization of a sample of Navajos over age sixty five paying special attention to the question of whether social support or the lack thereof has a measurable influence on health status *The Columbia Guide to American Indians of the Southwest* Trudy Griffin-Pierce, 2010-06-08 A major work on the history and culture of Southwest Indians The Columbia Guide to American Indians of the Southwest tells a remarkable story of cultural continuity in the face of migration displacement violence and loss The Native peoples of the American Southwest are a unique group for while the arrival of Europeans forced many Native Americans to leave their land behind those who lived in the Southwest held their ground Many still reside in their ancestral homes and their oral histories social practices and material artifacts provide revelatory insight into the history of the region and the country as a whole Trudy Griffin Pierce incorporates her lifelong passion for the people of the Southwest especially the Navajo into an absorbing narrative of pre and postcontact Native experiences She finds that even though the policies of the U S government were meant to promote assimilation Native peoples formed their own response to outside pressures choosing to adapt rather than submit to external change Griffin Pierce provides a chronology of instances that have shaped present day conditions in the region as well as an extensive glossary of significant people places and events Setting a precedent for ethical scholarship she describes different methods for researching the Southwest and cites sources for further archaeological and comparative study Completing the volume is a selection of key primary documents literary works films Internet resources and contact information for each Native community enabling a more thorough investigation into specific tribes and nations The Columbia Guides to American Indian History and Culture also include The Columbia Guide to American Indians of the Great Plains Loretta Fowler The Columbia Guide to American Indians of the Northeast Kathleen J Bragdon The Columbia Guide to American Indians of the Southeast Theda Perdue and Michael D Green **American Indian and Alaska Native Elders** United States. Encyclopedia of Medical Anthropology Carol R. Ember, Melvin Ember, 2003-12-31 Medical practitioners and the ordinary citizen are becoming more aware that we need to understand cultural variation in medical belief and practice The more we know how health and disease are managed in different cultures the more we can recognize what is culture bound in our own medical belief and practice The Encyclopedia of Medical Anthropology is unique because it is the first reference work to describe the cultural practices relevant to health in the world s cultures and to provide an overview of important topics in medical anthropology No other single reference work comes close to matching the depth and breadth of information on the varying cultural background of health and illness around the world More than 100 experts anthropologists and other social scientists have contributed their firsthand experience of medical cultures from around the world Crossing Between Worlds Jeanne M. Simonelli, 2008-03-07 The Navajo people of Canyon de Chelly must negotiate a delicate balance between

the old and the new as they struggle to maintain their traditional ways of life in the midst of archaeologists U S Park Service employees and the increasing numbers of tourists who come to visit this hauntingly beautiful part of northeastern Arizona Anthropologist writer Jeanne Simonelli who worked at Canyon de Chelly as a seasonal park ranger interweaves stories of her personal experiences and friendships with canyon residents with discussions of native history and culture in the region Focusing on the members of one extended Navajo family Simonelli describes the small moments of their daily lives shearing goats baking bread attending a solemn all night health ceremony washing clothes at the local laundromat playing traditional games and contemporary sports talking about the history of the Dinthe Navajo people and pondering the changes they have witnessed in the canyon and the difficulties they confront Crossing Between Worlds is sumptuously illustrated with insightful black and white photographs that document the everyday activities of Navajo families in one of the most spectacular corners of the American Southwest

Chronicling Cultures Robert V. Kemper, Anya Peterson Royce, 2002-04-23 Some field sites have hosted anthropologists for as long as half a century Chronicling Cultures collects articles from principals of many of the longest and best known anthropology projects from four continents the Kung Harvard Chiapas Project Gwembe Valley Tzintzuntzan and Navajo among others These projects have brought a new understanding of change and persistence in communities over time They have forced researchers to develop methods of involving local communities in research of using data over generations of scholars and of resolving ethical issues of research versus advocacy The projects range from individual scholars who return home year after year to large scale institutionalized projects involving many researchers and numerous studies This volume will be an important addition to the literature on fieldwork on the history of ethnology and on ethnographers role in their host cultures

Oral History Reimagined: Emerging Research and Opportunities Pack, Sam, 2020-03-20 The traditional method of composing the life history as a flowing narrative is not only morally dishonest but also intellectually inadequate because it conveys the false impression of a chronologically timeless and uninterrupted soliloquy They are highly processed constructed and reified Questions have been removed entire sections have been reordered and redundancies have been deleted After the multiple stages involved in transforming a narrative life into an inscribed text the final product bears little resemblance to the original transcription of the interview By focusing only on the final product life histories ignore the other two components in the communicative process Oral History Reimagined Emerging Research and Opportunities demonstrates the potential of the life history to serve as a new way of writing vulnerably about the other by refusing to hide the authors by sharing equal billing in a dialogic encounter with their informants in order to produce an ethnographic narrative that is multivocal conversational and co constructed The book examines the idea that a reflexive ethnography in the form of a reciprocal exchange between researchers and informants constitutes the logical extension of reflexivity in anthropological research The book s ultimate goal is a balance that dissolves the distinction between the ethnographer as theorizing being and the informant as passive data that reduces the gap between subject and

object and that presents both ethnographer and informant as having active voices Featuring topics on life histories reflexive ethnography and narrative structure of autoethnography it is ideally designed for anthropologists ethnographers historians policymakers academicians researchers and students Healing Ways Wade Davies,2001 Chronicles the advent of so called western or scientific medicine in the modern era and how Navajos adapted but did not compromise their traditional healings ways *Regional Cultures and Mortality in America* Stephen J. Kunitz,2015 Examines how state government policies and their historic beginnings have present day effects on their residents political lives and on population health especially for marginalized groups Minorities, Aging and Health Kyriakos S. Markides,Manuel Miranda,1997-09-22 Ethnic minorities represent a growing percentage of the elderly population in the United States Yet the impact of aging on minority groups and subgroups has only been partially studied Minorities Aging and Health fills the gap and opens the debate on how to provide for the specific needs of an increasingly elderly population Specific issues covered in this volume include mortality and life expectancy the incidence of chronic disease and disabilities diet and nutrition mental health access to health services and long term care and public health care policy
