The Colorado Plateau Donald L. Baars,2000 Written with the general reader in mind this is the updated edition of the classic on the geology of the red rock and canyon country of the Fours Corners region of Utah Colorado Arizona and New Mexico *Geology of U.S. Parklands* Eugene P. The Carboniferous-Permian Transition Spencer G. Lucas,William A. DiMichele,James E. Barrick,Joerg W. Schneider,Justin A. Spielmann,2013 *A Bridge Between Cultures* David Kent Sproul,2001 **The Earth Memory Compass** Farina King,2018-10-01 The Din or Navajo have their own ways of knowing and being in the world a cultural identity linked to their homelands through ancestral memory The Earth Memory Compass traces this tradition as it is imparted from generation to generation and as it has been transformed and often obscured by modern modes of education An autoethnography of sorts the book follows Farina King s search for her own Din identity as she investigates the interconnections among Navajo students their people and Din Bik yah or Navajo lands across the twentieth century In her exploration of how historical changes in education have reshaped Din identity and community King draws on the insights of ethnohistory cultural history and Navajo language At the center of her study is the Din idea of the Four Directions in which each of the cardinal directions takes its meaning from a sacred mountain and its accompanying element East for instance is Sis Naajin Blanca Peak and white shell West Dook o oos d San Francisco Peaks and abalone North Dib Nitsaa Hesperus Peak and black jet South Tsoodzi

Mount Taylor and turquoise King elaborates on the meanings and teachings of the mountains and directions throughout her book to illuminate how Navajos have embedded memories in landmarks to serve as a compass for their people a compass threatened by the dislocation and disconnection of Din students from their land communities and Navajo ways of learning Critical to this story is how inextricably Indigenous education and experience is intertwined with American dynamics of power and history As environmental catastrophes and struggles over resources sever the connections among peoplehood land and water King s book holds out hope that the teachings guidance and knowledge of an earth memory compass still have the power to bring the people and the earth together

Vertebrate Paleontology in Utah David D. Gillette,1999 The 52 papers in this vary in content from summaries or state of knowledge treatments to detailed contributions that describe new species Although the distinction is subtle the title Vertebrate Paleontology in Utah indicates the science of paleontology in the state of Utah rather than the even more ambitious intent if it were given the title Vertebrate Paleontology of Utah which would promise an encyclopedic treatment of the subject The science of vertebrate paleontology in Utah is robust and intense It has grown prodigiously in the past decade and promises to continue to grow indefinitely This research benefits everyone in the state through Utah s museums and educational institutions which are the direct beneficiaries

The Mountains of New Mexico Robert Julian,2006 This guide to New Mexico s mountains provides information such as location elevation and relief ecosystems archaeology Native American presence mining history ghost towns recreation geology ecology and plants and animals
