
THE NAZI DOCTORS

*A study of
the psychology
of evil*

Robert Jay Lifton

Nazi Doctors Medical Killing The Psych

William McKinley Runyan

Nazi Doctors Medical Killing The Psych:

The Nazi Doctors Robert Jay Lifton, 1988-04-12 Winner of the Los Angeles Times Book Prize With a new preface by the author In his most powerful and important book renowned psychiatrist Robert Jay Lifton presents a brilliant analysis of the crucial role that German doctors played in the Nazi genocide Now updated with a new preface *The Nazi Doctors* remains the definitive work on the Nazi medical atrocities a chilling exposé of the banality of evil at its epitome and a sobering reminder of the darkest side of human nature

The Nazi Doctors Robert J. Lifton, 2017 In his most powerful and important book renowned psychiatrist Robert Jay Lifton presents a brilliant analysis of the crucial role that German doctors played in the Nazi genocide Now updated with a new preface *The Nazi Doctors* remains the definitive work on the Nazi medical atrocities a chilling exposé of the banality of evil at its epitome and a sobering reminder of the darkest side of human nature

When Doctors Kill Joshua A. Perper, Stephen J. Cina, 2010-08-12 It would come as no surprise that many readers may be shocked and intrigued by the title of our book Some especially our medical colleagues may wonder why it is even worthwhile to raise the issue of killing by doctors Killing is clearly antithetical to the Art and Science of Medicine which is geared toward easing pain and suffering and to saving lives rather than smothering them Doctors should be a source of comfort rather than a cause for alarm Nevertheless although they often don't want to admit it doctors are people too Physicians have the same genetic library of both endearing qualities and character defects as the rest of us but their vocation places them in a position to intimately interject themselves into the lives of other people In most cases fortunately the positive traits are dominant and doctors do more good than harm While physicists and mathematicians paved the road to the stars and deciphered the mysteries of the atom they simultaneously unleashed destructive powers that may one day bring about the annihilation of our planet Concurrently doctors and allied scientists have delved into the deep secrets of the body and mind mastering the anatomy and physiology of the human body even mapping the very molecules that make us who we are But make no mistake a person is not simply an elegant biological machine to be marveled at then dissected

Coercive Treatment in Psychiatry Thomas W. Kallert, Juan E. Mezzich, John Monahan, 2011-04-25 Coercion is one of the most fascinating and controversial subjects in psychiatry It is a highly sensitive and hotly debated topic in which clinical practice ethics the law and public policy converge This book considers coercion within the healing and ethical framework of therapeutic relationships and partnerships at all levels and addresses the universal problem of how to balance safety versus autonomy when dealing with psychiatric treatment *Coercive Treatment in Psychiatry* is a much needed contribution to the literature The first three sections deal with the conceptual and clinical aspects of coercive treatment the legal aspects and the ethical aspects of coercive treatment In detail these sections cover a broad spectrum of issues coercion in institutions and in the community coercive treatment and stigma the definition of best practice standards for coercive treatment de-escalation of risk situations recent developments in mental health legislation mental health care and patients rights cross cultural perspectives on

coercive treatment historical injustice in psychiatry and paternalism in mental health The fourth section features users views on coercive treatment giving voice to an often unheeded population Finally the book addresses the original topic of coercion and undue influence in decisions to participate in psychiatric research This book presents the first comprehensive review of the issue of coercion in psychiatry With chapters written by the leading experts in the field many of whom are renowned as clear thinkers and experienced clinicians it may be seen as a starting point for international discussions and initiatives in this field aiming to minimize coercion Highly Commended in the Psychiatry section of the 2012 BMA Book Awards

Military Psychiatry, 1994

A Cure for Darkness Alex Riley, 2022-03 What is depression Is it a persistent low mood or a complex range of symptoms Is it a single diagnosis or a diversity of mental disorders requiring different treatments In A Cure for Darkness science writer Alex Riley explores these questions digging into the long history of depression and chronicling the lives of psychiatrists and scientists who sought cures for their patients

Introduction to Political Psychology Martha L. Cottam, Elena Mastors, Thomas Preston, Beth Dietz, 2015-08-14 This comprehensive user friendly introductory textbook to political psychology explores the psychological origins of political behavior The authors introduce readers to a broad range of theories concepts and case studies of political activity to illustrate that behavior The book examines many patterns of political behaviors including leadership group behavior voting media effects race ethnicity nationalism social movements terrorism war and genocide It explores some of the most horrific things people do to each other as well as how to prevent and resolve conflict and how to recover from it The book contains numerous features to enhance understanding including text boxes highlighting current and historical events to help students see the connection between the world around them and the concepts they are learning Different research methodologies used in the discipline are employed such as experimentation and content analysis The third edition of the book has two new chapters one on the media and one on social movements This accessible and engaging introductory textbook is suitable as a primary text on a range of upper level courses in political psychology political behavior and related fields including policymaking

The Oxford Textbook of Clinical Research Ethics Ezekiel J. Emanuel, Christine C. Grady, Robert A. Crouch, Reidar K. Lie, Franklin G. Miller, David D. Wendler, 2008-04-18 The Oxford Textbook of Clinical Research Ethics is the first comprehensive and systematic reference on clinical research ethics Under the editorship of experts from the U S National Institutes of Health of the United States the book s 73 chapters offer a wide ranging and systematic examination of all aspects of research with human beings Considering the historical triumphs of research as well as its tragedies the textbook provides a framework for analyzing the ethical aspects of research studies with human beings Through both conceptual analysis and systematic reviews of empirical data the contributors examine issues ranging from scientific validity fair subject selection risk benefit ratio independent review and informed consent to focused consideration of international research ethics conflicts of interests and other aspects of responsible conduct of research The editors of The Oxford Textbook of Clinical Research Ethics offer a work that critically assesses and advances scholarship in

the field of human subjects research Comprehensive in scope and depth this book will be a crucial resource for researchers in the medical sciences as well as teachers and students **Psychology and Historical Interpretation** William McKinley Runyan,1988 What kind of psychology should be used in historical interpretation How should it be used and on what range of historical problems These are some of the basic questions addressed by the distinguished contributors Last Lectures on the Prevention and Intervention of Genocide Samuel Totten,2017-09-29 Last Lectures on the Prevention and Intervention of Genocide is a collection of hypothetical last lectures by some of the top scholars and practitioners across the globe in the fields of human rights and genocide studies Each lecture purportedly constitutes the last thing the author will ever say about the prevention and intervention of genocide The contributions to this volume are thought provoking engaging and at times controversial reflecting the scholars most advanced thinking about issues of human rights and genocide This book will be of great interest to professors researchers and students of political science international relations psychology sociology history human rights and genocide studies
