The Politics of Maritime Power Andrew T. H. Tan, 2010-10-18

Since the crucial maritime battles that were fought during the Second World War in both the Atlantic and Pacific Oceans and the post-war period which saw a naval standoff between a vast US navy and a growing Soviet navy, the focus of international maritime power has changed. Major maritime powers have deployed warships, aircraft carriers and heavy land forces around the globe for purposes of diplomacy such as in maintaining far-flung alliances for deterrent purposes such as in the Taiwan Straits for warfighting such as in its crucial support roles in recent conflicts in Afghanistan and both Gulf Wars and for complex emergencies such as tsunami and earthquake rescue in Indonesia and Pakistan. Increasingly maritime power is employed in counter-terrorism such as in joint patrols, counter-terrorism exercises and in intercepting ships suspected of carrying weapons of mass destruction.

The Politics of Maritime Power is an exploration of the contemporary facets of maritime power, particularly as an instrument of the state in the post-Second World War era. This reference volume is divided into four parts with chapters exploring various aspects of modern maritime power, written by maritime experts, a series of maps which show major maritime zones, a glossary which contains over 240 entries on various aspects of maritime power and a detailed bibliography.

Liber Amicorum Judge Shigeru Oda Nisuke Ando, Edward McWhinney, Rüdiger Wolfrum, Betsy Baker Røben, 2022-11-07

Judge Shigeru Oda, having served since 1976 in three successive nine-year terms on the International Court of Justice, has helped to shape the Court's jurisprudence for over a quarter century. His influence on the law of the sea spans an even longer period, beginning with his doctoral dissertation at Yale Law School in the 1950s and continuing with his involvement in the First, Second and Third UN Conferences on the Law of the Sea. In a tribute to Judge Oda's significant contributions to international law, leading scholars on the law of the sea, international dispute settlement and the ICJ itself have produced a *Festschrift* in his honour that promises to be a standard reference work on these topics for years to come. This two-volume work, containing over 95 articles, begins by examining the role of the international judge and the jurisdiction of international tribunals, including reservations to jurisdiction, the Optional Clause, the Special Agreement and the power to indicate special measures. It contains a particularly lively debate regarding the proliferation of international tribunals and whether the potential for conflicting decisions is problematic or productive. Other areas of focus include the history and current development of the law of the sea, the first in-depth examination of the establishment and first decisions of the International Tribunal for the Law of the Sea and the ICJ's treatment of the development doctrines and sources of

international law Further sections are devoted to International Litigation as analysed by leading practitioners Land and Maritime Boundaries International Watercourses and Other Waters and Defence the Use of Force and the Law of Armed Conflict The composition of the editorial team Nisuke Ando of Kyoto Edward McWhinney of Ottawa and Rüdiger Wolfrum of Heidelberg reflects Judge Oda's truly international career and the extent to which his work has drawn from and contributed to diverse legal traditions The print edition is available as a set of two volumes 9789041117908
