
Internet Policy

1. Purpose.

The purpose of this policy is to ensure the proper use of _____'s (hereinafter referred to as Company) internet system and make its employees and users aware of what the Company deems as acceptable and unacceptable use of its internet system. This policy also provides for sanctions in the event of a breach or violation of the policy terms hereunder.

2. Applicability.

This Policy applies to all users of company technology, including employees, contractors, vendors, partners, associates, and any other parties accessing or using the Company's System through on-site or remote terminals.

3. Disclaimer of liability for use of Internet.

The Company is not responsible for material viewed or downloaded by users from the Internet. The Internet is a worldwide network of computers that contains millions of pages of information. Users are cautioned that many of these pages include offensive, sexually explicit, and inappropriate material. In general, it is difficult to avoid at least some contact with this material while using the Internet. Even innocuous search requests may lead to sites with highly offensive content. In addition, having an e-mail address on the Internet may lead to receipt of unsolicited e-mail containing offensive content. Users accessing the Internet do so at their own risk.

4. Duty not to waste computer resources.

Employees must not deliberately perform acts that waste computer resources or unfairly monopolize resources to the exclusion of others. These acts include, but are not limited to, sending mass mailings or chain letters, spending excessive amounts of time on the Internet, playing games, engaging in online chat groups, printing multiple copies of documents, or otherwise creating unnecessary network traffic. Because audio, video and picture files require significant storage space, files of this or any other sort may not be downloaded unless they are business-related.

5. No expectation of privacy.

The computers and computer accounts given to employees are the exclusive property of the Company. No individual should have any expectation of privacy in any communication over this System. The System is to be used solely for company-related business, and is not to be used for personal business or pleasure.
